2025 Annual Report

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
Form 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended January 31, 2026

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File No. 1-32637

GameStop

GameStop Corp.

(Exact name of registrant as specified in its Charter)

Delaware

(State or other jurisdiction of incorporation or organization)

20-2733559

(I.R.S. Employer Identification No.)

625 Westport Parkway

Grapevine, Texas

(Address of principal executive offices)

76051

(Zip Code)

Registrant's telephone number, including area code: (817) 424-2000

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading symbol	Name of each exchange on which registered
Class A Common Stock	GME	NYSE
Warrants to Purchase Common Stock, par value \$0.001 per share	GME WS	NYSE

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated Filer Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 762(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to § 240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the voting and non-voting Class A Common Stock held by non-affiliates of the registrant as of August 1, 2025 was approximately \$9.0 billion, based upon the closing market price of \$22.10 per share of Class A Common Stock on the New York Stock Exchange. (For purposes of this calculation all of the registrant's directors and officers are deemed affiliates of the registrant.)

Number of shares of \$.001 par value Class A Common Stock outstanding as of March 18, 2026: 448,375,157

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the definitive proxy statement of the registrant to be filed pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, for the 2026 Annual Meeting of Stockholders are incorporated by reference into Part III of this Annual Report on Form 10-K.

Disclosure Regarding Forward-looking Statements

This Annual Report on Form 10-K ("Form 10-K") contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). In some cases, forward-looking statements can be identified by the use of terms such as "anticipates," "believes," "continues," "could," "estimates," "expects," "intends," "may," "plans," "potential," "predicts," "pro forma," "seeks," "should," "will" or similar expressions. These statements are only predictions based on current expectations and assumptions and involve known and unknown risks, uncertainties and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. All forward-looking statements included in this Form 10-K are based upon information available to us as of the filing date of this Form 10-K, and we undertake no obligation to update or revise any of these forward-looking statements for any reason, whether as a result of new information, future events or otherwise after the date of this Form 10-K, except as required by law. You should not place undue reliance on these forward-looking statements. The forward-looking statements involve a number of risks and uncertainties. Although we believe that the expectations reflected in our forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. A number of factors could cause our actual results, performance, achievements or industry results to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in Part I, Item 1A of this Form 10-K under the heading "Risk Factors," which are incorporated herein by reference. You should carefully consider the risks and uncertainties described in this Form 10-K.

PART I

ITEM 1. BUSINESS

General

GameStop Corp. ("GameStop," "we," "us," "our," or the "Company") offers games, collectibles, and entertainment products through its stores and ecommerce platforms. As we navigate the evolving commercial landscape, our business model is expanding beyond traditional retail to include value creation through disciplined capital allocation. We view our significant cash and other sources of liquidity as a strategic asset to be deployed into acquisitions and control transactions that offer long-term value.

Our fiscal year is composed of the 52 or 53 weeks ending on the Saturday closest to the last day of January. Fiscal year 2025 consisted of the 52 weeks ended on January 31, 2026 ("fiscal 2025"). Fiscal year 2024 consisted of the 52 weeks ended on February 1, 2025 ("fiscal 2024") and fiscal year 2023 consisted of the 53 weeks ended on February 3, 2024 ("fiscal 2023").

Business Priorities

Our strategy has evolved into two distinct but complementary pillars:

- Capital Allocation: Utilizing our significant capital resources to actively evaluate and execute on opportunities to acquire, invest in, or partner with businesses that offer long-term value.
- Operational Excellence: Maximizing the cash flow of our legacy retail business by optimizing our store fleet.

Capital Deployment and Investment Strategy

The Company views its balance sheet as a strategic asset. We continue to review the best use for our cash and other sources of liquidity, including potential control transactions and transformational acquisitions.

While we do not limit our review to specific industries, our Investment Committee is actively evaluating opportunities that offer long-term value.

Investment Policy & Guidelines

Investments are made in accordance with the guidelines of an Investment Policy that is reviewed at least annually by the Board. Permissible investment instruments include cash and cash equivalents (e.g., bank obligations, money market funds, and commercial paper), fixed income securities (e.g., obligations of the U.S. Treasury), equity securities (limited to

those listed on major exchanges), derivative instruments and options, and certain crypto-currencies, including Bitcoin.

To ensure the Company can act on these opportunities with speed and efficiency, the Board has delegated authority to an Investment Committee of the Board to manage the Company's cash and other sources of liquidity and to review potential acquisition and control opportunities.

- **Structure:** The Committee consists of the Company's Chairman and Chief Executive Officer, Ryan Cohen, and two independent members of the Board.
- **Alignment of Interests:** Depending on certain market conditions and various risk factors, Mr. Cohen or other members of the Investment Committee, each in their personal capacity or through affiliated investment vehicles, may at times invest in the same securities in which the Company invests. The Board anticipates that such investments will align the interests of the Company with the interests of related parties because it places the personal resources of such directors at risk in substantially the same manner as resources of the Company.

Retail Business

We are optimizing our retail footprint. We view our extensive domestic network of physical locations not merely as stores, but as fulfillment and service anchors that provide immediate capabilities.

Expand Our Addressable Market

The Company continues to explore ways to increase the size of its addressable market through new product and service offerings.

- **Strategic Validation:** Our recent initiatives have validated our thesis that consumers value transactional speed and convenience. By utilizing our stores as efficient trade-in destinations, we have demonstrated that our infrastructure can drive transaction volume and customer engagement.
- **The Network Effect:** We believe our dense store network serves as a competitive advantage.

Maximize Profitability

The Company continues to focus on cost containment to maximize operating income.

- **Indirect Spend:** We have focused on eliminating non-income generating spend. In 2025, we significantly reduced indirect costs and intend to continue this discipline in 2026.
- **International Streamlining:** We continue to evaluate our international assets for strategic relevance. In the past three years, the Company has exited operations in Ireland, Switzerland, Austria, Germany, New Zealand, Italy and Canada. In addition, the Company has signed an agreement related to a potential sale of its operations in France to a strategic buyer.
- **Store Fleet Optimization:** Each year, the Company performs a comprehensive store portfolio optimization review which involves identifying stores for closure based on many factors, including an evaluation of current market conditions and individual store performance. This review resulted in the closure of 727 stores in the United States in fiscal 2025. At this time, we do not anticipate closing a significant number of stores in fiscal 2026, as we view our domestic footprint as a core component of our logistics infrastructure strategy.

Forward-Looking Statement on Acquisitions

While the Company has no binding agreements for a specific transaction at this time, we are actively evaluating opportunities that could require significant capital deployment. Shareholders should understand that our strategy is now explicitly focused on leveraging our cash, flexible capital structure, and stock to acquire assets that we believe will undergo a significant re-rating under our stewardship.

Reportable Segments

We operate our business in three geographic segments: United States, Australia and Europe. During the second quarter of fiscal 2025, we divested our operations in Canada, which previously comprised a fourth separate reporting segment.

We identify our segments based on geographic areas, which reflects the way we manage the organization and analyze performance. Our Australia geographic segment includes operations in New Zealand for reporting purposes. During the fourth quarter of fiscal 2025, we closed our store operations in New Zealand.

Our sales and profits are driven through both our physical stores and ecommerce platforms. Each segment consists primarily of retail operations, with the significant majority focused on games, collectibles, entertainment products and technology. These products are substantially the same regardless of geographic location, with the primary differences in merchandise carried being the timing of the release of new products in the various segments.

As of January 31, 2026, we had a total of 2,206 stores across all of our segments: 1,598 in the United States, 308 in Europe, and 300 in Australia. Our stores and ecommerce sites operate primarily under the names GameStop®, EB Games® and Micromania®.

Our Australia and Europe segments also include 23 pop culture themed stores selling collectibles, apparel, gadgets, electronics, toys and other retail products for technology enthusiasts and general consumers in international markets operating under the Zing Pop Culture® brand.

Financial information about our segments is included in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, and Part II, Item 8, Notes to the Consolidated Financial Statements, Note 5, "Segment Information," of this Form 10-K.

Merchandise

We categorize our sale of products as follows:

- *Hardware and accessories.* We offer new and pre-owned gaming platforms from the major console manufacturers. The current generation of consoles include the Nintendo Switch 2, Sony PlayStation 5, and Microsoft Xbox Series X. Accessories consist primarily of controllers, gaming headsets, and other peripheral devices.
- *Software.* We offer new and pre-owned gaming software for current and certain prior generation consoles. We also sell a wide range of in-game digital currency, digital downloadable content and full-game downloads.
- *Collectibles.* Collectibles consist of apparel, toys, trading cards, gadgets and other retail products for pop culture and technology enthusiasts. This category also includes collectibles related services, such as submission services for the authentication and grading of trading cards.

Store Locations

Our retail stores are generally located in strip centers, shopping malls and pedestrian areas. These locations provide easy access and high frequency of visits and, in the case of strip centers and high-traffic pedestrian stores, high visibility. We target strip centers that are conveniently located, have a mass merchant or supermarket anchor tenant and have a high volume of customers. As of January 31, 2026, we offered games and entertainment products in 2,206 stores worldwide as more specifically set forth below:

Domestic Locations. The table below sets forth the number and locations of our domestic stores included in the United States segment.

Alabama	30	Louisiana	26	Ohio	67
Alaska	4	Maine	5	Oklahoma	20
Arizona	41	Maryland	31	Oregon	27
Arkansas	8	Massachusetts	20	Pennsylvania	70
California	131	Michigan	38	Rhode Island	5
Colorado	26	Minnesota	17	South Carolina	31
Connecticut	13	Mississippi	14	South Dakota	3
Delaware	6	Missouri	30	Tennessee	40
Florida	106	Montana	8	Texas	177
Georgia	64	Nebraska	7	Utah	19
Hawaii	8	Nevada	20	Vermont	1
Idaho	11	New Hampshire	8	Virginia	48

Indiana	37	New Mexico	14	West Virginia	10
Iowa	14	New York	59	Wisconsin	28
Kansas	15	North Carolina	78	Wyoming	4
Kentucky	34	North Dakota	6		
Total Domestic Stores					1,598

International Locations. The table below sets forth the number and locations of our international stores included in our segments in Australia, and Europe.

	Number of Stores
France	308
Australia	300
Total International Stores	608

Vendors

We purchase our new products worldwide from a broad number of manufacturers, software publishers and distributors. Our largest vendors are Nintendo, Sony, and Pokemon, which collectively accounted for a majority of our new product purchases in fiscal 2025. We have established certain rights with our primary gaming product vendors that reduce our risk of inventory obsolescence, including, in some circumstances, unsold product return policies and protections against price reductions. In addition, we generally conduct business on an order-by-order basis, a practice that is typical throughout the industry. We believe that maintaining and strengthening our long-term relationships with our vendors is essential to our operations.

Loyalty Program

We operate loyalty programs in each country where we have store operations. These programs generally allow customers to enroll in either a free or paid membership, providing access to exclusive rewards. Paid memberships typically offer additional discounts and benefits across our stores and e-commerce properties. Customers participating in these programs represent a meaningful portion of our overall sales.

Trade-In Program

We provide our customers with an opportunity to trade-in their pre-owned gaming, mobility and other products at our stores in exchange for cash or credit, which can be applied towards the purchase of other products. This process drives higher market share and offers a broader range of price points for our customers. Our trade-in program provides customers a means to unlock value and recycle used product, which enables us to offer previous generation platforms and related games. We operate refurbishment centers in the United States, Australia and Europe, where used gaming, mobility and other products can be tested, repaired, sanitized, repackaged and redistributed for sale.

In addition, we offer a trade-in program for graded collectibles, allowing customers to quickly convert their graded trading cards into immediate liquidity. This program provides a convenient and transparent way for customers to sell graded cards across our network of locations, and we believe it represents a meaningful differentiator in the marketplace.

Distribution and Information Management

Our operating strategy involves providing a convenient and broad selection of merchandise and services that our customers may want or need. We use our distribution facilities, store locations and inventory management systems to optimize the efficiency of the flow of products to our stores and customers, enhance fulfillment efficiency and optimize in-stock and overall investment in inventory. We also utilize our stores as fulfillment and service anchors that provide immediate capabilities including acting as trade-in destinations for the Company's gaming, trading card, and consumer electronics categories.

Competition

The gaming industry is intensely competitive and subject to rapid changes in consumer preferences and frequent new product introductions. We compete with mass merchants and regional chains, computer product and consumer electronics stores, other gaming and related specialty stores, toy retail chains, direct sales by software publishers, the online environments operated by Sony (PlayStation Network), Microsoft (XBox Live), Nintendo (Nintendo Switch Online), as well as other online retailers and game rental companies. Gaming products are also distributed through other methods such as digital delivery. We also compete with sellers of pre-owned and value gaming products and other forms of entertainment activities, including casual and mobile games, movies, television, theater, sporting events and family entertainment centers.

The collectibles market is similarly fragmented and highly competitive, with significant price and allocation pressure. We compete with mass merchants and regional chains, sporting good stores, local and regional specialty retailers, and online marketplaces offering trading cards, gaming-related collectibles, and similar products.

In the United States, we compete with Walmart Stores, Inc. ("Walmart"), Target Corporation ("Target"), Best Buy Co., Inc. ("Best Buy") and Amazon.com, Inc. ("Amazon.com"), and other national and specialty retailers. In Europe our competitors include major consumer electronic retailers such as FNAC-Darty, large hypermarket chains including Leclerc, and Amazon.com's online marketplace. In Canada, prior to the divestiture of our operations, our primary competitors included Walmart and Best Buy. In Australia, we compete with retailers such as JB HiFi stores, Big W, Target and Amazon.com.

Globally, we also compete with certain vendors, including Sony, Nintendo and Microsoft among others, for direct-to-consumer digital and physical offerings.

Seasonality

Our business, like that of many retailers, is seasonal, with a significant portion of sales and operating profit realized during the fourth quarter of the fiscal year, which includes the holiday selling season. Although the fourth quarter remains our largest period, its relative contribution has moderated compared to historical levels. Results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. Quarterly results may fluctuate materially depending upon, among other factors, the timing of new product introductions and releases, adverse weather conditions, shifts in the timing of certain holidays or promotions and changes in our merchandise mix. We generated approximately 30% and 34%, respectively of our sales during the fourth quarters of fiscal 2025 and 2024.

Trademarks

We have a number of trademarks and service marks, including "GameStop®," "EB Games®," "EB Electronics Boutique®," and "GameStop Pro®," which are registered with the U.S. Patent and Trademark Office. For many of our trademarks and service marks, including "Micromania®" and "Zing Pop Culture®," we also have registered or have registrations pending with the trademark authorities throughout the world. We maintain a policy of pursuing registration of our principal marks and opposing any infringement of our marks.

Human Capital

At GameStop, we strive to attract, retain and develop talent at all levels of our organization. We have approximately 4,000 full-time salaried and hourly associates and between 11,000 and 16,000 part-time, hourly associates worldwide, depending on the time of year. Our human resource philosophy is based on the following tenets:

- **Development:** We are committed to providing our associates with opportunities to develop and grow their careers. We offer learning opportunities through our training programs.
- **Collaboration:** We advocate working actively to build understanding and collaboration across functions. We believe a more collaborative workforce provides many benefits in drawing upon a greater richness of resources, experiences, ideas and talents.
- **Benefits:** We have designed our compensation and benefits programs to meet the unique needs of employees in our various business segments. These programs are intended to attract, reward and retain talent, while instilling an ownership mentality in our work.

Available Information

The SEC maintains a website that contains reports, proxy statements and other information about issuers, like GameStop, who file electronically with the Securities and Exchange Commission (the "SEC"). The address of that site is <http://www.sec.gov>. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports can be accessed through that website and also indirectly through our corporate website (<http://news.gamestop.com>). In addition, our Code of Standards, Ethics and Conduct is available on our website under "Corporate Governance" and is available to our stockholders in print, free of charge, upon written request to the Investor Relations Department at GameStop Corp., 625 Westport Parkway, Grapevine, Texas 76051. Any amendments to or waivers of our Code of Standards, Ethics and Conduct or our Code of Ethics for Senior Financial and Executive Officers that apply to our principal executive officer, principal financial officer, principal accounting officer, controllers and persons performing similar functions and that relate to any matter enumerated in Item 406(b) of Regulation S-K promulgated by the SEC will be disclosed on our website. The contents of our corporate website are not part of this Annual Report on Form 10-K, or any other report we file with, or furnish to, the SEC.

ITEM 1A. RISK FACTORS

An investment in our Company involves a high degree of risk. You should carefully consider the risks below, together with the other information contained in this report and other filings we make with the SEC, before you make an investment decision with respect to our Company. The risks described below are not the only ones facing us. Additional risks not presently known to us, or that we consider immaterial, may also impair our business operations. Any of the following risks could materially adversely affect our business, operating results or financial condition, and could cause a decline in the trading price of our securities and the value of your investment.

Risks Related to Our M&A and Investment Strategy

Our success in meeting strategic objectives can depend on our performance in evaluating and executing on acquisitions and other control transactions.

As part of our corporate strategy and growth plans, in the ordinary course of business, we seek out, review and consider potential acquisitions and other control transactions, some of which may be significant in size. There can be no assurances, however, that we will be able to successfully identify suitable candidates for any such transactions, negotiate or otherwise come to an agreement for any such transaction on terms acceptable to the Company, obtain financing on terms acceptable to the Company or at all, receive any domestic or international antitrust, competition or other regulatory approvals necessary for any such transaction or otherwise be able to satisfy all conditions to the closing of (or otherwise consummate), any such transaction, successfully integrate any acquired businesses and/or otherwise realize any anticipated synergies or other benefits therefrom, or that the financial performance of any such acquired business will be consistent with the Company's expectations.

Acquisitions and other control transactions involve significant risks and uncertainties, including difficulties in the integration of the operations, systems, and personnel of the acquired companies and the diversion of management's attention from other business concerns. Although our management will endeavor to evaluate the risks inherent in any particular transaction, there are no assurances that we will properly ascertain all such risks. Acquisitions may involve significant cash expenditures, debt incurrences, equity issuances, and expenses. Difficulties encountered with acquisitions may have a material adverse effect on our business, financial condition, and results of operations.

The value of our investments may decline.

The Company's Investment Policy permits the Company to invest from time to time in securities and certain cryptocurrencies, including Bitcoin and U.S. Dollar-denominated stablecoins. The policy also permits the Company to invest in derivative instruments and options. The Company is, and will be, exposed to market volatility in connection with these investments. The Company's financial position and financial performance could be adversely affected by worsening market conditions or poor performance of such investments. Bitcoin, for example, is a highly volatile asset and has experienced significant price fluctuations over time. U.S. Dollar-denominated stablecoins may also suffer from value loss due to various issues underlying the product, including bank or issuer failure or underlying blockchain problems. The Company may also invest from time to time in nonmarketable securities and may need to hold such instruments for a long period of time and may not be able to realize a return of its cash investment should there be a need to liquidate to obtain cash at any given time. The Company may also invest from time to time in securities that are interest-bearing securities and if there are changes in interest rates, those changes would affect the interest income the Company earns on these investments and, therefore, impact its cash flows and results of operations.

