Greg McAdoo

General Partner at Bolt. Funding entrepreneurs from the very beginning.

United States

Summary

As a general partner at Bolt I am looking for exceptional founders committed to building great businesses. I am a former engineer, founder and CEO who is intimately familiar with what it takes to go from a business concept to an IPO. As an investor I am here to help founders realize their vision with capital, expertise and my network. Throughout my career I have been fortunate to impact ventures like AirBnB, Y-Combinator and Isilon from concept stage to successful outcomes.
