#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholder and Those Charged With Governance of Texture Capital, Inc.

#### **Opinion on the Financial Statement**

We have audited the accompanying statement of financial condition of Texture Capital, Inc. (the "Company") as of June 30, 2025, and the related notes (collectively referred to as the financial statement). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of the Company as of June 30, 2025 in conformity with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

#### 1. ORGANIZATION AND DESCRIPTION OF BUSINESS

Texture Capital Inc (the "Company") is a wholly-owned subsidiary of Texture Holdings Corporation (the "Parent"). The Company was organized on November 8, 2018 as a Delaware corporation and is registered to do business in New York as a foreign entity. The Company is a registered broker-dealer under the Securities Exchange Act of 1934 and is a member of both the Financial Industry Regulatory Authority, Inc. ("FINRA") and the Securities Investor Protection Corporation ("SIPC"), as of September 28, 2020. The Company operates an alternative trading system and a platform for initial digital securities offerings. In addition, the Company conducts private placement of securities and investment advisory services.

The Company does not claim an exemption from SEC Rule 15c3-3 of the Securities Exchange Act of 1934, in reliance on Footnote 74 to SEC Release 34-70073 which provides that the Company did not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers; did not carry accounts of or for customers; and did not carry PAB accounts.

The accompanying financial statements have been prepared from the separate records maintained by the Company and, due to certain transactions and agreements with the Parent, such financial statements may not necessarily be indicative of the financial condition that would have existed or the results that would have been obtained from operations had the Company operated as an unaffiliated entity.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Concentration of risk

The Company maintains cash in a bank account which is interest bearing. Interest bearing and non-interest bearing accounts are insured by the FDIC up to \$250,000 per financial institution. The Company has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on cash.

### **Use of estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

#### **Income taxes**

As a wholly-owned company, the Company files under the Parent's federal consolidated tax return in which all items of income, expense, gains and losses are consolidated with the Parent for tax purposes. The Company has no unrecognized tax benefits at June 30, 2025.

### 2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

### **Uncertain tax positions**

The Company recognizes and measures its unrecognized tax benefits in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification("ASC") 740, Income Taxes. Under that guidance, the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change. As of June 30, 2025, the Company had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements.

The Company's conclusions regarding uncertain tax positions may be subject to review and adjustment at a later date based upon ongoing analyses of tax laws, regulations and interpretations thereof as well as other factors. Generally, Federal, state and local authorities may examine the Company's tax returns for three years from the date of filing.

### Financial instruments - credit losses

In accordance with FASB ASU No. 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments," the ASU adds to U.S. GAAP an impairment model (known as the current expected credit loss ("CECL") model) that is based on expected losses rather than incurred losses. The Company must recognize as an allowance, its estimate of lifetime expected credit losses, which the FASB believes will result in more timely recognition of such losses, if any. A broker-dealer's estimate of expected losses should consider the expected risk of credit loss even if that risk is remote, regardless of the method applied to estimate credit losses.

A broker-dealer, however, is not required to measure expected credit losses on a financial asset (or group of financial assets) in which historical credit loss information adjusted for current conditions and reasonable and supportable forecasts results in an expectation that nonpayment of the amortized cost basis is remote. For financial assets measured at amortized cost (i.e. cash), the Company has concluded that there are no expected credit losses based on the nature or expected life of the financial assets and immaterial historic or expected losses.

## Revenue recognition

In accordance with ASU No. 2014-09, "Revenue from Contracts with Customers" (ASC Topic 606) revenues from contracts with customers is recognized when, or as, the Company satisfies its performance obligations by transferring the promised services to the customers. A service is transferred to a customer when, or as, the customer obtains control of that service. A performance obligation may be satisfied at a point in time or overtime. Revenue from a performance obligation satisfied at a point in time is recognized at the point in time that the Company determines the customer obtains control over the promised service. Revenue from a performance obligation satisfied over time is recognized by measuring the

## 2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

Company's progress in satisfying the performance obligation in a manner that depicts the transfer of the services to the customer. The amount of revenue recognized reflects the consideration the Company expects to receive in exchange for those promised services (i.e., the "transaction price"). In determining the transaction price, the Company considers multiple factors, including the effects of variable consideration, if any.