Our investments may be concentrated in one or a few holdings, which may result in a single holding significantly impacting the value of our investments.

The Company's investments are overseen in accordance with the guidelines approved by the Investment Committee pursuant to the Investment Policy. The Company's investments may be concentrated in just one or a few holdings. Additionally, the Investment Committee may use derivatives or leverage, which could further increase the risk and volatility in the holdings. Accordingly, a significant decline in the market value of one or more of such holdings may not be offset by hypothetically better performance of the other holdings, if any. This concentration (especially if the position involves derivatives or leverage) of risk may result in a more pronounced effect on net income and stockholders' equity, and may result in greater volatility in the fair market value of the Company's investments from one period to another.

To the extent we hold Bitcoin, we will be exposed to certain risks associated with Bitcoin.

The Bitcoin markets have historically experienced significant volatility in price, limited liquidity and trading volumes, relative anonymity, potential susceptibility to market abuse and manipulation, compliance and internal control failures at exchanges and other risks inherent in its entirely electronic, virtual form and decentralized network. Our Bitcoin holdings could significantly impact our financial results and the market price of our listed securities. Our Bitcoin strategy has not

been tested over an extended period of time or under different market conditions. We are continually examining the risks and rewards of our strategy to acquire and hold Bitcoin. By investing in Bitcoin, we may become subject to counterparty risk, such as with our Bitcoin custodians and those with whom we transact in Bitcoin or other crypto-currencies. The broader digital assets industry may also be subject to counterparty risks, which could adversely impact the adoption rate, price, and use of Bitcoin. Bitcoin and other crypto-currencies are subject to regulatory and legal uncertainty, and governments and regulators may enact new laws and regulations, or pursue regulatory, legislative, enforcement or judicial actions that could impact the price of Bitcoin or our ability to acquire, hold or transfer Bitcoin, and may subject us to increased regulatory scrutiny. If federal or state tax authorities change Bitcoin's classification from property, which allows for capital gains treatment but also imposes certain tax reporting requirements, to another category, such as to currency or a financial asset, the resulting tax implications could negatively affect us and our stockholders. Additionally, changes in the accounting treatment of our Bitcoin holdings could have significant accounting impacts, including increasing the volatility of our results. Bitcoin does not pay interest or other returns and we can only generate cash from our Bitcoin holdings if we sell our Bitcoin or implement strategies to create income streams or otherwise generate cash by using our Bitcoin holdings. Even if we pursue any such strategies, we may be unable to create income streams or otherwise generate cash from our Bitcoin holdings, and any such strategies may subject us to additional risks. If we are unable to sell Bitcoin we acquire or otherwise generate funds using our Bitcoin holdings, or if we are forced to sell our Bitcoin at a significant loss, our business and financial condition could be negatively impacted. In addition, Bitcoin and other blockchain-based cryptocurrencies and the entities that provide services to participants in the Bitcoin ecosystem, as well as the Bitcoin and blockchain ledger, digital wallets, and other digital assets and blockchain technologies, have been, and may in the future be, subject to security breaches, cyberattacks or other malicious activities. If we or our third-party service providers experience a security breach or cyberattack and unauthorized parties obtain access to our Bitcoin, or other similar circumstances or events occur, we may lose some or all of our Bitcoin and our financial condition and results of operations could be materially adversely affected. Further, to the extent the private keys for a digital wallet are lost, destroyed, or otherwise compromised and no backup of the private keys is accessible, neither we nor our custodians would be able to access the Bitcoin held in the related digital wallet.

Our derivative strategies expose us to credit risk of counterparties.

We have in the past, and may in the future, enter into derivative transactions, including over-the-counter ("OTC") swaps and options on digital and other assets. The terms of these OTC derivatives are bilaterally negotiated with financial institution counterparties and expose the Company to credit-related losses in the event of nonperformance by these counterparties. The credit risk exposure generally consists of the mark-to-market value ("MtM") constituting unrealized gains under such transactions.

To mitigate against the risk of this exposure, these agreements typically include a feature requiring the party that is out-of-the-money (on the basis of the MtM of the transactions), whether the Company or the derivative counterparty, to pledge collateral for all or some portion of the MtM of outstanding derivatives. In certain circumstances, the pledged collateral may be contractually permitted to be rehypothecated, repledged, used and/or commingled by the counterparty. The ability to commingle or rehypothecate may obscure legal title to the underlying collateral, particularly in the case of pledged digital assets. If the custodian of our collateral becomes subject to bankruptcy or liquidation proceedings, our ability to reclaim such collateral may be subject to competing claims from other creditors. In addition, if our transactions are early terminated or unwound following an event of default or termination event, including one resulting from the insolvency of a counterparty, our claim for any termination value against such counterparty will be a general unsecured claim to the extent not covered by the value of the collateral pledged to the Company. In such instances, any remaining claim will be subject to the claims of competing creditors.

If we acquire U.S. Dollar-denominated stablecoins, we may be exposed to certain risks associated with such stablecoins.

U.S. Dollar-denominated stablecoins are digital assets designed to have a stable value over time as compared to typically volatile digital assets, and are backed by the U.S. Dollar. Volatility in stablecoins, operational issues with stablecoins (for example, technical issues that prevent settlement or redemption), concerns about the sufficiency of any reserves that support stablecoins, or regulatory concerns about stablecoin issuers or intermediaries or the stablecoins themselves, could all impair the value of such stablecoins and result in losses. By investing in U.S. Dollar-denominated stablecoins, we may become subject to counterparty risk, such as with the issuers of the stablecoins, custodians and those with whom we transact in U.S. Dollar-denominated stablecoins. U.S. Dollar-denominated stablecoins are subject to regulatory and legal uncertainty, and governments and regulators may enact new laws and regulations, or pursue regulatory, legislative, enforcement or judicial actions that could impact our ability to acquire, hold or transfer U.S. Dollar-denominated stablecoins, and may subject us to increased regulatory scrutiny.

The Company is required to recognize losses in a particular investment for financial statement purposes even though the Company has not actually sold the security.

Under accounting rules, changes in the unrealized gains and losses on certain of our investments may be included in the Company's reported net income, even though the Company has not actually realized any gain or loss by selling such securities. Accordingly, changes in the market prices of such securities can have a significant impact on the Company's reported results for a particular period, even though those changes do not bear on the performance of the Company's operating businesses.

Our failure to deal appropriately with conflicts of interest could adversely affect our businesses.

Certain of our executive officers, members of our Investment Committee and members of the Board of Directors engage in personal investment activities. These personal investments, done in their individual capacities or through affiliated investment vehicles, may give rise to potential conflicts or perceived conflicts between the personal financial interests of the executive officers, members of our Investment Committee or members of the Board of Directors and the interests of us, any of our subsidiaries or any stockholder other than such executive officers, members of our Investment Committee or members of the Board of Directors.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted.

In order not to be regulated as an investment company under the Investment Company Act of 1940, as amended (the "Investment Company Act"), unless we can qualify for an exclusion or exemption therefrom, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading of securities and that our activities do not include investing, reinvesting, owning, holding or trading in securities and owning "investment securities" having a value constituting more than 40% of our total assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. We are primarily engaged in offering games, collectibles and entertainment products through our stores and ecommerce platforms. Substantially all of our cash and cash equivalents (which are excluded from the term "investment securities" as cash items) have consisted, and are expected to consist, of (i) cash held in demand deposit accounts at banks and (ii) holdings of securities of money market funds that comply with Ruler 2a-7 under the Investment Company Act and (iii) U.S. government securities. Accordingly, we do not believe we are an investment company as defined under the Investment Company Act and we will continue to conduct our operations and monitor our holdings consistent with the Investment Policy to ensure ongoing and continuing compliance with this test so that we are not required to register as an investment company under the Investment Company Act. A change in, or further, guidance that may be issued in the future by the SEC or its Staff could negatively affect our ability to be excluded from the definition of an investment company under the Investment Company Act and regulation thereunder, which, in turn, could inhibit our ability to pursue our chosen strategies and may require us to re-classify our assets for purposes of the Investment Company Act or adjust our strategy accordingly. If we are required to do so, we may no longer be able to be excluded from the definition of an investment company under the Investment Company Act. If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including restrictions on the nature of our investments and restrictions on our issuance of securities. In addition, burdensome requirements may be imposed on us, including registration as an investment company under the Investment Company Act, adoption of a specific form of corporate structure and reporting, limitations with respect to management, operations, transactions with certain affiliated persons and portfolio composition, including with respect to diversification and industry concentration, record keeping, voting, proxy and disclosure requirements and other rules and regulations. Such restrictions and requirements could have a material adverse effect on our business and financial condition and may also require us to substantially change the manner in which we conduct our business. Further, a determination by regulators that Bitcoin or certain other cryptocurrencies constitute "securities" or "investment securities" under the Investment Company Act or other Federal Securities laws could lead to our classification as an investment company under the Investment Company Act and could negatively impact the market price or liquidity of Bitcoin or such other cryptocurrencies that we may hold should we have to sell such holdings during adverse market conditions and require significant changes in our operations which could have a material adverse effect on the market value of our securities.

Retail Industry Risks

Economic, social and political conditions in the markets in which we operate could adversely affect demand for the products we sell and impact our business and financial condition.

Sales of our products involve discretionary spending by consumers, making our results highly dependent on the health of the economies and consumer confidence in the markets in which we operate. Consumers are typically more likely to make discretionary purchases, including purchasing gaming and collectibles products, when there are favorable economic conditions. Our business may be affected by many economic, social, and political factors outside our control. Some of these factors include consumer disposable income levels, consumer confidence in current and future economic

conditions, levels of employment, consumer credit availability, consumer debt levels, interest rates, tax rates, housing market conditions, inflation, tariffs, socio-political factors, such as civil unrest or political uncertainty, and the effect of weather, natural disasters, and public health crises. Adverse economic, social and political changes in any of the regions in which we sell our products could adversely affect our business in many ways, including reduced sales and margins.

We face strong competition from multi-channel retailers, ecommerce businesses and others, which directly affects our revenue and profitability.

The retail environment is intensely competitive and subject to rapid changes in consumer preferences and frequent new product introductions. We compete with mass merchants and regional chains, including Walmart and Target, computer product and consumer electronics stores, including Best Buy, other United States and international gaming and PC software specialty stores, such as FNAC Darty, major hypermarket chains like Leclerc, toy retail chains, internet-based retailers such as Amazon.com, other internet marketplaces, including those operated by game publishers and console manufacturers, online retailers of digital software, game rental companies and collectibles and trading card retailers. Competition may also result from new entrants into the markets we serve, offering products and/or services that compete with us. If we lose customers to our competitors, or if we reduce our prices or increase our spending to maintain our customers, such actions may negatively impact our business and our financial performance.

Multi-channel retailers and ecommerce companies continue to focus on delivery services, with customers increasingly seeking faster, guaranteed delivery times and low-cost or free shipping. Our ability to be competitive on delivery times and delivery costs depends on many factors and our failure to successfully manage these factors and offer competitive delivery options could negatively impact the demand for our products.

The gaming industry has historically been cyclical and is affected by the introduction of next-generation consoles, which could negatively impact the demand for existing products.

The gaming industry has historically been cyclical in nature in response to the introduction and maturation of new technology. Following the introduction of new gaming platforms, sales of these platforms and related software and accessories generally increase due to initial demand, while sales of older platforms and related products generally decrease as customers migrate toward the new platforms. A new console cycle began with the launch of the Sony PlayStation 5 in November 2020, the Microsoft Xbox Series X in November 2020 and the Nintendo Switch Two in June 2025.

We are dependent upon the timely delivery of new and innovative products from our vendors and failure to timely obtain new product can adversely affect our sales.

We depend on manufacturers and publishers to deliver video game hardware, software, collectibles (including trading cards), and consumer electronics in quantities sufficient to meet customer demand.

Some of the products we sell, including Pokemon trading cards, may be in short supply and highly allocated among us and our competitors and we compete for product inventory. If we fail to obtain products in sufficient quantities, our sales may be negatively impacted.

We also depend on these manufacturers and publishers to regularly introduce new and innovative products and software titles to drive industry sales. In recent years, the number of new software titles available for sale has decreased. Separately, our collectibles category, including trading cards, has been driven in part by demand for new releases. Any material delay in the introduction or delivery, or limited allocations, of hardware platforms, collectibles or software titles could result in reduced sales.

Technological advances in the delivery and types of video games and PC entertainment software available to consumers, as well as changes in consumer behavior related to these new technologies, have lowered and may continue to lower, our sales.

The current consoles from Sony, Nintendo and Microsoft have facilitated download technology. Downloading of video game content to the current generation video game systems continues to grow and take an increasing percentage of new video game sales. If consumers' preference for downloading video game content in lieu of physical software continues to increase, our business and financial performance may be adversely impacted.

In addition, both Sony and Microsoft currently offer consoles that only allow for the purchase of digital games and content and do not work with physical software. Sales of those types of consoles eliminate the ability of customers to purchase physical software, which may also adversely affect our sales of both new and pre-owned physical software.

Interruptions to our supply chain or the supply chain of our suppliers may adversely affect our business.

A number of our suppliers rely on foreign sources, primarily in Asia, to manufacture a portion of the products we purchase from them. As a result, any event causing a disruption of imports, including labor shortages, natural disasters, public health crises or the imposition of import or trade restrictions in the form of tariffs or quotas could increase the cost and reduce the supply of products available to us, which may negatively impact our business and results of operations.

An adverse trend in sales during the holiday selling season could impact our financial results.

Our business, like that of many retailers, is seasonal, with a major portion of our sales and operating profit realized during the fourth quarter of each year, which includes the holiday selling season. During fiscal 2025 and 2024, we generated approximately 30% and 34%, respectively, of our sales during the fourth quarter. Any adverse trend in sales during the holiday selling season could lower our results of operations for the fourth quarter and the entire fiscal year.

Our ability to obtain favorable terms from our suppliers and service providers may impact our financial results.

Our financial results depend significantly upon the business terms we can obtain from our suppliers and service providers, including competitive prices, unsold product return policies, advertising and market development allowances, freight charges and payment terms. We purchase substantially all of our products directly from manufacturers, software publishers and, in some cases, distributors. If our suppliers and service providers do not provide us with favorable business terms or allocate reduced volumes of their products to us, we may not be able to offer products to our customers in sufficient volumes or at competitive prices.

A significant portion of revenue and profit in our collectibles product category is generated from the sale of trading cards, including Pokemon trading cards. A decline in the popularity of these collectibles could adversely impact our operating income.

A significant portion of revenue in our collectibles product category is generated from the sale of trading cards, including Pokemon trading cards. The market for these collectibles is in turn affected by the popularity and market value of various trading card releases. The popularity of various trading card releases can vary due to a number of factors, most of which are outside our control, including perceived scarcity or lack of scarcity, changes in consumer confidence and trends and their impact on disposable income, trading card prices, interest rates and other general economic conditions. A decline in the popularity of these products could have a material and adverse impact on our operating income.

Our sales of collectibles depend on trends in pop culture and, if we are unable to anticipate, identify and react to these trends, our sales and business may be adversely affected.

Our sales of collectibles are heavily dependent upon the continued demand by our customers for collectibles, apparel, toys, trading cards, gadgets, electronics and other retail products for pop culture and technology enthusiasts. The popularity of such products is often driven by movies, television shows, music, fashion and other pop culture influences. Our failure to anticipate, identify and react appropriately to changing trends and preferences of customers could lead to, among other things, excess inventories and higher markdowns.

Changes to tariff and import/export regulations may negatively impact our future financial condition and results of operations.

A significant portion of the products we offer are purchased from foreign vendors or manufactured in foreign countries. The imposition of additional, new, or different actions with respect to international trade agreements, the imposition of tariffs on goods imported into the U.S., the erection of barriers to trade, tax policy related to international commerce, or other trade matters could impact the cost or availability of the merchandise we offer, which may have an adverse impact on our business.

Strategic Retail Risks

If we are unable to successfully maintain strong retail and ecommerce experiences for our customers, our sales and results of operations could adversely be impacted.

Our business has become increasingly dependent on multiple sales channels as we strive to deliver a seamless shopping experience to our customers through both online and in-store shopping experiences. Operating an ecommerce platform is a complex undertaking and exposes us to risks and difficulties frequently experienced by internet-based businesses, including risks related to our ability to attract and retain customers on a cost-effective basis and our ability to operate and support our internet operations, website, mobile applications and other related operational systems. If we are not able to successfully operate our ecommerce platform, we may not be able to provide a positive shopping experience or maintain customer traffic, sales or margins, and our business and financial condition could be adversely affected.

In-store and ecommerce retail are competitive and evolving environments. Insufficient, untimely or inadequately prioritized or ineffectively implemented investments could significantly impact our profitability and affect our ability to attract new customers, as well as maintain our existing ones.

If we fail to keep pace with changing industry technology and consumer preferences, we will be at a competitive disadvantage.

The interactive entertainment industry is characterized by swiftly changing technology, evolving industry standards, frequent new and enhanced product introductions, rapidly changing consumer preferences and product obsolescence. Video games are now played on a wide variety of mediums, including video game consoles, personal computers, mobile phones, tablets, social networking websites and other devices. Browser, mobile and social gaming is accessed through hardware other than the consoles and traditional hand-held video game devices we currently sell. In addition, augmented reality, virtual reality and blockchain technology continue to rapidly evolve and may result in changes in both customer preferences and the types of hardware and software that are used by customers.

To continue to compete effectively in the gaming and interactive entertainment industry, we must respond effectively to market and technological changes and understand their impact on our customers' preferences. It may take significant time and resources to respond to these technological changes and changes in consumer preferences. Our business and results of operations may be negatively impacted if we fail to keep pace with these changes.

We may incorporate artificial intelligence into workflows and processes, including customer-facing and operation activities, and challenges with properly managing its use could result in reputational harm, competitive harm and legal liability, and adversely affect our results of operations.

We may begin using artificial intelligence and machine learning technologies ("AI") to enhance certain workflows and processes used in our business, including certain customer-facing and operational activities. AI is still in its early stages, and the introduction and incorporation of AI technologies may result in unintended consequences or other new or expanded risks and liabilities. If the content, analyses or recommendations that AI applications assist in producing are, or are alleged to be, deficient, inaccurate or biased, such as due to limitations in AI algorithms, insufficient or biased base data or flawed training methodologies, our business, financial condition, results of operations and reputation may be adversely affected. In addition, if AI tools used in connection with our manufacturing and operations do not perform as intended, such tools could adversely affect our business and results of operations. Also, our competitors or other third parties may incorporate AI into their products and services more quickly or more successfully than we do, which could impair our ability to compete effectively and adversely affect our results of operations.

