Nektar Baziotis - Dr. h.c.

Human Rights: Education | Artificial Intelligence | Investor
Santa Monica, California, United States

Summary

Nektar Baziotis is an experienced entrepreneur, technology leader, and sought-after speaker with over 20 years of expertise in international business development, IT project management, IT business consulting, e-learning, and artificial intelligence. Throughout his career, Nektar has made significant contributions to numerous organizations, companies, and startups across multiple countries.

As the founder of ICARUS AI Inc. and co-founder of ENKI Inc. and Apogee Information Systems, Nektar has successfully implemented large-scale IT products and services for prestigious entities such as the United Nations, the European Commission, the European Parliament, and more. His profound understanding of artificial intelligence, e-learning strategies, and implementation roadmaps has earned him recognition in various magazines and industry publications. In addition, as Director of Technologies at Expert DOJO and CTO of Artest Management Group, he brings a strategic approach to portfolio companies, leveraging AI and cross-sector experience.

Nektar holds a BA in Mathematics from AUTH GR, a Master of Business Administration from Sheffield UK, and has pursued additional studies in Artificial Intelligence from MIT US and entrepreneurship from Wharton US. With a passion for innovation, he has led a team of experts at ICARUS AI in developing an adaptable e-learning platform that seamlessly integrates knowledge management, machine learning, and cognitive understanding. This groundbreaking approach has positioned ICARUS AI as a leader in technological innovation within the e-learning industry.

Driven by a constant desire to revolutionize the field of e-learning, Nektar is a dynamic and engaging speaker who captivates audiences with his insights, thought leadership, and visionary ideas. His presentations offer invaluable knowledge and actionable

strategies for embracing the power of artificial intelligence, transforming learning experiences, and driving organizational growth.