The Company earns fees from providing a platform for issuers to offer digital security offerings for sale and acting as a placement agent. The Company earns non-refundable retainer fees, which are due and payable pursuant to the terms of the agreement, for the establishment and development of each issuer's platform. Revenue from retainer fees is recognized when the services are rendered and related expenses are recorded when incurred. Placement fees are recognized when transactions are consummated.

The Company's revenues from contracts with customers are recognized when the performance obligations are satisfied at an amount that reflects the consideration expected to be received in exchange for such services. Placement fees are earned at a point in time and retainer fees are earned over time.

## Adoption of new accounting standards

The FASB issued (ASU) 2023-07, "Segment Reporting" (Topic 280) which increased disclosure requirements regarding a public entity's reportable segments effective for fiscal years beginning after December 15, 2023. ASU 2023-07 requires incremental line-item disclosures about each reportable segment's expenses as well as profit and losses. The ASU became effective for the Company on July 1, 2024.

The Company has evaluated the guidance there under and has determined that The Company operates as one operating segment. For further discussion refer to Note 5, Reportable Segments.

## 3. NET CAPITAL REQUIREMENTS

The Company is subject to the uniform net capital requirements of Rule 15c3-1 of the Securities and Exchange Act, as amended, which requires the Company to maintain, at all times, sufficient liquid assets to cover indebtedness. In accordance with the Rule, the Company is required to maintain defined minimum net capital of the greater of 250,000 or 2/3% of aggregate indebtedness.

At June 30, 2025, the Company had net capital, as defined, of \$387,309, which exceeded the required minimum net capital of \$250,000 by \$137,309. Aggregate indebtedness at June 30, 2025 totaled \$54,571. The Company's percentage of aggregate indebtedness to net capital was 14.09%.

#### 4. RELATED PARTY TRANSACTIONS

Pursuant to technology licensing and services agreement with the Parent, the Company incurs fees for the use of the Parent's technology platform ("Texture offering platform"). The Texture offering platform facilitates the primary issuance of exempt securities via a webbased platform that brings together online investors and those persons or entities desiring to raise capital. For the year ended June 30, 2025, the Company reported \$100,000 in expenses as platform fee paid to affiliate.

#### 5. COMMITMENTS AND CONTINGENCIES

As of June 30, 2025, the Company is not aware of any commitments, contingencies or guarantees that may result in a loss or any future obligation.

#### 6. REPORTABLE SEGMENTS

The Company is engaged in a single line of business as a placement agent. The Company has identified its President as the chief operating decision maker (CODM). The CODM predominately uses net income to evaluate the results of the business, predominantly in the forecasting process, to manage the Company. Additionally, the CODM uses excess net capital (see Note 3), which is not a measure of profit and loss, to make operational decisions while maintaining capital adequacy, such as whether to reinvest profits or pay dividends. The Company's operations constitute a single operating segment and therefore, a single reportable segment, because the CODM manages the business activities using information of the Company as a whole. The accounting policies used to measure profit and loss of the segment as the same as those described in Footnote 2, summary of significant accounting policies.

## 7. SUBSEQUENT EVENTS

As noted in Footnote 6, management evaluates the financial results of the business and acknowledges historical losses. The Parent asserts its commitment to ensuring net capital compliance is maintained. Third party, CoreNest Holdings has agreed to purchase equity in the Parent of the Company. The purchase is expected to close August, 2025.

Management of the Company has evaluated events and transactions that may have occurred since June 30, 2025, and determined that there are no material events that would require disclosures in the Company's financial statements.