If our use of artificial intelligence becomes controversial, we may experience brand or reputational harm, competitive harm, or legal liability. There is uncertainty in the legal and regulatory landscape for AI, which is not fully developed, and any laws, regulations or industry standards adopted in response to the emergence of AI may be burdensome, could entail significant costs, and may restrict or impede our ability to successfully develop, adopt and deploy AI technologies efficiently and effectively.

An important element of our profitability initiative was to reduce our global store base. Failure to successfully transfer customers and sales from closed stores to nearby stores could adversely impact our financial results.

As a part of our profitability initiative, we significantly reduced our global store base in fiscal 2025, which included closing stores that did not meet our performance standards and stores at the end of their lease terms with the intent of transferring sales to other nearby locations. If we are unsuccessful in marketing to customers of the stores that have closed or in transferring sales to nearby stores, our results of operations could be negatively impacted.

Changes in our senior management or our inability to attract and retain qualified personnel could have a material adverse impact on our business and results of operations.

Our success depends, in part, on the continuing services and contributions of our leadership team to execute on our strategic plan. Turnover in key leadership positions in the Company or our failure to timely or successfully implement leadership transitions could adversely affect our ability to manage the Company efficiently and effectively, could be disruptive and distracting to management and may lead to additional departures of current personnel, any of which could have a material adverse effect on our business and results of operations.

Our success also depends, in part, upon our ability to attract, motivate and retain a highly trained and engaged workforce, including key executives, management for our stores and skilled merchandising, marketing, financial and administrative personnel. The turnover rate in the retail and fulfillment industries is relatively high, and there is an ongoing need to recruit and train new store and fulfillment associates. Factors that affect our ability to maintain sufficient numbers of qualified associates include associate morale, our reputation, unemployment rates, competition from other employers and our ability to offer appropriate compensation and benefits packages.

Our inability to attract and retain qualified personnel or retain key personnel in the future could have a material adverse effect on our business and results of operations.

We are highly dependent on the services of the Company's Chairman of the Board and Chief Executive Officer, Ryan Cohen.

We are highly dependent on the services of Ryan Cohen, the Company's Chairman of the Board, Chief Executive Officer and as of January 31, 2026, largest stockholder. On January 7, 2026, we filed a Form 8-K with the U.S. Securities and Exchange Commission disclosing the grant on January 6, 2026, of a 100% performance-based nonqualified stock option award (the "CEO Performance Award") to Mr. Cohen, subject to approval at a meeting of the Company's stockholders, and stating our plan to seek stockholder approval of the CEO Performance Award. Other than the provision of executive security services in accordance with the independently-assessed executive security program established by our Board, Mr. Cohen has not received compensation for his services to GameStop since he was appointed to the Board and later as our Chief Executive Officer and Chairman. The Board recognizes that Mr. Cohen's existing equity stake aligns his baseline economic interests with our shareholders. However, executing our strategy requires an absolute prioritization of Mr. Cohen's time, focus and strategic bandwidth. Even after giving effect to the CEO Performance Award, Mr. Cohen will receive zero base salary, zero cash bonuses and zero time-vested equity. The CEO Performance Award is designed to incentivize Mr. Cohen to prioritize the Company's execution above his other opportunities, rewarding him only if he delivers sustained, measurable increases in intrinsic value for our shareholders. If the CEO Performance Award is not approved or GameStop is unable to adequately incentivize Mr. Cohen to maintain his focus and priorities on GameStop, the Company's ability to execute on its strategy and achieve its growth goals may be adversely impacted.

Damage to our reputation could adversely affect our business and our ability to attract and retain customers and employees.

Our continued success depends upon customers' perception of our Company. Any negative publicity relating to our vendors, products, associates and members of our Board or practices could damage our reputation and adversely impact our ability to attract and retain customers and employees. Failure to detect, prevent or mitigate issues that might give rise to reputational risk or failure to adequately address negative publicity or perceptions could adversely impact our reputation, business, results of operations and financial condition.

Operational Risks

If we or the third parties with whom we work do not maintain the security of our information technology systems or data (including customer, associate or Company information), such failure could negatively impact our operations, damage our reputation, cause us to incur substantial additional costs, lead us to become subject to litigation, or cause us to experience other adverse consequences.

An important part of our business involves the receipt, collection, storage, transfer, disposal, disclosure, security, use, and other processing (collectively, "process" or "processing") of personal information of our customers and associates (including, in the case of customers, payment information) and other sensitive information, including without limitation proprietary and confidential business data, trade secrets, intellectual property, and financial data. We have systems and processes in place that are designed to protect against security and data breaches, compromise of confidential and other sensitive information, and other interruptions. Despite these efforts, we have been the target of cybersecurity attacks in the past and there is no guarantee that the procedures we have implemented to protect against such security breaches, compromises, and other interruptions are adequate or will be effective. Our data and information systems (including those of third parties with whom we work), are subject to a variety of evolving threats (e.g., phishing attacks, software bugs, ransomware, and others). These threats come from a wide variety of actors (e.g., hackers, personnel, nation states and state-sponsored actors). Our data and information systems may also be compromised for reasons other than a cyberattack (e.g., information system malfunctions, loss, telecommunications failures, earthquakes, fire or flood). We rely on certain third parties and their technologies to operate critical business systems to process sensitive data (including personal information) in a variety of contexts. Our ability to monitor these third parties' information security practices is limited, and these third parties may not have adequate information security measures in place. If the third parties with whom we work experience a security breach, compromise, or other interruption, we could experience adverse consequences.

A successful cybersecurity attack or other compromise of our data or information systems could lead to significant disruptions in the operations of our systems and business, including our ability to accept payment from customers, unauthorized release of sensitive information (including customer payment information) and corruption of data. If we (or a third party with whom we work) experience a security breach or other compromise or are perceived to have experienced a security breach or other compromise, we may experience material adverse consequences, such as significant investment and resources to identify and remediate such breach or other compromise, notification obligations, costly litigation, government investigations, government enforcement actions, fines, penalties and/or lawsuits, significant harm to our reputation with our customers, and other similar harms.

We are subject to stringent and evolving laws and other obligations related to data privacy and security. Compliance with such obligations and our actual or perceived failure to comply with such obligations could lead to increased costs and liabilities (e.g., government investigations, litigation, fines and penalties, reputational harm, loss of revenue, loss of customers and other adverse business consequences).

Given our processing of personal information, we are subject to laws and other obligations (including industry standards (such as those related to payment cards), policies, statements and contracts) relating to personal information. Laws governing personal information continue to evolve, as federal, state and foreign governments continue to adopt new or different measures relating to data privacy and security as well as the processing of personal information. The interpretation and application of many existing privacy and data protection laws and regulations in the U.S. (including the California Consumer Privacy Act, as amended (“CCPA”)), Europe (including the European Union’s General Data Protection Regulation), and elsewhere impose stringent obligations on processing personal information and create the risk of significant fines and other adverse consequences for noncompliance. Such laws and regulations may be interpreted or applied in a manner that is inconsistent with each other and may complicate our existing data management practices. Evolving compliance and operational requirements under applicable data protection obligations have become increasingly burdensome and complex. Additionally, under various data protection laws and other obligations, we may be required to provide specific notices and obtain certain consents to process personal information. For example, some of our data processing practices have been, and may in the future continue to be, subject to challenges or lawsuits under data privacy, data security, and communications laws, including, for example, challenges based on anti-wiretapping or eavesdropping laws. We are or may become subject to obligations that limit the manner in which we transfer personal information across national borders.

Compliance with such obligations increases our costs. Our failure (or perceived failure) to comply with these obligations could result in adverse consequences, including but not limited to privacy or security-related claims (including class actions), government investigations and enforcement actions, penalties and fines, require us to change our business practices and may lead to administrative, civil, or criminal liability.

Weather, natural disasters, public health crises and other unexpected events could adversely affect our operating results.

The risk or actual occurrence of various unexpected events could have a material adverse effect on our financial condition. Such events may be caused by, for example: natural disasters or extreme weather events; diseases or pandemics (including COVID-19) that have affected and may continue to affect our employees, customers or partners; floods, fires or other catastrophes affecting our properties, employees or customers; cybersecurity attacks, power outages and telecommunications failures affecting our systems; or terrorism, civil unrest, mass violence or violent acts or other conflicts.

Such events can adversely affect our workforce and prevent employees and customers from reaching our stores, logistics facilities and other properties and can disrupt or disable portions of our supply chain, distribution network and refurbishment operations. They can also affect our information technology systems, resulting in disruption to various aspects of our operations, including our ability to transact with customers and fulfill orders. As a consequence of these or other events, we may endure interruption to our operations or losses of property, equipment or inventory, which could adversely affect our operations and financial condition.

Our U.S. support, fulfillment and refurbishment operations are concentrated, in large part, in a single facility in Grapevine, Texas. A casualty or other event that impacts this facility or its employees could significantly disrupt our support, fulfillment and refurbishment operations, and as a result could adversely affect our operations and financial condition.

We seek to mitigate our exposure to disruptions to our support, fulfillment and refurbishment operations in several ways. For example, where feasible, we design the configuration of our logistics operations to reduce the consequences of disasters and other disruptions. We also maintain insurance for these facilities against casualties, and we evaluate our risks and develop contingency plans for dealing with them. Although we have reviewed and analyzed a broad range of disruption risks applicable to our logistics operations, the ones that actually affect us may not be those that we have concluded are most likely to occur. Furthermore, our plans may not be adequate at the time of occurrence for the magnitude of any particular disruption event that we may encounter.

Inventory shrinkage may negatively affect our results of operations and financial condition.

Although some level of inventory shrinkage is an unavoidable cost of doing business, higher rates of inventory shrinkage or increased security or other costs to combat inventory theft could adversely affect our results of operations and financial condition. There can be no assurance that we will be successful in our efforts to contain or reduce inventory shrinkage.

If our systems fail to perform or are inadequate, our ability to manage our business could be disrupted.

We rely on computerized systems to coordinate and manage the activities in our operations, including our ecommerce, store and fulfillment operations. If any of these systems fail to adequately perform their functions, including our point-of-sale, inventory management, information technology or enterprise management systems, our business could be adversely affected.

We depend on third-party delivery services to deliver products to our retail locations, fulfillment centers and customers on a timely and consistent basis, and changes in the terms we have with these service providers could adversely affect our business and financial position.

We rely on third parties for the transportation of products, and we cannot be sure that these services will continue to be provided on terms favorable to us, or at all. Delivery and shipping costs may increase from time to time, and we may not be able to pass these costs directly to our customers. Any increased delivery and shipping costs could harm our business and financial performance by increasing our costs of doing business and reducing our margins.

If our relationships with these third parties are terminated or impaired, if we are unable to negotiate acceptable terms with these third parties or if these third parties are unable to deliver products for us, whether due to a labor shortage, slow down or stoppage, or for any other reason, we would be required to use alternative carriers for the shipment of products to our retail locations, fulfillment centers and customers. Changing carriers could have a negative effect on our business and operating results due to the negative impact on customer experience, including reduced visibility of order status and package tracking and delays in order processing and product delivery, and we may be unable to engage alternative carriers on a timely basis, upon terms favorable to us, or at all. In addition, these third parties have increasingly had demand for their services exceed capacity, in particular during the holiday selling season, and we may be unable to obtain sufficient services to meet our demand or to timely meet our customers' expectations.

If our vendors fail to provide marketing and merchandising support at historical levels, our sales and earnings could be negatively impacted.

The manufacturers of gaming products have typically provided retailers with significant marketing and merchandising support for their products. As part of this support, we receive cooperative advertising and market development payments from these vendors which enable us to actively promote and merchandise the products we sell and drive sales at our stores and on our websites. If our vendors fail to continue to provide this support at historical levels, our business and financial condition may be negatively impacted.

Restrictions on our ability to purchase and sell pre-owned products could negatively affect our business and financial condition.

Our financial results depend on our ability to purchase and sell pre-owned products. Actions by manufacturers or publishers of products or governmental authorities to prohibit or limit our ability to purchase or sell pre-owned products, or to limit the ability of consumers to use pre-owned products, could have a negative impact on our business and financial condition.

If we are unable to renew or enter into new leases on favorable terms, our earnings may be adversely affected.

All of our retail stores are located in leased premises. If the cost of leasing existing stores increases, we cannot ensure that we will be able to maintain our existing store locations as leases expire. In addition, we may not be able to enter into new leases on favorable terms or at all, or we may not be able to locate suitable alternative sites in a timely manner. Our revenues and earnings may decline if we fail to maintain existing store locations, enter into new leases, or locate alternative sites.

Risks Related to Laws and Regulations

Unfavorable changes in our global tax rate could have a negative impact on our business, results of operations and cash flows.

As a result of our operations in foreign countries, our global tax rate is derived from a combination of applicable tax rates in the various jurisdictions in which we operate. Depending upon the sources of our income, any agreements we may have with taxing authorities in various jurisdictions and the tax filing positions we take in various jurisdictions, our overall tax rate may be higher than other companies or higher than our tax rates have been in the past. We base our estimate of an annual effective tax rate at any given point in time on a calculated mix of the tax rates applicable to our business and to estimates of the amount of income to be derived in any given jurisdiction. A change in the mix of our business from year to year and from country to country, changes in rules related to accounting for income taxes, changes in tax laws in any of the jurisdictions in which we operate, or adverse outcomes from the tax audits that regularly are in process in any

jurisdiction in which we operate could result in an unfavorable change in our overall tax rate, which could have a material adverse impact on our business and results of our operations.

We also continue to monitor developments related to tax legislation and government policy. The impact of these potential changes to our business and consolidated financial results cannot be determined until the relevant legislation and policies are finalized.

Legislative actions may cause our general and administrative and compliance costs to increase and impact our operations and financial condition.

To comply with laws adopted by the U.S. government or other U.S. or foreign regulatory bodies, we may be required to increase our expenditures and hire additional personnel and additional outside legal, accounting and advisory services, all of which may cause our general and administrative and compliance costs to increase. Significant workforce-related legislative changes could increase our expenses and adversely affect our operations. Examples of possible workforce-related legislative changes include changes to an employer's obligation to recognize collective bargaining units, the process by which collective bargaining agreements are negotiated or imposed, minimum wage requirements and health care mandates. In addition, changes in the regulatory environment affecting Medicare reimbursements, workplace safety, product safety, privacy and security of customer data, responsible sourcing, environmental protection, supply chain transparency, and increased compliance costs related to wage and hour statutes, limitations on arbitration/class action waiver agreements and overtime regulations, among others, could cause our expenses to increase without an ability to pass through any increased expenses through higher prices.

Failure to comply with federal, state, local and international laws, regulations and statutes applicable to our business could result in an adverse impact to our business and financial condition.

As a seller of consumer products, we are subject to various federal, state, local and international laws, regulations and statutes, including laws relating to product safety and consumer protection and privacy. While we take steps to comply with these laws, there can be no assurance that we will be in compliance, and failure to comply with these laws could result in litigation, regulatory action and penalties which could have a negative impact on our business and financial condition. In addition, our suppliers might not adhere to product safety requirements and the Company and those suppliers may therefore be subject to involuntary or voluntary product recalls or product liability lawsuits. Direct costs, lost sales and reputational damage associated with product recalls, government enforcement actions or product liability lawsuits, individually or in the aggregate, could have a negative impact on future revenues and results of operations.

Our international operations are also subject to compliance with the U.S. Foreign Corrupt Practices Act and other anti-bribery laws applicable to our operations. While we have policies and procedures to ensure compliance with these laws, our associates, contractors, representatives and agents may take actions that violate our policies. Any violations of these laws by any of these persons could have a negative impact on our business.

Litigation and the outcomes of such litigation could negatively impact our future financial condition and results of operations.

In the ordinary course of our business, we are, from time to time, subject to various litigation and legal proceedings, including matters involving wage and hour associate class actions, stockholder and consumer class actions, tax audits and unclaimed property audits by states. The outcome of litigation and other legal proceedings and the magnitude of potential losses therefrom, particularly class action lawsuits and regulatory actions, is difficult to assess or quantify.

Certain of these legal proceedings, if decided adversely to us or settled by us, may require changes to our business operations that negatively impact our operating results or involve significant liability awards that impact our financial condition. The cost to defend litigation may be significant. As a result, legal proceedings may adversely affect our business, financial condition, results of operations or liquidity.

If our internal control over financial reporting is ineffective, our business may be adversely affected and we may lose market confidence in our reported financial information, which could adversely impact our business and stock price.

Effective internal control over financial reporting can provide only reasonable assurance with respect to the preparation and fair presentation of consolidated financial statements and may not prevent or detect misstatements because of inherent limitations. These limitations include, among others, the possibility of human error, inadequacy or circumvention of controls and fraud.

If we are unable to maintain effective internal control over financial reporting, our ability to report financial information timely and accurately could be adversely affected. As a result, we could lose investor confidence and become subject to litigation or investigations, which could adversely affect our business, operations, financial condition and our stock price.

Risks Related to Our Class A Common Stock

The market price of our Class A Common Stock has been extremely volatile and may continue to be volatile due to numerous circumstances beyond our control.

The market price of our Class A Common Stock has fluctuated, and may continue to fluctuate, widely, due to many factors, some of which may be beyond our control. These factors include, without limitation:

- “short squeezes”;
- comments by securities analysts or other third parties, including blogs, articles, message boards and social and other media;
- large stockholders exiting their position in our Class A Common Stock or an increase or decrease in the short interest in our Class A Common Stock;
- actual or anticipated fluctuations in our financial and operating results;
- the timing and allocations of new product releases including new console launches;
- shifts in the timing or content of certain promotions or service offerings;
- the effect of changes in tax rates in the jurisdictions in which we operate;
- acquisition costs and the integration of companies we acquire or invest in;
- the mix of earnings in the countries in which we operate;
- the costs associated with the exit of unprofitable markets, businesses or stores;
- changes in foreign currency exchange rates;
- negative public perception of us, our competitors or industry; and
- overall general market fluctuations.

Our stock has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of our Company. These market fluctuations may adversely affect the trading price of our Class A Common Stock. In particular, a large proportion of our Class A Common Stock has been and may continue to be traded by short sellers which has put and may continue to put pressure on the supply and demand for our Class A Common Stock, further influencing volatility in its market price. These and other external factors have caused and may continue to cause the market price and demand for our Class A Common Stock to fluctuate substantially, which may limit or prevent our stockholders from readily selling their shares of our Class A Common Stock and may otherwise negatively affect the liquidity of our Class A Common Stock.

A “short squeeze” due to a sudden increase in demand for shares of our Class A Common Stock that largely exceeds supply has led to, and may continue to lead to, extreme price volatility in shares of our Class A Common Stock.

Investors may purchase shares of our Class A Common Stock to hedge existing exposure or to speculate on the price of our Class A Common Stock. Speculation on the price of our Class A Common Stock may involve long and short exposures. To the extent aggregate short exposure exceeds the number of shares of our Class A Common Stock available for purchase on the open market, investors with short exposure may have to pay a premium to repurchase shares of our Class A Common Stock for delivery to lenders of our Class A Common Stock. Those repurchases may in turn, dramatically increase the price of shares of our Class A Common Stock until additional shares of our Class A Common Stock are available for trading or borrowing. This is often referred to as a “short squeeze.”

A large proportion of our Class A Common Stock has been and may continue to be traded by short sellers which may increase the likelihood that our Class A Common Stock will be the target of a short squeeze. A short squeeze has previously led and could continue to lead to volatile price movements in shares of our Class A Common Stock that are unrelated or disproportionate to our operating performance or prospects and, once investors purchase the shares of our

Class A Common Stock necessary to cover their short positions, the price of our Class A Common Stock may rapidly decline. Stockholders that purchase shares of our Class A Common Stock during a short squeeze may lose a significant portion of their investment.

Information available in public media that is published by third parties, including blogs, articles, message boards and social and other media may include statements not attributable to the Company and may not be reliable or accurate.

We have received, and may continue to receive, a high degree of media coverage that is published or otherwise disseminated by third parties, including blogs, articles, message boards and social and other media. This includes coverage that is not attributable to statements made by our officers or associates. Information provided by third parties may not be reliable or accurate and could materially impact the trading price of our Class A Common Stock which could cause stockholders to lose their investments.

A large number of shares of our Class A Common Stock available for future sale could adversely affect the market price of our Class A Common Stock and may be dilutive to current stockholders.

The sales of a substantial number of shares of our Class A Common Stock, or the perception that such sales could occur, could adversely affect the price for our Class A Common Stock. Our Board of Directors may authorize the issuance of additional authorized but unissued Class A Common Stock or other authorized but unissued securities at any time, including pursuant to equity incentive plans. In addition, we may file a registration statement with the SEC, allowing us to offer, from time to time and at any time, equity securities (including common or preferred stock), subject to market conditions and other factors. Accordingly, we may, from time to time and at any time, seek to offer and sell our equity securities, including sales of our Class A Common Stock pursuant to an at-the-market program, based upon market conditions and other factors.

The CEO Performance Award, if and to the extent the Options become vested and are exercised, would result in dilution to stockholders, in respect of both voting and economics, and could impact the price of GameStop's common stock.

If any or all performance hurdles specified in the CEO Performance Award are achieved and any tranches of Options earned and vested thereunder are exercised, Mr. Cohen will receive the right to vote such shares issued in connection with the exercise. Given the magnitude of the award necessary to incentivize Mr. Cohen's performance, commensurate with the magnitude of the hurdles underlying the CEO Performance Award, if achieved, this would result in dilution of stockholders' voting power or economic rights and may result in the creation or entrenchment of voting positions that could meaningfully influence the direction of GameStop. If Mr. Cohen were to sell a large portion of his shares, following the required holding periods, it may further impact the share price of GameStop's common stock. If achieved and exercised in full, the CEO Performance Award would result in Mr. Cohen acquiring a significant number of additional shares, thereby increasing his existing voting power and influence over the direction of GameStop's future growth. Mr. Cohen could have the ability to meaningfully influence the outcome of corporate actions requiring stockholder approval, including the election of directors, the results of any proposals related to our governing documents, any merger, consolidation or sale of all or substantially all of our assets, or any other significant corporate transaction.

Future sales of a substantial amount of our Class A Common Stock in the public markets by our insiders, or the perception that these sales may occur, may cause the market price of our Class A Common Stock to decline.

Our employees, directors and officers, and their affiliates, hold substantial amounts of shares of our Class A Common Stock. Sales of a substantial number of such shares by these stockholders, or the perception that such sales will occur, may cause the market price of our Class A Common Stock to decline. Other than restrictions on trading that arise under securities laws (or pursuant to our securities trading policy that is intended to facilitate compliance with securities laws), including the prohibition on trading in securities by or on behalf of a person who is aware of material nonpublic information, we have no restrictions on the right of our employees, directors and officers, and their affiliates, to sell their unrestricted shares of Class A Common Stock.

Risks Related to Our Outstanding Notes

We have incurred substantial indebtedness that may decrease our business flexibility, access to capital, and/or increase our borrowing costs, and we may still incur substantially more debt, which may adversely affect our operations and financial results.

In April 2025, we issued \$1.5 billion aggregate principal amount of 0.00% Convertible Senior Notes due 2030 (the "Convertible 2030 Notes"). On June 17, 2025, we completed a private offering of \$2,250.0 million aggregate principal amount of 0.00% Convertible Senior Notes due 2032 (the "Convertible 2032 Notes" and, collectively with the Convertible

2030 Notes, the "Convertible Notes"). As of January 31, 2026, we had \$4.2 billion outstanding aggregate principal amount of Convertible Notes. Our indebtedness may limit our ability to borrow additional funds for working capital, capital expenditures, acquisitions or other general business purposes, limit our ability to use our cash flow or obtain additional financing for future working capital, capital expenditures, acquisitions or other general business purposes, require us to use a substantial portion of our cash flow from operations to make debt service payments, limit our flexibility to plan for, or react to, changes in our business and industry, place us at a competitive disadvantage compared to our less leveraged competitors and increase our vulnerability to the impact of adverse economic and industry conditions.

The Convertible Notes are our obligations only, and substantially all of our operations are conducted through, and a portion of our consolidated assets are held by, our subsidiaries.

The Convertible Notes are our obligations exclusively and are not guaranteed by any of our operating subsidiaries. Substantially all of our operations are conducted through, and a portion of our consolidated assets are held by, our subsidiaries. Accordingly, our ability to service our debt, including the Convertible Notes, depends in part on the results of operations of our subsidiaries and upon the ability of such subsidiaries to provide us with cash, whether in the form of dividends, loans or otherwise, to pay amounts due on our obligations, including the Convertible Notes. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to make payments on the Convertible Notes or to make any funds available for that purpose. In addition, dividends, loans or other distributions to us from such subsidiaries may be subject to contractual and other restrictions, including the agreements governing the French Term Loans which limit dividends, loans or other distributions from our subsidiary Micromania, and are subject to other business considerations.

Servicing the Convertible Notes requires a significant amount of cash, and we may not have sufficient cash flow from our business to make such payments, and we may incur additional indebtedness in the future.

Our ability to make scheduled payments of the principal of, to pay special interest, if any, on or to refinance the Convertible Notes, depends on our future performance, which is subject to economic, financial, competitive and other factors beyond our control. Our business may not continue to generate cash flow from operations in the future sufficient to service the Convertible Notes and make necessary capital expenditures. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as selling assets, restructuring debt or obtaining additional debt or equity capital on terms that may be onerous or highly dilutive. Our ability to refinance our indebtedness will depend on the capital markets and our financial condition at such time. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on our obligations under the Convertible Notes.

In addition, we and our subsidiaries may be able to incur substantial additional debt in the future, subject to the restrictions contained in any future debt instruments that we may enter into, which may include secured debt. We are not restricted under the terms of the indentures that govern the Convertible Notes from incurring additional debt, securing future debt, recapitalizing future debt or taking a number of other actions that are not limited by the terms of the indentures that govern the Convertible Notes, which could have the effect of diminishing our ability to make payments on the Convertible Notes when due.

We may not have the ability to raise the funds necessary to settle conversions of the Convertible Notes in cash or to repurchase the Convertible Notes for cash on the applicable repurchase date or upon a fundamental change, and our future debt may contain limitations on our ability to pay cash upon conversion or repurchase of the Convertible Notes.

Holders of each of the Convertible 2030 Notes and the Convertible 2032 Notes have the right to require us to repurchase all or any portion of their Convertible Notes on April 3, 2028 and December 15, 2028, respectively. In addition, subject to certain conditions and limited exceptions, holders of the Convertible notes have the right to require us to repurchase all or any portion of their Convertible Notes upon the occurrence of a fundamental change, in each case, at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid special interest, if any, to, but excluding, the applicable repurchase date. In addition, upon any conversion of the Convertible Notes, unless we elect to deliver solely shares of our Class A common stock to settle such conversion (other than paying cash in lieu of delivering any fractional share), we will be required to make cash payments in respect of the Convertible Notes being converted. However, we may not have enough available cash or be able to obtain financing at the time we are required to make repurchases of the Convertible Notes surrendered therefor or pay cash with respect to the Convertible Notes being converted. In addition, our ability to repurchase the Convertible Notes or to pay cash upon conversions of the Convertible Notes may be limited by law, by regulatory authority or by agreements governing our future indebtedness. Our failure to repurchase the Convertible Notes at a time when the repurchase is required by the applicable indenture or to pay any cash payable on future conversions of the Convertible Notes as required by the applicable indenture would constitute a default under the applicable indenture. A default under one or both of the indentures or the

fundamental change itself could also lead to a default under agreements governing our future indebtedness. If the repayment of the related indebtedness were to be accelerated after any applicable notice or grace periods, we may not have sufficient funds to repay the indebtedness and repurchase the Convertible Notes or make cash payments upon conversions thereof.

The conditional conversion feature of each series of the Convertible Notes, if triggered, may adversely affect our financial condition and operating results.

In the event the conditional conversion feature of a series of the Convertible Notes is triggered, holders of such series of the Convertible Notes will be entitled to convert their Convertible Notes at any time during specified periods at their option. If one or more holders of a series of Convertible Notes elects to convert their Convertible Notes, unless we elect to satisfy our conversion obligation by delivering solely shares of our Class A common stock (other than paying cash in lieu of delivering any fractional share), we would be required to settle a portion or all of our conversion obligation through the payment of cash, which could adversely affect our liquidity. In addition, even if holders of a series of Convertible Notes do not elect to convert their Convertible Notes, we could be required under applicable accounting rules to reclassify all or a portion of the outstanding principal of such Convertible Notes as a current rather than long-term liability, which would result in a material reduction of our net working capital.

Conversion of the Convertible Notes may dilute the ownership interest of our stockholders or may otherwise depress the price of our Class A common stock.

The conversion of some or all of the Convertible Notes may dilute the ownership interests of our stockholders. Upon conversion of the Convertible Notes, we have the option to pay or deliver, as the case may be, cash, shares of our Class A common stock, or a combination of cash and shares of our Class A common stock. If we elect to settle our conversion obligation in shares of our Class A common stock or a combination of cash and shares of our Class A common stock, any sales in the public market of our Class A common stock issuable upon such conversion could adversely affect prevailing market price of our Class A common stock. In addition, the existence of the Convertible Notes may encourage short selling by market participants because the conversion of the Convertible Notes could be used to satisfy short positions, or anticipated conversion of the Convertible Notes into shares of our Class A common stock could depress the price of our Class A common stock.

Certain provisions in the indentures that govern the Convertible Notes may delay or prevent an otherwise beneficial takeover attempt of us.

Certain provisions in the indentures that govern the Convertible Notes may make it more difficult or expensive for a third party to acquire us. For example, the indentures that governs the Convertible Notes will require us to repurchase the Convertible Notes for cash upon the occurrence of a fundamental change and, in certain circumstances, to increase the conversion rate for a holder that converts its Convertible Notes in connection with a make-whole fundamental change. A takeover of us may trigger the requirement that we repurchase the Convertible Notes and/or increase the conversion rate, which could make it more costly for a potential acquirer to engage in such takeover. Such additional costs may have the effect of delaying or preventing a takeover of us that would otherwise be beneficial to investors.

Risks Related to Our Outstanding Warrants

The issuance of Common Stock upon the exercise of the Warrants may depress our stock price.

Subject to the adjustment provisions of the Warrant Agreement, if all Warrants distributed in the warrant distribution are exercised, we would issue 59,153,963 shares of Common Stock, which would be an approximately 13% increase from our number of shares outstanding, as of January 31, 2026. The issuance of such additional shares of Common Stock upon exercise of the Warrants, and the resale of such shares on the open market after their issuance, or the perception that such sales could occur, could result in significant downward pressure on our stock price.

Future issuance of additional warrants may adversely affect the market price of the Warrants and the market price of our Common Stock.

Without the consent of any holder of any Warrants, we may issue additional warrants with the same terms as the Warrants distributed on October 7, 2025, which additional warrants will, subject to the foregoing, be considered to be part of the same series of, and rank equally and ratably with all other, Warrants issued under the Warrant Agreement. We may issue such additional warrants through a sale or another distribution to holders of our Common Stock and other holders of our securities such as Convertible Notes and the Warrants. The issuance, sale or distribution of substantial amounts of such additional warrants, or the perception that such issuances, sale or distribution may occur, could adversely affect the trading price of the Warrants and the market price of our Common Stock.

Hedging arrangements relating to the Warrants may affect the value and volatility of our Common Stock or other securities of ours.

In order to hedge their financial positions, holders of the Warrants may enter into hedging transactions with respect to our Common Stock or other securities of ours, may unwind or adjust hedging transactions and may purchase or sell large blocks of our Common Stock or other securities of ours in one or more market transactions. The effect, if any, of these activities on the trading price of our Common Stock or such other securities will depend in part on market conditions and cannot be known in advance, but any of these activities could adversely affect the value and price volatility of our Common Stock or such other securities.

Exercising the Warrants is a risky investment and you may not be able to recover the value of your investment in the Common Stock received upon exercise of the Warrants. You should be prepared to sustain a loss of the exercise price of your Warrants.

In order for you to recover the value of your investment in the shares of Common Stock received upon exercise of the Warrant exercise price, the value per share of Common Stock must be more than the strike price of the Warrants. If the value of the shares of Common Stock you receive upon exercise of a Warrant is lower than the amount you pay to the exercise such Warrant, or subsequent to the exercise of a Warrant there is a drop in our stock price, you could sustain a financial or other loss from exercising such Warrant. We cannot assure you that the value per share of our Common Stock will not fluctuate or decline significantly below the strike price in the future, in which case you could incur substantial losses.

The Warrants do not automatically exercise, and any Warrant you do not exercise prior to the Expiration Date will lose all financial value.

Your Warrants do not automatically exercise, even if the price per share of our Common Stock is at or above the strike price of the Warrants. You are entitled to exercise the full number of Warrants you hold or any portion thereof. Any Warrant held by you that are not exercised (including due to your failure to pay the Warrant exercise price when due) during the period prior to expiration of the Warrant will expire unexercised, meaning the Warrants will no longer exist, and you will also not receive any shares of our Common Stock nor other value in connection with such Warrants.

In general, holders of the Warrants will not be entitled to any of the rights of holders of our Common Stock.

In general, Holders of the Warrants will not be entitled to any rights with respect to our Common Stock, including, without limitation, voting rights and rights to receive any dividends or other distributions on our Common Stock, but holders of the Warrants will be subject to all changes affecting our Common Stock.

In general, you will have rights with respect to our Common Stock only if you receive our Common Stock upon exercising the Warrants for cash and only as of the date when you become a record owner of the shares of our Common Stock upon such exercise. For example, if an amendment is proposed to our charter or bylaws requiring stockholder approval and the record date for determining the stockholders of record entitled to vote on the amendment occurs prior to the date you are deemed to be the owner of the shares of our Common Stock due upon exercise of your Warrants, you will not be entitled to vote on the amendment, although you will nevertheless be subject to any changes in the powers, preferences or special rights of our Common Stock. However, there may be circumstances in which Holders of the Warrants participate, at the same time and upon the same terms as holders of our Common Stock, without having to exercise their Warrants, as if they held a number of shares of our Common Stock equal to the Warrant Exercise Rate per Warrant, as described in the "Description of the Warrants-Adjustment and Amendment Provisions-Adjustments to Strike Price, Warrant Exercise Rate and Warrant Exercise Price" below.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 1C. CYBERSECURITY

Risk Management and Strategy

An important part of our business involves the receipt, storage and other processing of personal information of our customers and associates, including, in the case of our customers, payment information. Security of this information and our other proprietary or sensitive data is imperative to ensure the trust of our customers, vendors, and associates. We assess, identify and manage material risks related to potential cybersecurity attacks on or through our electronic information systems that could adversely affect the confidentiality, integrity, or availability of our information systems or the information residing on those systems through various processes. These processes include a wide variety of controls,

technologies, methods, systems, and other processes that are designed to prevent, detect, or mitigate data loss, theft and misuse, and unauthorized access to, or other cybersecurity attacks or vulnerabilities affecting, our data and information technology systems.

The assessment of cybersecurity risk is integrated into our overall risk management processes and cybersecurity is identified as a key risk within our Enterprise Risk Management (“ERM”) program. The Company strives to implement cybersecurity policies, standards, processes and controls for assessing, identifying and managing material risks from cybersecurity threats and responding to cybersecurity attacks that are aligned with industry best practices and applicable frameworks.

We have an information technology (“IT”) security team, led by our chief information security officer, that is responsible for implementing and maintaining cybersecurity and data protection practices at the Company in close coordination with senior leadership and other teams across GameStop. We seek to address cybersecurity risks through a cross-functional approach, including relevant training for applicable associates and regular reviews and tests of our cybersecurity program that leverage audits performed by our internal audit team. In addition to our in-house cybersecurity capabilities, at times we also engage consultants or other third parties to assist with assessing, identifying and managing cybersecurity risks.

We use processes to oversee and identify material risks from cybersecurity threats associated with our use of third-party technology and systems. We maintain processes designed to reduce the impact of a cybersecurity attack or other compromise at a third-party vendor.

We maintain a cybersecurity incident response plan, which details the incident response procedures and points of contact related to the response processes. The response plan includes a decision-tree-based playbook, which is a supplement to the plan, and focuses on specific types of incidents and the appropriate response steps.

As of the date of this report, we are not aware of any recent cybersecurity attacks that have materially affected or are reasonably likely to materially affect the Company, including our business strategy, results of operations or financial condition.

See “Item 1A. Risk Factors” for additional information about the risks to our business associated with a breach or compromise to our data and information security systems.

Governance

As indicated above, we have an IT security team, led by our chief information security officer, that is responsible for implementing and maintaining centralized cybersecurity and data protection practices at the Company in close coordination with senior leadership and other teams across GameStop. The security team’s leadership has an average of 16 years of prior work experience in various roles including monitoring, response, compliance and privacy. These individuals are informed about, and monitor the prevention, mitigation, detection and remediation of cybersecurity incidents through their management of, and participation in, the cybersecurity risk management and strategy processes described above, including the operation of our incident response plan, and report to the Audit Committee on any appropriate items.

The Audit Committee of the Board of Directors, with input from management, assesses the measures implemented by us to mitigate and prevent cybersecurity attacks or other compromises. The Company’s IT team consults with, and provides regular updates to, our Audit Committee, as well as members of our senior management team, as appropriate, on technology and cybersecurity matters, the status of projects to strengthen our information security systems, assessments of our cybersecurity program, and timely reports regarding any cybersecurity attack that meets established reporting thresholds. Our Audit Committee has oversight responsibility for our cybersecurity program.

ITEM 2. PROPERTIES

All of our retail stores are leased. Store leases typically provide for a lease term of one to five years, plus renewal options. This arrangement gives us the flexibility to pursue extension or relocation opportunities that arise from changing market conditions. We believe that, as current leases expire, we will be able to obtain either renewals at present locations or leases for similar locations in the same area.

The terms of the store leases for the 2,206 leased stores open as of January 31, 2026 expire as follows.

Lease Terms to Expire During	Number of Stores
Fiscal 2026	1,168
Fiscal 2027	527
Fiscal 2028	243
Fiscal 2029	160
Fiscal 2030 and later	108
	<u>2,206</u>

As of January 31, 2026, we leased five distribution facilities, totaling approximately 0.7 million square feet. The lease expiration dates for the leased facilities range from 2026 to 2032, with an average remaining lease life, including reasonably certain options, of approximately four years.

The following table presents our principal facilities⁽¹⁾. Additional information regarding our properties can be found in Item 1, "Business—Store Locations" in this Form 10-K.

Location	Segment	Square Footage	Owned or Leased	Use
Grapevine, Texas, USA ⁽¹⁾	United States	360,000	Leased	Distribution, fulfillment, administration, and manufacturing
Eagle Farm, Queensland, Australia	Australia	185,000	Leased	Distribution and administration
Sophia Antipolis, France	Europe	18,165	Leased	Administration
Paris, France	Europe	76,000	Leased	Distribution

⁽¹⁾ In fiscal 2024, we closed our distribution facility in York, Pennsylvania and consolidated U.S. fulfillment activities into our facility in Grapevine, Texas. During the same period, we relocated our U.S. refurbishment operations into our Grapevine Texas distribution, fulfillment and administration facility; previously, refurbishment operations were conducted in a separate facility also located in Grapevine. We also divested our operations in Italy, which included our facility in Milan.

ITEM 3. LEGAL PROCEEDINGS

The matters included in Part II, Item 8, Notes to the Consolidated Financial Statements, [Note 16](#), "Commitments and Contingencies - Legal Proceedings" included in this Form 10-K are incorporated by reference.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our Class A Common Stock is traded on the NYSE under the symbol "GME". As of March 18, 2026, there were 448.4 million shares of our Class A Common Stock outstanding, of which approximately 382.4 million shares (85%) were held by Cede & Co. on behalf of the Depository Trust & Clearing Corporation ("DTC"), and approximately 66.2 million shares (15%) were held by registered holders with our transfer agent, Computershare Limited ("Computershare"). Of the shares held by registered holders, approximately 3.3 million were held in our direct stock purchase plan ("DSPP") including 0.2 million shares held in nominee form by Computershare at DTC, with the remainder held directly in registered form with Computershare. As of March 18, 2026, there were 177,522 record holders of our Class A Common Stock.

On June 3, 2019, our Board of Directors elected to eliminate our quarterly dividend in an effort to strengthen our balance sheet and provide increased financial flexibility. During the past six fiscal years, we have not declared, and do not anticipate declaring in the near term, cash dividends on shares of our Class A Common Stock. In 2025, we issued a special dividend to holders of our Class A Common Stock in the form of a warrant. For information regarding the warrant dividend, see "Warrants" section in Item 7, Management's discussion and Analysis of Financial Condition and Result of Operations. We currently use, and will continue to use, all available funds and any future earnings for working capital and general corporate purposes, maintaining a strong balance sheet, potential control transactions and transformational acquisitions and capital expenditures. Any determination to pay dividends in the future will be at the discretion of our Board of Directors and will depend upon results of operations, financial condition, contractual restrictions, including those under the agreements governing our existing indebtedness, and other factors our Board of Directors deems relevant.

Stock Comparative Performance Graph

The following graph compares the cumulative total stockholder return on our Class A Common Stock for the period commencing February 1, 2021 through January 31, 2026 with the cumulative total return on the Standard & Poor's 500 Stock Index (the "S&P 500") and the Dow Jones Retailers, Other Specialty Industry Group Index (the "Dow Jones Specialty Retailers Index") over the same period. Total return values were calculated based on cumulative total return assuming (i) the investment of \$100 in our Class A Common Stock, the S&P 500 and the Dow Jones Specialty Retailers Index on February 1, 2021 and (ii) reinvestment of dividends.

The following stock performance graph and related information shall not be deemed "soliciting material" or "filed" with the SEC, nor should such information be incorporated by reference into any future filings under the Securities Act or the Exchange Act, except to the extent that we specifically incorporate it by reference in such filing.

	2/1/2021	1/28/2022	1/27/2023	2/2/2024	2/1/2025	1/31/2026
GME	\$ 100.00	\$ 30.13	\$ 28.09	\$ 18.13	\$ 33.11	\$ 29.39
S&P 500 Index	\$ 100.00	\$ 120.99	\$ 112.95	\$ 139.85	\$ 172.86	\$ 200.84
Dow Jones Specialty Retailers Index	\$ 100.00	\$ 95.90	\$ 95.66	\$ 114.21	\$ 167.00	\$ 159.96

As noted above under the heading "Risk Factors — Risk Related to Our Class A Common Stock", the market price of our Class A Common Stock has been extremely volatile due to circumstances outside of our control, including a short squeeze in 2021 that led to volatile price movements that were unrelated or disproportionate to our operating performance.

Issuer Purchases of Equity Securities

On March 4, 2019, our Board of Directors approved a share repurchase authorization allowing us to repurchase up to \$300.0 million of our Class A Common Stock. The authorization has no expiration date. We did not repurchase shares during fiscal 2025 or fiscal 2024. As of January 31, 2026, we have \$101.3 million remaining under the repurchase authorization. Refer to Item 7. Management's Discussion and Analysis - "Share Repurchases" for additional information.

ITEM 6. RESERVED

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the information contained in our consolidated financial statements, including the notes thereto. Statements regarding future economic performance, management's plans and objectives, and any statements concerning assumptions related to the foregoing contained in Management's Discussion and Analysis of Financial Condition and Results of Operations constitute forward-looking statements. Certain factors, which may cause actual results to vary materially from these forward-looking statements, accompany such statements or appear elsewhere in this Form 10-K, including the disclosures under Part I, Item 1A, "Risk Factors."

In Management's Discussion and Analysis of Financial Condition and Results of Operations, we provide a detailed analysis for fiscal 2025 compared to fiscal 2024. For a comparison of our results of operations for fiscal 2024 compared to fiscal 2023, see "Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" of our annual report on Form 10-K for the fiscal year ended February 1, 2025, as filed with the SEC on March 25, 2025.

OVERVIEW

GameStop Corp. ("GameStop," "we," "us," "our" or the "Company"), a Delaware corporation established in 1996, is a leading specialty retailer offering games, collectibles, and entertainment products. As we navigate the evolving commercial landscape, our business model is expanding beyond traditional retail to include value creation through disciplined capital allocation. We view our significant cash and liquidity position as a strategic asset to be deployed into acquisitions, and control transactions that offer long-term value.

In 2025, we drove our strategy (as described in Item 1) through the following initiatives:

- **Growth of Collectibles.** In 2025, we continued to expand our collectibles business, increasing its contribution from 19% of total sales in 2024 to 29% of total sales in 2025. This growth was driven in part by the rollout of our graded trading card submission services to all U.S. stores, expanded store space dedicated to collectibles, the continued development of our first-party repack offerings, and other strategic initiatives.
- **Capital Allocation.** In 2025, the Company opportunistically raised approximately \$4.2 billion through the issuance of interest-free convertibles notes and generated more than \$319 million in interest income through its disciplined treasury management activities.
- **Profit Optimization**
 - **Indirect Spend:** We have focused on eliminating non-income generating expenditures. In 2025, we significantly reduced indirect costs and intend to continue this discipline in 2026.
 - **International Streamlining:** We continued to evaluate our international operations for strategic relevance. In 2025, we divested our operations in Canada and shutdown our operations in New Zealand.
 - **Store Fleet Optimization:** Each year, we conduct a comprehensive review of our store portfolio to identify underperforming locations for closure based on market conditions, operational performance, and other relevant factors. This review resulted in the closure of 727 stores in the United States during fiscal 2025. At this time, we do not anticipate closing a significant number of stores in fiscal 2026, as our domestic store footprint remains a core component of our logistics infrastructure strategy.
- **New Initiatives.** In 2025, the Company launched Power Packs, a new digital trading platform in partnership with Collectors Holdings, Inc, through its Professional Sports Authenticator ("PSA") division. Early beta results have been promising. Power Packs is an online e-commerce experience through which collectors purchase graded PSA trading cards that are securely stored in the PSA vault. Cards can be instantly sold back, traded, shipped to the collector, or held for future offers.

STORE COUNT INFORMATION

The following table presents the number of stores by segment as of the end of fiscal 2025 compared to the end of fiscal 2024.

	February 1, 2025	Openings	Disposals	January 31, 2026
United States	2,325	—	(727)	1,598
Canada	193	—	(193)	—
Australia	374	1	(75)	300
Europe	311	—	(3)	308
Total Stores	3,203	1	(998)	2,206

CONSOLIDATED RESULTS OF OPERATIONS

The following table presents certain statement of operations items (in millions) and as a percentage of net sales:

	Fiscal 2025		Fiscal 2024		Change	
	Amount	Percent of Net Sales	Amount	Percent of Net Sales	\$	%
Net sales	\$ 3,629.9	100.0 %	\$ 3,823.0	100.0 %	\$ (193.1)	(5.1)%
Cost of sales	2,433.8	67.0	2,709.1	70.9	(275.3)	(10.2)
Gross profit	1,196.1	33.0	1,113.9	29.1	82.2	7.4
Selling, general, and administrative expenses	910.2	25.1	1,130.4	29.6	(220.2)	(19.5)
Asset impairments	53.8	1.5	9.7	0.3	44.1	454.6
Operating income (loss)	232.1	6.4	(26.2)	(0.7)	258.3	NM ⁽¹⁾
Interest income, net	(271.5)	(7.5)	(163.4)	(4.3)	(108.1)	(66.2)
Loss on digital assets and related receivables	131.6	3.6	—	—	131.6	100.0
Other income	(12.0)	(0.3)	—	—	(12.0)	100.0
Income before income taxes	384.0	10.6	137.2	3.6	246.8	179.9
Income tax (benefit) expense	(34.4)	(0.9)	5.9	0.2	(40.3)	NM ⁽¹⁾
Net income	\$ 418.4	11.5 %	\$ 131.3	3.4 %	\$ 287.1	218.7

⁽¹⁾ “NM” is data that is not meaningful.

Net Sales

The following table presents net sales by significant product category:

	Fiscal 2025		Fiscal 2024		Change	
	Net Sales	Percent of Net Sales	Net Sales	Percent of Net Sales	\$	%
Hardware and accessories	\$ 1,840.4	50.7 %	\$ 2,099.7	54.9 %	\$ (259.3)	(12.3)%
Software	729.3	20.1	1,005.4	26.3	(276.1)	(27.5)
Collectibles	1,060.2	29.2	717.9	18.8	342.3	47.7
Total	\$ 3,629.9	100.0 %	\$ 3,823.0	100.0 %	\$ (193.1)	(5.1)%

The following table presents net sales by reportable segment:

	Fiscal 2025		Fiscal 2024		Change	
	Net Sales	Percent of Net Sales	Net Sales	Percent of Net Sales	\$	%
United States	\$ 2,667.6	73.5 %	\$ 2,575.7	67.4 %	\$ 91.9	3.6 %
Canada	38.2	1.1	204.3	5.3	(166.1)	(81.3)
Australia	494.7	13.6	404.9	10.6	89.8	22.2
Europe	429.4	11.8	638.1	16.7	(208.7)	(32.7)
Total	<u>\$ 3,629.9</u>	<u>100.0 %</u>	<u>\$ 3,823.0</u>	<u>100.0 %</u>	<u>\$ (193.1)</u>	<u>(5.1)%</u>

During fiscal 2025, total net sales decreased \$193.1 million or 5.1% compared to the prior year. Net sales increased 22.2% in Australia and 3.6% in the United States, while net sales declined 81.3% in Canada and 32.7% in Europe. The overall decrease in consolidated net sales was primarily driven by a \$276.1 million or 27.5% decline in software sales and a \$259.3 million or 12.3% decline in hardware and accessories, partially offset by a \$342.3 million or 47.7% increase in collectibles sales. The decline in the Canada segment reflects the divestiture of that business in the second quarter of fiscal 2025, while the decline in the Europe segment was primarily due to the divestiture of Italy and the closure of our operations in Germany, both completed during the second half of fiscal 2024.

Gross Profit

Gross profit increased \$82.2 million, or 7.4%, in fiscal 2025 compared to the prior year, and gross profit as a percentage of net sales increased to 33.0% from 29.1% in the prior year.

The increase in both gross profit and gross margin was primarily driven by a shift in sales mix towards higher-margin product categories, particularly collectibles. Sales of collectibles increased to 29.2% of total net sales in fiscal 2025, compared to 18.8% in the prior year.

Selling, General, and Administrative Expenses

Selling, general, and administrative ("SG&A") expenses decreased \$220.2 million, or 19.5%, in fiscal 2025 compared to the prior year. SG&A as a percentage of net sales decreased to 25.1% in fiscal 2025, from 29.6% in the prior year.

The reduction in SG&A was driven by a \$96.4 million decrease in labor-related costs, consulting services, and marketing expenses as part of our ongoing cost-optimization initiatives. In addition, store-related rent and occupancy costs and depreciation expense decreased \$94.7 million and \$19.2 million, respectively, primarily due to store closures and international divestitures completed in recent periods.

Asset Impairments

Asset impairment expense was \$53.8 million in fiscal 2025, compared to \$9.7 million in the prior fiscal year. As a percentage of net sales, impairment expense increased to 1.5% in fiscal 2025 from 0.3% in the prior year. The increase was primarily attributable to management's plan, approved in the first quarter of fiscal 2025, to divest the Company's operations in Canada and France, resulting in the reclassification of the related assets and liabilities as held for sale. We recorded \$18.3 million of impairment expense related to the Canadian disposal group in the first quarter, and the divestiture was completed during the second quarter of fiscal 2025. Impairment expense of \$29.8 million was recorded on the French disposal group during fiscal 2025, reflecting remeasurements of carrying value relative to fair value.

In the prior year, impairment charges primarily related to management's plan, approved during the third quarter of fiscal 2024, to divest the Company's operations in Italy. See Item 8, Notes to the Consolidated Financial Statements, [Note 5 "Segment Information"](#) for additional information related to the impact of impairment charges by segment.

Interest Income, Net

Interest income, net increased \$108.1 million to \$271.5 million in fiscal 2025, compared to \$163.4 million in the prior year. The increase was primarily driven by higher cash, cash equivalent, and marketable securities balances resulting from the issuance of the Convertible 2030 Notes and Convertible 2032 Notes, partially offset by \$42.2 million of non-cash interest expense related to the issuance of warrants to the holders of the Convertible Notes.

Loss on Digital Assets and Related Receivables

Loss on digital assets and related receivables increased to \$131.6 million in fiscal 2025, compared to no such loss in the prior year. This represented 3.6% of net sales in fiscal 2025. The loss reflects a \$71.8 million realized loss recognized upon derecognition of our digital assets (Bitcoin) pledged as collateral in our covered call strategy, a \$59.7 million unrealized loss on the resulting digital asset receivable, and a \$0.1 million remeasurement loss on our remaining digital asset (Bitcoin) holdings.

Income Tax Expense, Net

Income tax expense, net decreased \$40.3 million to a tax benefit of \$34.4 million in fiscal 2025, compared to a tax expense of \$5.9 million in the prior year. The Company reported an effective tax rate of (9.0)% in fiscal 2025 compared to 4.3% in the prior year. The change in income tax expense and the effective tax rate was primarily driven by the \$141.1 million release of valuation allowance on certain U.S. deferred tax assets. See Item 8, Notes to the Consolidated Financial Statements, [Note 15](#), "Income Taxes," for additional information.

LIQUIDITY AND CAPITAL RESOURCES

Cash, cash equivalents and marketable securities

	January 31, 2026	February 1, 2025
Cash and cash equivalents	\$ 6,304.7	\$ 4,756.9
Marketable securities	2,709.1	18.0
Cash, cash equivalents and marketable securities	\$ 9,013.8	\$ 4,774.9

Sources of Liquidity; Uses of Capital

Our principal sources of liquidity are cash on hand and cash from operations. As of January 31, 2026, we had \$6,304.7 million of unrestricted cash and cash equivalents, and \$2,709.1 million of marketable securities.

Our cash and cash equivalents are carried at fair value and consist primarily of cash, money market funds, cash deposits with commercial banks, and highly rated direct short-term instruments with original maturities of 90 days or less.

Our marketable securities are also carried at fair value and include investments in certain highly-rated short-term government notes, government bills, commercial paper, and time deposits. As of January 31, 2026, \$2,709.1 million of these investments had original maturities in excess of 90 days and less than one year and are classified as "Marketable securities" on our Consolidated Balance Sheets.

In fiscal 2025, we reclassified cash and marketable securities associated with the French disposal group to Assets Held for Sale on the Consolidated Balance Sheets. As of January 31, 2026, the French disposal group included \$22.5 million of cash and an immaterial amount of marketable securities within Assets held for sale. See Item 1, Part I, "Notes to the Consolidated Financial Statements," Note 11, "Fair Value Measurements," for additional information.

On an ongoing basis, we evaluate and consider certain strategic operating alternatives, including divestitures, restructuring or dissolution of unprofitable business segments, uses for our excess cash, as well as equity and debt financing alternatives that we believe may enhance stockholder value. The nature, amount and timing of any strategic operational change, or financing transactions that we might pursue will depend on a variety of factors, including, as of the applicable time, our available cash and liquidity and operating performance; our commitments and obligations; our capital requirements; limitations imposed under our credit arrangements; and overall market conditions.

On March 18, 2025, the Board of Directors (the "Board") unanimously authorized a revised investment policy (the "investment policy"). See Item 1, Part I, "Notes to the Consolidated Financial Statements," Note 2, "Summary of Significant Accounting Policies," for additional information. Gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's results of operations. However, the amount of gain or loss on marketable securities for any given period may have no predictive value and variations in amount from period to period may have no analytical value.

In the first quarter of fiscal 2025, we announced that the Board approved the addition of Bitcoin as a treasury reserve asset, allowing a portion of our cash or future debt and equity proceeds to be invested in Bitcoin. During the second quarter of fiscal 2025, we purchased 4,710 Bitcoin for \$500 million. In the fourth quarter of fiscal 2025, we entered into an agreement (the "Collateral Agreement") with Coinbase Credit, Inc. (the "counterparty"), under which we sold covered call options on a portion of the Bitcoin we own. In connection with this covered-call strategy, we pledged 4,709 Bitcoin (the "Pledged Bitcoin") as collateral.

Under the terms of the Collateral Agreement, the counterparty retained the right to rehypothecate, commingle, or unilaterally sell the Pledged Bitcoin. As a result of these rights, we concluded that control of the Pledged Bitcoin transferred to the counterparty. Accordingly, we derecognized the Pledged Bitcoin as an intangible asset and recognized digital assets receivable of \$368.3 million within "Digital assets and related receivables" on our Consolidated Balance Sheets as of January 31, 2026, representing our contractual right to receive equivalent amount of Bitcoin in the future. Although the classification of these assets has changed, our economic exposure is consistent with direct ownership of the underlying Bitcoin.

We recorded an unrealized loss of \$59.7 million related to the digital asset receivable during fiscal 2025, reflecting the decline in the market price of Bitcoin between the date the Bitcoin was derecognized and January 31, 2026.

In fiscal 2021, six separate unsecured term loans held by our French subsidiary, Micromania SAS, for a total of €40.0 million were extended for five years. During the first quarter of fiscal 2025, we reclassified the French Term Loans to Liabilities held for sale on the Consolidated Balance Sheets where it continues to be measured at the lower of its carrying amount and fair value less costs to sell. As of January 31, 2026, \$7.5 million remains outstanding and classified in "Liabilities held for sale."

Some of our vendors have requested and may continue to request credit support collateral for our inventory purchase obligations and the levels of such collateral will depend on a variety of factors, including our inventory purchase levels, available payment terms for inventories, favorable credit terms, and costs of providing collateral.

We maintain uncommitted facilities with certain lenders that provide for the issuance of letters of credit and bank guarantees, at times supported by cash collateral. As of January 31, 2026, we had letters of credit and other bank guarantees outstanding in the amount of \$6.7 million.

At-the-Market Equity Offering Program

On May 17, 2024, we entered into an Open Market Sale AgreementSM with Jefferies LLC (the "Sales Agent") providing for the sale by the Company of shares of our Class A Common Stock, par value \$0.001 per share ("Common Shares"), from time to time, through the Sales Agent in connection with an "at-the-market offering" program (the "ATM Offerings").

Pursuant to the prospectus supplement relating to the ATM Offerings filed with the SEC on May 17, 2024, we sold an aggregate of 45.0 million Common Shares for aggregate gross proceeds before commissions and offering expenses of approximately \$933.4 million.

Pursuant to the prospectus supplement relating to the ATM Offerings filed with the SEC on June 7, 2024, we sold an aggregate of 75.0 million additional Common Shares for aggregate gross proceeds before commissions and offering expenses of approximately \$2,137.0 million.

Pursuant to the prospectus supplement relating to the ATM Offerings filed with the SEC on September 10, 2024, we sold an aggregate of 20.0 million additional Common Shares for aggregate gross proceeds before commissions and offering expenses of approximately \$400.0 million.

We intend to use the net proceeds from the ATM Offerings for general corporate purposes, which may include acquisitions and investments in a manner consistent with the Investment Policy.

Convertible Senior Notes

On April 1, 2025, we completed a private offering of \$1,500 million aggregate principal amount of 0.00% Convertible Senior Notes due 2030 (the "Convertible 2030 Notes"), including the exercise in full of the initial purchaser's option to purchase up to an additional \$200 million aggregate principal amount of the Convertible 2030 Notes. The Convertible 2030 Notes are general unsecured obligation of the Company. The Convertible 2030 Notes were issued pursuant to an Indenture, dated April 1, 2025, between the Company and U.S. Bank Trust Company, National Association (the "Trustee"), as trustee.

On June 17, 2025, we completed a private offering of \$2,250 million aggregate principal of 0.00% Convertible Senior Notes due 2032 (the "Convertible 2032 Notes" and, collectively with the Convertible 2030 Notes, the "Convertible Notes"). Pursuant to the purchase agreement between the Company and the initial purchaser of the Notes, the Company granted the initial purchaser an option to purchase, for settlement within a period of 13 days from, and including, the date the Notes are first issued, up to an additional \$450 million aggregate principal amount of Notes. The Convertible 2032 Notes are general unsecured obligation of the Company. The Convertible 2032 Notes were issued pursuant to an Indenture, dated June 17, 2025, between the Company and the Trustee, as trustee.

See Part I, Item 8, Notes to the Consolidated Financial Statements, [Note 13 "Debt"](#) of our consolidated financial statements for additional information related to the Convertible 2030 Notes and the Convertible 2032 Notes.

We intend to use the net proceeds from the Convertible 2030 Notes for general corporate purposes, including the acquisition of Bitcoin in a manner consistent with the Company's Investment Policy. We intend to use the net proceeds from the Convertible 2032 Notes for general corporate purposes, including making investments in a manner consistent with the Company's Investment Policy and potential acquisitions.

Warrants

On October 7, 2025, the Company, announced that the Board declared a distribution (the "Warrant Distribution") to the

holders of record of the Company's class A common stock ("Common Stock") and holders of the Convertible Notes, in the form of warrants to purchase shares of Common Stock (the "Warrants"). The Warrants were issued on the terms and conditions described in the Warrant Agreement (as defined below) and were distributed on October 7, 2025, to the record holders of the Common Stock and the Convertible Notes as of the close of business on October 3, 2025 (the "Record Date").

Pursuant to the terms of the Warrant Agreement between the Company, Computershare Inc., and its affiliate, Computershare Trust Company, N.A., as Warrant Agent (the "Warrant Agreement"), each holder of record of Common Stock as of the Record Date received one Warrant for every ten shares of Common Stock (rounded down to the nearest whole number for any fractional Warrant). Holders of the Convertible Notes also received Warrants on an "as converted" basis in lieu of an adjustment to the conversion rate of the Convertible Notes pursuant to the applicable indenture governing the Convertible Notes. The distribution of the Warrants to the Convertible Noteholders was at the same time and on the same terms as holders of Common Stock. Holders of the Convertible Notes will not need to convert the Convertible Notes into Common Stock in order to receive the Warrants.

Each Warrant entitles the holder to purchase, at the holder's sole and exclusive election, at a cash exercise price of \$32.00 per Warrant (the "Exercise Price"), one share of Common Stock, subject to adjustment pursuant to the provisions of the Warrant Agreement. Payment for shares of Common Stock upon exercise of Warrants must be in cash. The Warrants will expire and cease to be exercisable at 5:00 p.m. New York City time on October 30, 2026 (the "Expiration Date").

The number of shares of Common Stock issuable upon exercise of the Warrants is subject to certain anti-dilution adjustments, including for stock dividends, share splits, share combinations, rights issuances, other distributions, spinoffs, cash dividends and tender or exchange offers.

The Warrants commenced trading on the New York Stock Exchange under the ticker "GME WS" on October 8, 2025.

In connection with the Warrant Distribution, the Company filed a prospectus supplement, dated October 7, 2025, pursuant to the Company's existing shelf registration statement on Form S-3 ASR, effective as of October 3, 2025, registering up to 59,153,963 shares of Common Stock to be issued upon exercise of the Warrants.

During fiscal 2025, holders exercised 6,717 Warrants, resulting in the issuance of 6,717 shares of common stock and cash proceeds of \$214,873.

Cash Flows

The following table presents a summary of our cash flows from operating, investing, and financing activities, as reflected in the Consolidated Statements of Cash Flows:

	Fiscal 2025	Fiscal 2024	Change
Cash provided by operating activities	\$ 614.8	\$ 145.7	\$ 469.1
Cash (used in) provided by investing activities	(3,209.8)	265.1	(3,474.9)
Cash provided by financing activities	4,146.2	3,443.0	703.2
Exchange rate effect on cash, cash equivalents and restricted cash	9.6	(2.9)	12.5
Net change in cash balance classified as assets held for sale	(22.5)	—	(22.5)
Increase (decrease) in cash, cash equivalents and restricted cash	<u>\$ 1,538.3</u>	<u>\$ 3,850.9</u>	<u>\$ (2,312.6)</u>

Operating Activities

Cash provided by operating activities was \$614.8 million in fiscal 2025, compared to \$145.7 million in fiscal 2024. The increase was primarily driven by higher operating income and increased interest income during fiscal 2025.

Cash provided by operating activities in fiscal 2024 primarily reflected the impact of net income, a decrease in merchandise inventories, and a decrease in receivables, partially offset by decreases in accounts payable and accrued liabilities.

Investing Activities

Cash used in investing activities was \$3,209.8 million in fiscal 2025, compared to cash provided by investing activities of \$265.1 million in fiscal 2024.

Cash used in fiscal 2025 primarily reflected purchases of marketable securities and the purchase of digital assets, partially offset by proceeds from the sale and maturity of marketable securities.

Cash provided by investing activities in fiscal 2024 primarily resulted from the maturity of marketable securities and proceeds from the sale of property and equipment in our Europe segment, partially offset by purchases of marketable securities and routine capital expenditures.

Financing activities

Cash provided by financing activities totalled \$4,146.2 million in fiscal 2025, compared to \$3,443.0 million in fiscal 2024.

Cash provided by financing activities in fiscal 2025 was driven primarily by \$4,200 million of gross proceeds received from the issuance of convertible debt, partially offset by debt issuance costs related to the convertible notes and warrants, as well as repayments on our government-guaranteed low interest French term loans due October 2022 through October 2026.

Cash provided by financing activities in fiscal 2024 was driven primarily by \$3,453.8 million of net proceeds received from the issuance and sale of shares of our Class A Common Stock under our ATM Offerings, partially offset by repayments on our government-guaranteed low interest French term loans.

Share Repurchases

On March 4, 2019, our Board of Directors approved a share repurchase authorization allowing us to repurchase up to \$300.0 million of our Class A Common Stock. The authorization has no expiration date.

We did not repurchase shares during fiscal 2025, fiscal 2024 or fiscal 2023. As of January 31, 2026, we have \$101.3 million remaining under the repurchase authorization.

OFF-BALANCE SHEET ARRANGEMENTS

We had no material off-balance sheet arrangements as of January 31, 2026 other than those disclosed in Item 8, Notes to the Consolidated Financial Statements, [Note 16](#), "Commitments and Contingencies".

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In preparing these financial statements, we have made our best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by us could have a significant impact on our financial results, and actual results could differ from those estimates. Our senior management has discussed the development and selection of these critical accounting policies, as well as the significant accounting policies disclosed in Item 8, Notes to the Consolidated Financial Statements, [Note 2](#), "Summary of Significant Accounting Policies," with the Audit Committee of our Board of Directors. We believe the following accounting policies are the most critical to aid in fully understanding and evaluating our reporting of transactions and events, and the estimates these policies involve our most difficult, subjective or complex judgments.

Valuation of Warrants

During fiscal 2025, the Company issued warrants to the record holders of the Company's Class A common stock and holders of the Convertible Notes. Each warrant entitles the holder to purchase, at the holder's sole exclusive election, one share of common stock at an exercise price, subject to adjustment pursuant to the provision of the Warrant Agreement, of \$32.00. The warrants have been classified as equity in accordance with ASC 815-40 and will expire on October 30, 2026.

The valuation of the warrants involves significant judgment, and the Company estimated the fair value using the Black-Scholes option pricing model, a Level 3 valuation technique under ASC 820: Fair Value Measurements, as there was no readily observable market price for these warrants at the time of the issuance. Key inputs used in the model to determine the fair value include: the closing stock price of the Company on the issuance date, the exercise price, the expiration date, the risk-free rate, the expected dividend yield rate, and volatility. This resulted in an estimated valuation of \$2.94 for each warrant.

As of January 31, 2026, the consolidated financial statements reflect a \$172.9 million aggregate value for the warrants issued, including a noncash, nonrecurring interest charge of \$42.2 million for the warrants issued to the holders of the Convertible 2030 Notes and the Convertible 2032 Notes.

Valuation of Merchandise Inventories

Our merchandise inventories are carried at the lower of cost or market generally using the average cost method. Under the average cost method, as new product is received from vendors, its current cost is added to the existing cost of product on-hand and this amount is re-averaged over the cumulative units. Pre-owned gaming systems and other products traded in by customers are recorded as inventory at the amount of cash or store credit given to the customer. In valuing inventory, we are required to make assumptions regarding the necessity of reserves required to value potentially obsolete or over-valued items at the lower of cost or market. We consider quantities on hand, recent sales, potential price protections and returns to vendors, among other factors, when making these assumptions.

Our ability to gauge these factors is dependent upon our ability to forecast customer demand and to provide a well-balanced merchandise assortment. Any inability to forecast customer demand properly could lead to increased costs associated with write-downs of inventory to reflect volumes or pricing of inventory which we believe represents the net realizable value. A 10% change in our obsolescence reserve percentage at January 31, 2026 would have affected net earnings by approximately \$1.2 million in fiscal 2025.

Customer Liabilities

Our GameStop Pro[®] rewards program allows paid members to earn points on purchases that can be redeemed for rewards that include discounts or coupons. We allocate the transaction price between the product and loyalty points earned based on the relative stand-alone selling prices and expected point redemption. The portion allocated to the loyalty points is initially recorded as deferred revenue and subsequently recognized as revenue upon redemption or expiration. The two primary estimates utilized to record the deferred revenue for loyalty points earned by members are the estimated retail price per point and estimated amount of points that will never be redeemed, which is a concept known in the retail industry as "breakage." Additionally, we sell gift cards to our customers in our retail stores, through our website and through selected third parties. At the point of sale, a liability is established for the value of the gift card. We recognize revenue from gift cards when the card is redeemed by the customer and recognize estimated breakage on gift cards in proportion to historical redemption patterns.

The two primary estimates utilized to record the balance sheet liability for loyalty points earned by members are the estimated redemption rate and the estimated weighted-average retail price per point redeemed. We use historical redemption rates experienced under our loyalty program as a basis for estimating the ultimate redemption rate of points earned. We estimate breakage of loyalty points and unredeemed gift cards based on historical redemption rates. The weighted-average retail price per point redeemed is based on our most recent actual loyalty point redemptions and is adjusted as appropriate for recent changes in redemption values, including the mix of rewards redeemed. Our estimate of the amount and timing of gift card redemptions is based primarily on historical transaction experience.

We continually evaluate our methodology and assumptions based on developments in redemption patterns, retail price per point redeemed and other factors. Changes in the ultimate redemption rate and weighted-average retail price per point redeemed have the effect of either increasing or decreasing the deferred revenue balance through current period revenue by an amount estimated to cover the retail value of all points previously earned but not yet redeemed by loyalty program members as of the end of the reporting period. A 10% change in our customer loyalty program redemption rate or a 10% change in our weighted-average retail value per point redeemed at January 31, 2026, in each case, would have affected net earnings by approximately \$1.3 million in fiscal 2025. A 10% change in our gift card breakage rate at January 31, 2026 would have affected net earnings by approximately \$8.6 million in fiscal 2025. A 10% change in our reservation breakage at January 31, 2026 would have affected net earnings by approximately \$1.5 million in fiscal 2025.

Income Taxes

We account for income taxes using an asset and liability approach, under which deferred tax assets and liabilities are recognized for the estimated future tax effects of differences between the financial reporting and tax bases of assets and liabilities, using enacted tax rates. Because we operate in multiple foreign jurisdictions, our global effective tax rate reflects a blend of the applicable statutory rates in those jurisdictions.

On July 4, 2025, the One Big Beautiful Bill Act ("OBBA") was enacted in the United States. The legislation includes significant provisions, such as the permanent extension of certain provisions of the Tax Cuts and Jobs Act, modifications to the U.S. international tax framework, and the restoration of favorable business tax provisions, including the immediate expensing of domestic research and experimental expenditures. These provisions have varying effective dates beginning

in 2025 and extending through through 2027. While we continue to evaluate the full impact of the legislation, the OBBBA did not have a material effect on our estimated fiscal 2025 effective tax rate.

The Organization for Economic Co-operation and Development ("OECD"), supported by more than 140 countries, has agreed to implement a global minimum corporate tax rate of 15% on certain multinational enterprises under the Pillar Two framework. These rules began taking effect across various jurisdictions in 2024 as countries enacted legislation aligned with the OECD model. In fiscal 2025, the Company did not incur any Pillar Two top-up taxes and, therefore, did not record any related impact to the fiscal 2025 effective tax rate. We will continue to monitor additional OECD guidance and pending and enacted legislation in the jurisdictions in which we operate.

A valuation allowance is recorded when it is more likely than not that some portion or all of a deferred tax asset will not be realized. In evaluating the realizability of our deferred tax assets, we consider a number of factors, including the remaining years available for the carryforward, applicable tax laws, projected future profitability of specific business units, and feasible tax-planning strategies. Based on this evaluation, we concluded that certain deferred tax assets are not more likely than not to be realized. As a result, our valuation allowances increased by a net of \$111.9 million, reaching \$403.2 million as of January 31, 2026. See Item 8, Notes to the Consolidated Financial Statements, [Note 15](#), "Income Taxes," for additional information.

We maintain accruals for uncertain tax positions until the relevant tax years are audited by the applicable taxing authorities, the statutory periods for review expire, or new information becomes available that affects our assessment. Our liability for uncertain tax positions was \$5.0 million as of January 31, 2026. Significant judgment is required in evaluating uncertain tax positions due to the inherent complexity of tax laws, varying interpretations among jurisdictions, and the impact of potential changes in tax regulations. Our estimated annual effective tax rate reflects a weighted combination of jurisdictional tax rates and projected income by jurisdiction, based on our understanding of applicable tax rules and regulations.

Judgments related to uncertain tax positions or the realizability of deferred tax assets may change as a result of new information, tax audits, or changes in tax law. If such changes occurs, our effective tax rate could fluctuate in future periods, impacting our net earnings.

RECENT ACCOUNTING STANDARDS AND PRONOUNCEMENTS

See Item 8, Notes to the Consolidated Financial Statements, [Note 3](#), "New Accounting Pronouncements," for recent accounting standards and pronouncements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk due to foreign currency fluctuations as well as volatility associated with our holdings of Bitcoin, described more fully below.

Foreign Currency Risk

We may use forward exchange contracts to manage currency risk primarily associated with intercompany loans denominated in non-functional currencies. The forward contracts are not designated as hedging instruments under ASC 815; therefore, changes in their fair value are recognized in earnings and offset the current-period re-measurement effects of the related intercompany loans.

The aggregate fair value of our forward exchange contracts as of January 31, 2026 and February 1, 2025 was a net liability of zero for both periods. Fair value measurements are based on observable market inputs obtained from financial reporting services, such as *Bloomberg*, and industry-standard valuation models incorporating quoted forward prices, time value, volatility factors, and contractual terms, as well as relevant economic assumptions. As of January 31, 2026, we had no outstanding derivatives contracts, and accordingly, no foreign currency derivatives exposure.

We do not use derivative financial instruments for trading or speculative purposes. We are exposed to counterparty credit risk on all derivative financial instruments and cash-equivalent investments. Counterparty risk is managed in accordance with our risk management and investment policies, which include ongoing monitoring of counterparty financial strength and the use of multiple counterparties to reduce concentration risk.

Covered call options

In addition to foreign currency risk, we are exposed to market price volatility associated with our holdings of Bitcoin. To mitigate a portion of this exposure and to generate incremental yield, we employ a covered-call strategy by selling Bitcoin call options. These written call option contracts limit our participation in Bitcoin price appreciation above the contractual

strike prices while continuing to expose us to the full extent of downward price movements; premiums received provide only a limited offset to potential losses. The options are freestanding derivative instruments and are not designated as hedging instruments under ASC 815.

Our covered-call contracts are over-the-counter ("OTC") derivatives entered into with Coinbase Credit, Inc. and are typically short-dated. Under the agreements, Bitcoin is pledged as collateral and can be rehypothecated, re-pledged, or otherwise deployed by Coinbase. As of January 31, 2026, we had outstanding covered-call option contracts referencing approximately 4,709 Bitcoin, with strike prices ranging from \$105,000 to \$110,000 and maturities extending through March 27, 2026. These contracts resulted in a derivative liability of \$0.7 million as of January 31, 2026, which is presented within Accrued Liabilities and other current assets and an associated unrealized gain of approximately \$2.3 million for the period. No derivative assets were recognized as of the reporting date. Premiums received at inception are initially recorded on the consolidated balance sheets, and subsequently reflected in earnings consistent with the subsequent fair value change of the related options. Subsequent to year-end, a portion of the covered-call option contracts expired unexercised and the related pledged collateral continues to be held by Coinbase Credit, Inc.

The fair value of these written options is measured using standard option-pricing models incorporating observable market inputs, including Bitcoin spot prices, implied volatility, and time to expiration. As such, the options are classified as Level 2 within the fair value hierarchy. Changes in the fair value of the options are recognized in earnings within "Other (income) expense, net," classified as nonoperating activity. This presentation is consistent with the treatment of fair value changes related to our Digital assets and related receivables, which are recognized in earnings within "Loss on digital assets and related receivables," also classified as nonoperating activity.

Because the options are written over Bitcoin pledged as collateral and subject to rehypothecation rights held by Coinbase Credit, Inc., we are exposed to counterparty credit risk in the event of default. We evaluate this credit exposure each reporting period, considering publicly available financial information, regulatory environment, and other relevant factors. The contracts do not contain credit-risk related contingent features, such as requirements to post additional collateral or early termination rights tied to credit ratings. The Company did not record a credit-loss allowance associated with these derivative positions as of January 31, 2026.

Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors
GameStop Corp.:

Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting

We have audited the accompanying consolidated balance sheet of GameStop Corp. and subsidiaries (the Company) as of January 31, 2026, the related consolidated statements of operations, comprehensive income (loss), stockholders' equity, and cash flows for the 52 weeks ended January 31, 2026, and the related notes (collectively, the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of January 31, 2026, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of January 31, 2026, and the results of its operations and its cash flows for the 52 weeks ended January 31, 2026, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of January 31, 2026 based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audit of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Valuation of warrants

As discussed in Notes 2 and 11 to the consolidated financial statements, on October 7, 2025, the Company distributed warrants to purchase shares of common stock to the holders of the Company's common stock and holders of the Company's convertible notes. The warrants have been classified as equity. The Company estimated the fair value of the warrants using the Black-Scholes option pricing model. The key inputs used in the Black-Scholes option pricing model included the Company's closing stock price on the valuation date, exercise price, expiration date, risk-free rate, expected dividend yield, and volatility. The aggregate fair value for the warrants was \$173.9 million.

We identified the evaluation of the fair value of the warrants as a critical audit matter. A high degree of auditor judgment and the involvement of professionals with specialized skills and knowledge were required to evaluate the estimated fair value of the warrants due to the degree of subjectivity associated with the volatility assumption and its sensitivity to variation.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of an internal control related to the Company's warrants valuation process, which included the determination of the volatility assumption. We involved valuation professionals with specialized skills and knowledge, who assisted in:

- developing an independent expectation of the volatility assumption based on consideration of historical and implied share price volatility information
- developing an independent estimate of the fair value of the warrants as of October 7, 2025, using independently developed assumptions, including volatility, and comparing the independently developed estimate of fair value to the respective fair value for the warrants as of October 7, 2025 used by management.

/s/ KPMG LLP

We have served as the Company's auditor since 2025.

Dallas, Texas
March 24, 2026

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of GameStop Corp.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheet of GameStop Corp. and subsidiaries (the "Company") as of February 1, 2025, the related consolidated statements of operations, comprehensive loss, stockholders' equity, and cash flows for the 52 weeks ended February 1, 2025 and the 53 weeks ended February 3, 2024, and the related notes and the schedule listed in the Index at Item 15 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of February 1, 2025 and the results of its operations and its cash flows for the 52 weeks ended February 1, 2025 and the 53 weeks ended February 3, 2024, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

1. General Information

The Company

GameStop Corp. ("GameStop," "we," "us," "our" or the "Company"), a Delaware corporation established in 1996, is a leading specialty retailer offering games, collectibles, and entertainment products.

Effective May 4, 2025, we operate our business in three geographic segments: United States, Australia and Europe. During the second quarter of fiscal 2025, we divested our operations in Canada, which previously comprised a fourth separate reporting segment. The information contained in these consolidated financial statements refers to continuing operations unless otherwise noted. See [Note 5](#), "Segment Information," for additional information.

Basis of Presentation and Consolidation

Our consolidated financial statements include our accounts and the accounts of our wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

The consolidated financial statements included herein reflect all adjustments (consisting only of normal, recurring adjustments) which are, in our opinion, necessary for a fair presentation of the information for the periods presented. These consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") as codified in the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC"). Certain amounts in the consolidated financial statements and notes thereto or prior years have been reclassified to conform to the current presentation.

Our fiscal year is composed of the 52 or 53 weeks ending on the Saturday closest to the last day of January. Fiscal year 2025 consisted of the 52 weeks ended on January 31, 2026 ("fiscal 2025"). Fiscal year 2024 consisted of the 52 weeks ended on February 1, 2025 ("fiscal 2024"). Fiscal year 2023 consisted of the 53 weeks ended on February 3, 2024 ("fiscal 2023").

At-the-Market Equity Offering Program

On May 17, 2024, we entered into an Open Market Sale AgreementSM with Jefferies LLC (the "Sales Agent") providing for the sale by the Company of shares of our Class A Common Stock, par value \$.001 per share ("Common Shares"), from time to time through the Sales Agent in connection with an "at-the-market" equity offering program ("ATM Offerings").

Pursuant to the prospectus supplement relating to the ATM Offerings filed with the SEC on May 17, 2024, we sold an aggregate of 45.0 million Common Shares for aggregate gross proceeds before commissions and offering expenses of approximately \$933.4 million.

Pursuant to the prospectus supplement relating to the ATM Offerings filed with the SEC on June 7, 2024, we sold an additional aggregate of 75.0 million Common Shares for aggregate gross proceeds before commissions and offering expenses of approximately \$2,137.0 million.

Pursuant to the prospectus supplement relating to the ATM Offerings filed with the SEC on September 10, 2024, we sold an additional aggregate of 20.0 million Common Shares for aggregate gross proceeds before commissions and offering expenses of approximately \$400.0 million.

Convertible Senior Notes

On April 1, 2025, we completed a private offering of \$1,500 million aggregate principal amount of 0.00% Convertible Senior Notes due 2030 (the "Convertible 2030 Notes"), including the exercise in full of the initial purchaser's option to purchase up to an additional \$200 million aggregate principal amount of the Convertible 2030 Notes. The Convertible 2030 Notes are a general unsecured obligation of the Company. The Convertible 2030 Notes were issued pursuant to an Indenture, dated April 1, 2025, between the Company and U.S. Bank Trust Company, National Association (the "Trustee"), as trustee.

On June 17, 2025, we completed a private offering of \$2,250 million aggregate principal of 0.00% Convertible Senior Notes due 2032 (the "Convertible 2032 Notes" and, collectively with the Convertible 2030 Notes, the "Convertible Notes"). Pursuant to the purchase agreement between the Company and the initial purchaser of the Notes, the Company granted the initial purchaser an option to purchase, for settlement within a period of 13 days from, and including, the date the Notes are first issued, up to an additional \$450 million aggregate principal amount of Notes (the "Additional Notes"). On June 23, 2025, the initial purchaser elected to exercise in full such option, and on June 24, 2025, the Company issued the full aggregate principal amount of the Additional Notes. The Convertible 2032 Notes are a general unsecured obligation of

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

the Company. The Convertible 2032 Notes were issued pursuant to an Indenture, dated June 17, 2025, between the Company and the Trustee, as trustee.

Warrants

On October 7, 2025, the Company announced that the Board declared a distribution (the "Warrant Distribution") to the holders of record of the Company's Class A common stock ("Common Stock") and holders of the Convertible Notes, in the form of warrants to purchase shares of Common Stock (the "Warrants"). The Warrants were issued on the terms and conditions described in the Warrant Agreement (as defined below) and were distributed on October 7, 2025, to the record holders of the Common Stock and the Convertible Notes as of the close of business on October 3, 2025 (the "Record Date").

Pursuant to the terms of the Warrant Agreement between the Company, Computershare Inc., a Delaware corporation, and its affiliate, Computershare Trust Company, N.A., as Warrant Agent (the "Warrant Agreement"), each holder of record of Common Stock as of the Record Date received one Warrant for every ten shares of Common Stock (rounded down to the nearest whole number for any fractional Warrant). Holders of the Convertible Notes also received Warrants on an "as converted" basis in lieu of an adjustment to the conversion rate of the Convertible Notes pursuant to the applicable indenture governing the Convertible Notes. The distribution of the Warrants to the Convertible Noteholders was at the same time and on the same terms as holders of Common Stock. Holders of the Convertible Notes will not need to convert the Convertible Notes into Common Stock in order to receive the Warrants.

Use of Estimates

The preparation of the consolidated financial statements and accompanying footnotes in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires us to make estimates and assumptions that affect the amounts reported and disclosed. We regularly evaluate the estimates related to our assets and liabilities, contingent assets and liabilities, and the reported amounts of revenues and expenses. In preparing these financial statements, we have made our best estimates and judgments of certain amounts included in the consolidated financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by us could have a significant impact on our financial results. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies

Cash and Cash Equivalents and Restricted Cash

Our cash and cash equivalents on our Consolidated Balance Sheets are carried at cost, which approximates fair value, and consists primarily of cash, money market funds, cash deposits with commercial banks, and highly rated direct short-term instruments with an original maturity of 90 days or less. Our restricted cash is also carried at cost, which approximates fair value, and consists primarily of bank deposits that collateralize our obligations to vendors and landlords.

The following table presents a reconciliation of cash, cash equivalents and restricted cash in our Consolidated Balance Sheets to total cash, cash equivalents and restricted cash in our Consolidated Statements of Cash Flows:

	Fiscal 2025	Fiscal 2024
Cash and cash equivalents	\$ 6,304.7	\$ 4,756.9
Restricted cash ⁽¹⁾	3.7	3.3
Long-term restricted cash ⁽²⁾	19.7	29.6
Total cash, cash equivalents and restricted cash	<u>\$ 6,328.1</u>	<u>\$ 4,789.8</u>

(1) Recognized in prepaid expenses and other current assets on our Consolidated Balance Sheets.

(2) Recognized in other noncurrent assets on our Consolidated Balance Sheets.

Investments

We have invested a portion of our excess cash in investment grade short-term fixed income securities, which primarily consist of U.S. government and agency securities, commercial paper, as well as time deposits. Investments with an original maturity greater than 90 days but less than one year are classified as Marketable Securities on our Consolidated Balance Sheets. We classify these investments as available-for-sale debt securities and record them at fair value. Unrealized holding gains and losses are recognized in Accumulated other comprehensive loss on our Consolidated Balance Sheets. Realized gains and losses upon sale or extinguishment are reported in "Other income (expense), net" in

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

our Consolidated Statements of Operations. Each reporting period, we evaluate declines in fair value to determine whether they are attributable to expected credit losses, and assess our ability and intent to hold the investment until recovery.

On March 18, 2025, our Board of Directors (the "Board") unanimously authorized a revised investment policy (the "Investment Policy"). In accordance with the Investment Policy, the Board has delegated authority to manage the Company's investments and liquidity to an Investment Committee of the Board (the "Investment Committee") consisting of the Company's Chairman and Chief Executive Officer, Ryan Cohen, as well as two independent members of the Board, together with such personnel and advisors as the Investment Committee deems appropriate.

On March 25, 2025, we announced that, as part of our revisions to the Investment Policy, the Board approved the addition of Bitcoin as a treasury reserve asset, whereby a portion of our cash or future debt and equity issuances may be held in Bitcoin. Such investments are classified as Digital assets on our Consolidated Balance Sheets, and are recorded at fair value. See "Digital Assets" section below for additional information.

The Investment Committee regularly reviews risks related to the Company's investments, including concentration risk. In allocating capital among investment opportunities and evaluating related investment risk, the Investment Committee considers market-based factors, including risk adjusted after-tax yields, as well as the Company's overall liquidity requirements..

Merchandise Inventories

Our merchandise inventories are carried at the lower of cost or net realizable value generally using the average cost method. Under the average cost method, as new product is received from vendors, its current cost is added to the existing cost of product on-hand and this amount is re-averaged over the cumulative units. Pre-owned gaming systems and other products traded in by customers are recorded as inventory at the amount of cash or store credit given to the customer. We are required to make adjustments to inventory to reflect potential obsolescence or over-valuation as a result of cost exceeding market. In valuing inventory, we consider quantities on hand, recent sales, potential price protections, returns to vendors and other factors. Our ability to assess these factors is dependent upon our ability to forecast customer demand and to provide a well-balanced merchandise assortment. Inventory is adjusted based on anticipated physical inventory losses or shrinkage and actual losses resulting from periodic physical inventory counts. Inventory reserves as of January 31, 2026 and February 1, 2025 were \$24.3 million and \$24.5 million, respectively.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation and amortization. Depreciation on fixtures and equipment is computed using the straight-line method over their estimated useful lives. Maintenance and repairs are expensed as incurred, while improvements and major remodeling costs are capitalized. Leasehold improvements are capitalized and amortized over the shorter of their estimated useful lives or the terms of the respective leases, which includes reasonably certain renewal options. Costs incurred in purchasing or developing management information systems are capitalized and included in fixtures and equipment. These costs are amortized over their estimated useful lives from the date the technology becomes operational. We periodically review our property and equipment when events or changes in circumstances indicate that its carrying amounts may not be recoverable or its depreciation or amortization periods should be accelerated. We assess recoverability based on several factors, including our intention with respect to our stores and those stores' projected undiscounted cash flows. An impairment loss is recognized for the amount by which the carrying amount of the assets exceeds its fair value, determined based on an estimate of discounted future cash flows or readily available market information for similar assets.

Assets Held for Sale

We consider assets to be held for sale when management, with appropriate authority, approves and commits to a formal plan to actively market the assets for sale at a price reasonable in relation to their estimated fair value, the assets are available for immediate sale in their present condition, an active program to locate a buyer has been initiated, the sale of the assets is probable and expected to be completed within one year, and it is unlikely that significant changes will be made to the plan. Upon designation as held for sale, we record the assets at the lower of their carrying value or their estimated fair value, reduced for the cost to dispose the assets.

As part of our efforts to maximize profitability and streamline our international footprint, we continue to evaluate our non-U.S. assets to assess their strategic relevance.

During the first quarter of fiscal 2025, management approved a plan to divest the Company's operations in Canada. As a result, all related assets and liabilities (the "Canadian disposal group") were reclassified as held for sale, and an impairment expense of \$18.3 million was recorded. In the second quarter of fiscal 2025, we completed the sale of our

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

Canadian subsidiary, Electronic Boutique Canada, Inc., which operated our Canadian stores and e-commerce business. The related loss on disposal was recorded within "Asset impairments" in our Consolidated Statements of Operations. Both the proceeds from the sale and loss on disposal were immaterial to our financial statements.

Also during the first quarter of fiscal 2025, management approved a plan to divest the Company's operations in France. Accordingly, all relevant assets and liabilities (the "French disposal group") were reclassified as held for sale, and we recorded an impairment charge of \$17.2 million. Subsequent remeasurement adjustments resulted in additional impairment charges of \$12.6 million during fiscal 2025. These adjustments reflected changes in the estimated fair value of the French disposal group, including impacts associated with amounts recorded in Accumulated other comprehensive income. As of January 31, 2026, the French disposal group included \$146.5 million in Assets held for sale and \$136.1 million in Liabilities held for sale. The sale of the French operations is expected to be completed within the next twelve months.

Digital Assets

In December 2023, the Financial Accounting Standards Board ("FASB") issued ASU No. 2023-08, Intangibles—Goodwill and Other—Crypto Assets (Subtopic 350-60): Accounting for and Disclosure of Crypto Assets ("ASU 2023-08"). ASU 2023-08 requires certain crypto assets, such as Bitcoin, to be measured at fair value at each reporting date, with changes in fair value recognized in earnings, and to be presented separately from other intangible assets together with enhanced disclosures (including the name, number of units, cost basis, and fair value for each significant crypto asset holding). The standard is effective for fiscal years beginning after December 15, 2024, including interim periods therein; early adoption is permitted. We adopted ASU 2023-08 on a modified retrospective basis effective February 2, 2025. The Company did not hold material crypto assets immediately prior to adoption; accordingly, the cumulative-effect adjustment to opening retained earnings and the impact on our Consolidated Balance Sheets were immaterial.

Following adoption, the Company measures its in-scope digital assets at fair value under ASC 350-60 with fair value determined in accordance with ASC 820. Bitcoin is initially recorded at cost, and subsequently remeasured using unadjusted quoted prices in the principal market that we have identified for Bitcoin (currently, the Coinbase exchange), which we consider an active market. Because the fair value is derived from quoted prices for an identical asset in an active market, Bitcoin is classified within Level 1 of the fair value hierarchy. Unrealized gains and losses from changes in Bitcoin's fair value are recognized in the Consolidated Statements of Operations as "Loss on digital assets and related receivables," and are presented as nonoperating activity.

On January 16, 2026, the Company entered into an agreement (the "Collateral Agreement") with Coinbase Credit, Inc. (the "counterparty"), under which the Company sold covered call options on a portion of the Bitcoin it owns. The options are accounted for as derivatives under ASC 815 and are not designated as hedging instruments.

Our covered-call contracts are over-the-counter ("OTC") derivatives entered into with Coinbase Credit, Inc. and are typically short-dated. Under the agreements, Bitcoin is pledged as collateral and can be rehypothecated, re-pledged, or otherwise deployed by Coinbase. As of January 31, 2026, we had outstanding covered-call option contracts referencing approximately 4,709 Bitcoin, with strike prices ranging from \$105,000 to \$110,000 and maturities extending through March 27, 2026. These contracts resulted in a derivative liability of \$0.7 million as of January 31, 2026, which is presented within Accrued liabilities and other current liabilities, and an associated unrealized gain of approximately \$2.3 million for the period. No derivative assets were recognized as of the reporting date. Premiums received at inception are initially recorded on the consolidated balance sheets, and subsequently reflected in earnings consistent with the subsequent fair value changes of the related options. Subsequent to year-end, a portion of the covered-call option contracts expired unexercised and the related pledged collateral continues to be held by Coinbase Credit, Inc.

The fair value of these written options is measured using standard option-pricing models incorporating observable market inputs, including Bitcoin spot prices, implied volatility, and time to expiration. As such, the options are classified as Level 2 within the fair value hierarchy. Changes in the fair value of the options are recognized in earnings within "Other (income) expense, net," classified as nonoperating activity. This presentation is consistent with the treatment of fair value changes related to our Digital assets and related receivables, which are recognized in earnings within "Loss on digital assets and related receivables," also classified as nonoperating activity.

Pledge of Bitcoin as collateral

In connection with the covered-call strategy, the Company pledged 4,709 Bitcoin (the "Pledged Bitcoin") as collateral. Per the terms of the Collateral Agreement, the counterparty maintained the right to rehypothecate, commingle, or unilaterally sell the Pledged Bitcoin, and the Company concluded that control transferred to the counterparty with respect to the Pledged Bitcoin. Accordingly, the Company derecognized the Pledged Bitcoin as an intangible asset and recognized digital assets receivable on its Consolidated Balance Sheets as of January 31, 2026, representing the fair value of its contractual right to receive equivalent Bitcoin in the future. The digital assets receivable is due within the next 12 months, and accordingly is classified as a current asset.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

The digital assets receivable is remeasured at fair value at each reporting date in accordance with ASC 820. The receivable's fair value is determined using Level 2 inputs, specifically the unadjusted quoted prices in active markets for the underlying crypto asset (Bitcoin). While the value of the receivable is directly derived from the market price of Bitcoin, the receivable itself is not a traded instrument, therefore, it is classified within Level 2 of the fair value hierarchy. Changes in the fair value of the digital assets receivable are recognized within "Loss on digital assets and related receivables" in the Consolidated Statements of Operations and are presented as nonoperating activity.

Warrants

On October 7, 2025, the Company announced that the Board declared a distribution (the "Warrant Distribution") to the holders of record of the Company's Class A Common Stock, par value \$0.001 per share (the "Common Stock") and holders of the Company's 0.00% Convertible Senior Notes due 2030 and 0.00% Convertible Senior Notes due 2032 (the "Convertible Notes"), in the form of warrants to purchase shares of Common Stock (the "Warrants"). The Warrants were issued on the terms and conditions described in a Warrant Agreement (as defined below), and were distributed on October 7, 2025, to the record holders of the Common Stock and the Convertible Notes as of the close of business on October 3, 2025 (the "Record Date").

Pursuant to the terms of the Warrant Agreement, dated as of October 7, 2025, between the Company, Computershare Inc., a Delaware corporation, and its affiliate, Computershare Trust Company, N.A., as Warrant Agent (the "Warrant Agreement"), each holder of record of Common Stock as of the Record Date received one Warrant for every ten shares of Common Stock (rounded down to the nearest whole number for any fractional Warrant). Holders of our 0.00% Convertible Senior Notes due 2030 (the "Convertible 2030 Notes") and 0.00% Convertible Senior Notes due 2032 (the "Convertible 2032 Notes" and, collectively with the Convertible 2030 Notes, the "Convertible Notes") also received Warrants on an "as converted" basis in lieu of an adjustment to the respective conversion rates for each of the Convertible Notes pursuant to the applicable indentures governing the Convertible Notes. The distribution of the Warrants to the holders of the Convertible Notes was at the same time and on the same terms as holders of the Common Stock. Holders of the Convertible Notes will not need to convert the Convertible Notes into Common Stock in order to receive the Warrants.

Each Warrant entitles the holder to purchase, at the holder's sole and exclusive election, at a cash exercise price of \$32.00 per Warrant (the "Exercise Price"), one share of Common Stock, subject to adjustment pursuant to the provisions of the Warrant Agreement. Payment for shares of Common Stock upon exercise of the Warrants must be in cash. The Warrants will expire and cease to be exercisable at 5:00 p.m. New York City time on October 30, 2026 (the "Expiration Date").

The Warrants have been classified as equity in accordance with ASC 815-40, primarily due to the following factors: (i) the Warrants provide for the purchase of a fixed number of shares at a fixed exercise price; (ii) the Company is not obligated under the Warrant Agreement to net-cash settle the Warrants, except in the case of the liquidation of the Company and (iii) the Company has sufficient authorized and unissued shares of Common Stock available to settle the Warrants after considering all other Common Stock commitments.

The Company estimated the fair value of the Warrants using the Black-Scholes option pricing model (Level 3) using the following key inputs: (i) closing stock price on the valuation date of October 7, 2025: \$24.35; (ii) Exercise Price: \$32.00; (iii) expiration Date: October 30, 2026; (iv) risk-free rate: 3.6% (v) expected dividend yield 0.0%; and (vi) volatility: 50.0%.

The estimated fair value of each warrant on the issuance date was \$2.94 and the \$173.9 million aggregate fair value of the Warrants was recorded as additional paid-in-capital. Of this aggregate fair value amount of the Warrants, \$42.2 million was distributed to the holders of the Convertible Note and recognized as interest expense and \$131.7 million was distributed to stockholders and recorded to retained earnings. During fiscal 2025, holders exercised 6,717 Warrants, resulting in the issuance of 6,717 shares of common stock and cash proceeds of \$214,873.

The number of shares of Common Stock issuable upon exercise of the Warrants is subject to certain anti-dilution adjustments, including for stock dividends, share splits, share combinations, rights issuances, other distributions, spinoffs, cash dividends and tender or exchange offers.

The Warrants commenced trading on the New York Stock Exchange under the ticker "GME WS" on October 8, 2025.

In connection with the Warrant Distribution, the Company has filed a prospectus supplement, dated October 7, 2025, pursuant to the Company's existing shelf registration statement on Form S-3 ASR, effective as of October 3, 2025, registering up to 59,153,963 shares of Common Stock to be issued upon exercise of the Warrants.

Intangible Assets

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

Indefinite-lived intangible assets which consist primarily of our trade names, are expected to contribute to cash flows indefinitely and, therefore are not amortized. These assets are required to be evaluated for impairment at least annually, or more frequently if events or circumstances indicate that their carrying value may not be recoverable. An indefinite-lived intangible asset is considered impaired when its carrying amount exceeds its fair value, and the impairment loss recognized equals the amount of the excess. We perform our annual impairment test during the fourth quarter of each year. Trade Names associated with our French disposal group are classified as Assets Held-for-Sale in the Consolidated Balance Sheets as of January 31, 2026.

The fair value of our trade names are estimated by using a relief-from-royalty approach, which assumes the value of the trade name is the discounted cash flows of the amount that would be paid by a hypothetical market participant had they not owned the trade name and instead licensed the trade name from another company. Trade name has been reclassified and presented as Assets Held-For-Sale in our Consolidated Balance Sheets, relating to our French disposal group as of January 31, 2026. We recognized no impairment charges during fiscal 2025, 2024, and 2023. See [Note 10](#), "Intangible Assets" for additional information.

Our definite-lived intangible assets consist primarily of leasehold rights. The estimated useful life and amortization methodology for these assets are determined based on the period over which they are expected to contribute directly to cash flows. Intangible assets that are determined to have a definite life are amortized over their respective useful lives. Leasehold rights associated with our French disposal group are classified as Assets Held-for-Sale in the Consolidated Balance Sheets as of January 31, 2026.

Revenue Recognition

We recognize revenue when performance obligations are satisfied by transferring goods or services to the customer in an amount that we expect to collect in exchange for those goods or services. The satisfaction of a performance obligation with a single customer may occur at a point in time or may occur over time. The majority of our revenue is recognized at a point in time, generally when a customer purchases and takes possession of merchandise through our stores or when merchandise purchased through our ecommerce platforms is delivered to a customer.

Revenue is recognized net of sales discounts, sales returns, and estimated sales return reserves. Our sales return policy is generally limited to 15 days or less and as such our sales returns are, and historically have been, immaterial. Revenues do not include sales taxes or other taxes collected from customers. We record a liability for taxes collected from a customer.

We have arrangements with customers where our performance obligations are satisfied over time, which primarily relate to extended warranties and our GameStop Pro[®] rewards program. In arrangements where we have multiple performance obligations, the transaction price is allocated to each performance obligation based on their relative stand-alone selling price.

Subscription revenues for our GameStop Pro[®] rewards program memberships are recognized on a straight-line basis over the subscription period. Revenues for extended warranties sold are recognized on a straight-line basis over the life of the warranty terms.

Contract liabilities and other deferred revenues associated with gift cards, extended warranties, customer credits, and subscriptions to our GameStop Pro[®] rewards program memberships are included in accrued liabilities and other current liabilities on our Consolidated Balance Sheets.

We also sell a variety of digital products which generally allow consumers to download software or play games on the internet. Most of the digital products we sell are unbundled and do not require us to purchase inventory or take physical possession of, or take title to, inventory. When purchasing these products from us, consumers pay a retail price and we earn a commission based on a percentage of the retail sale as negotiated with the digital product publisher. We recognize the sale of these digital products on a net basis, whereby the commissions earned are recorded as revenue.

We also offer customers the ability to submit ungraded trading cards for third-party grading services. We act as an agent in these arrangements, and accordingly revenue is recognized on a net basis, equal to the amount we retain after remitting pass-through charges. Amounts collected from customers prior to completion of the grading service are recorded as contract liabilities and are recognized as revenue once the grading is complete and the graded card is made available to the customer. Revenue recognized from grading services is categorized as Collectibles revenue.

Rewards Program

Our GameStop Pro[®] rewards program allows paid members to earn points on purchases that can be redeemed for rewards that include discounts or coupons. When rewards program members purchase our product, we allocate the

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

transaction price between the product and loyalty points earned based on the relative stand-alone selling prices and expected point redemption. The portion allocated to the loyalty points is initially recorded as deferred revenue and subsequently recognized as revenue upon redemption or expiration.

The two primary estimates utilized to record the deferred revenue for loyalty points earned by members are the estimated retail price per point and estimated breakage. The estimated retail price per point is based on the actual historical retail prices of product purchased through the redemption of loyalty points. We estimate breakage of loyalty points based on historical redemption rates. We continually evaluate our methodology and assumptions based on developments in retail price per point redeemed, redemption patterns and other factors. Changes in the retail price per point and redemption rates have the effect of either increasing or decreasing the deferred revenue liability through current period revenue by an amount estimated to represent the retail value of all points previously earned but not yet redeemed by loyalty program members as of the end of the reporting period. The cost of administering the loyalty program, including program administration fees, program communications and cost of loyalty cards, is recognized in Selling, general, and administrative expenses in our Consolidated Statement of Operations.

Contract Liabilities

We establish a liability upon the issuance of merchandise credits and the sale of gift cards and extended warranties. For merchandise credits and gift cards, revenue is recognized when customers redeem the related balances. We recognize breakage in revenue in proportion to historical redemption patterns as redemptions occur. If future redemption patterns differ from historical experience, the timing and amount of breakage recognized may vary. For extended warranties, revenue is recognized over time on a straight-line basis over the warranty term.

Vendor Arrangements

We participate in vendor cooperative advertising programs and other vendor marketing programs in which vendors provide us with cash consideration in exchange for marketing and advertising the vendors' products. Our accounting for cooperative advertising arrangements and other vendor marketing programs results in a significant portion of the consideration received from our vendors reducing the product costs in inventory rather than as an offset to our marketing and advertising costs. The consideration serving as a reduction in inventory is recognized in cost of sales as inventory is sold. The amount of vendor allowances to be recorded as a reduction of inventory is determined based on the nature of the consideration received and the merchandise inventory to which the consideration relates. We apply a sell-through rate to determine the timing in which the consideration should be recognized in cost of sales. Consideration received that relates to gaming products that have not yet been released to the public is deferred as a reduction of inventory.

The cooperative advertising programs and other vendor marketing programs generally cover a period from a few days up to a few weeks and include items such as product catalog advertising, in-store display promotions, internet advertising, co-op print advertising and other programs. The allowance for each event is negotiated with the vendor and requires specific performance by us to be earned. Vendor allowances of \$70.7 million, \$65.4 million and \$63.9 million were recorded as a reduction of cost of sales for fiscal 2025, 2024 and 2023, respectively, in our Consolidated Statements of Operations. In certain instances we receive cash consideration from vendors specifically to fund identifiable marketing and advertising activities such as seasonal holiday guides and flyers. Accordingly, we present this as an offset to marketing and advertising expenses.

Cost of Sales and Selling, General, and Administrative Expenses Classification

The classification of cost of sales and Selling, general, and administrative expenses varies across the retail industry. We include certain purchasing, receiving and distribution costs in Selling, general, and administrative expenses in the Consolidated Statements of Operations. We include processing fees associated with purchases made by credit cards and other payment methods in cost of sales in our Consolidated Statements of Operations.

Advertising Expenses

We expense advertising costs for television, print, digital advertising, and other media when the advertising takes place. Advertising expenses for fiscal 2025, 2024 and 2023 totaled \$13.8 million, \$18.6 million and \$39.3 million, respectively.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

Income Taxes

Income tax expense includes federal, state, local and international income taxes. Income taxes are accounted for utilizing an asset and liability approach and deferred tax assets and liabilities are recognized for the tax consequences of temporary differences between the financial reporting basis and the tax basis of existing assets and liabilities using enacted tax rates. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. Valuation allowances are recorded to reduce deferred tax assets to the amount that will more likely than not be realizable. In accordance with GAAP, we maintain liabilities for uncertain tax positions until examination of the tax year is completed by the applicable taxing authority, available review periods expire or additional facts and circumstances cause us to change our assessment of the appropriate accrual amount. See [Note 15](#), "Income Taxes," for additional information.

We do not assert indefinite reinvestment on the undistributed earnings of our foreign subsidiaries. Income tax and/or withholding tax associated with any amounts available for distribution as of January 31, 2026 is not expected to be material to our financial statements.

Leases

We conduct the substantial majority of our business with leased real estate properties, including retail stores, warehouse facilities, office space and equipment. These are generally leased under non-cancelable agreements and include various renewal options for additional periods. These agreements generally provide for minimum, and in some cases, percentage rentals, and require us to pay insurance, taxes and other maintenance costs. Percentage rentals are based on sales performance in excess of specified minimums at various stores and are accounted for in the period in which the amount of percentage rentals can be accurately estimated. All of our lease agreements are classified as operating leases.

We determine if an arrangement is considered a lease at inception. We recognize right-of-use ("ROU") assets, on the commencement date based on the present value of future minimum lease payments over the lease term, including reasonably certain renewal options. As the rate implicit in the lease is not readily determinable for most leases, we utilize our incremental borrowing rate ("IBR") to determine the present value of future payments. The incremental borrowing rate represents a significant judgment that is based on an analysis of our credit rating, country risk, corporate bond yields and the effect of collateralization. For our real estate leases, we do not separate the components of a contract, thus our future payments include minimum rent payments and fixed executory costs. For our non-real estate leases, future payments include only fixed minimum rent payments. We record the amortization of our ROU assets and the accretion of our lease liabilities as a single lease cost on a straight-line basis over the lease term, which includes option terms we are reasonably certain to exercise. We recognize our cash or lease incentives as a reduction to the ROU asset. We assess ROU assets for impairment in accordance with our long-lived asset impairment policy, which is performed periodically or when events or changes in circumstances indicate that the carrying amount may not be recoverable.

Foreign Currency

Generally, we have determined that the functional currencies of our foreign subsidiaries are the subsidiaries' local currencies. The assets and liabilities of the subsidiaries are translated into U.S. dollars at the applicable exchange rate as of the end of the balance sheet date and revenue and expenses are translated into U.S. dollars at an average rate over the period. Currency translation adjustments are recorded as a component of other comprehensive income in our Consolidated Statement of Comprehensive Loss. Currency translation adjustments related to divested foreign businesses are reclassified into earnings as a component of Selling, general, and administrative expenses in our Consolidated Statements of Operations once the liquidation of the respective foreign businesses is substantially complete.

Gains and losses arising from transactions denominated in nonfunctional currencies resulted in a net gain of \$1.1 million, and net loss of \$0.9 million, and \$2.0 million, for fiscal 2025, 2024 and 2023, respectively. These costs were recognized in Selling, general, and administrative expenses in our Consolidated Statements of Operations.

We have historically used forward exchange contracts to manage currency risk primarily related to foreign-currency denominated intercompany assets and liabilities. The forward exchange contracts are not designated as hedges and, therefore, changes in the fair values of these derivatives are recognized in earnings, thereby offsetting the current earnings effect of the re-measurement of related intercompany loans. See [Note 11](#), "Fair Value Measurements," for additional information regarding our forward exchange contracts.

3. New Accounting Pronouncements

Recently Adopted Accounting Pronouncement

In December 2023, the Financial Accounting Standards Board ("FASB") issued ASU No. 2023-08, Intangibles—Goodwill and Other—Crypto Assets (Subtopic 350-60): Accounting for and Disclosure of Crypto Assets ("ASU 2023-08"). ASU 2023-08 requires certain crypto assets, such as Bitcoin, to be measured at fair value at each reporting date, with changes in fair value recognized in earnings, and to be presented separately from other intangible assets together with enhanced disclosures (including the name, number of units, cost basis, and fair value for each significant crypto asset holding). The standard is effective for fiscal years beginning after December 15, 2024, including interim periods therein; early adoption is permitted. We adopted ASU 2023-08 on a modified retrospective basis effective February 2, 2025. The Company did not hold material crypto assets immediately prior to adoption; accordingly, the cumulative-effect adjustment to opening retained earnings and the impact on our Consolidated Balance Sheets were immaterial.

In December 2023, the FASB issued ASU No. 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures." This standard enhances disclosures related to income taxes, including the rate reconciliation and information on income taxes paid. This ASU is effective for annual periods beginning after December 15, 2024. The Company adopted ASU 2023-09 during fiscal 2025 and elected to apply the standard on a prospective basis. See Note 15, "Income Taxes," to our consolidated financial statements included in this Annual Report on Form 10-K for additional information.

Recently issued Accounting Pronouncements

In November 2024, the FASB issued ASU 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses", as clarified by ASU No. 2025-01, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Clarifying the Effective Date." (collectively, 'ASU 2024-03'). This guidance includes amendments to require public companies to provide additional disaggregated information about certain costs and expenses in a tabular format. The ASU is effective for annual periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption is permitted. The Company is currently evaluating the impact that the adoption of this standard will have on the Company's consolidated financial statements.

4. Revenue

The following table presents net sales by significant product category:

	Fiscal		
	2025	2024	2023
Hardware and accessories ⁽¹⁾	\$ 1,840.4	\$ 2,099.7	\$ 2,996.8
Software ⁽²⁾	729.3	1,005.4	1,522.0
Collectibles ⁽³⁾	1,060.2	717.9	754.0
Total	<u>\$ 3,629.9</u>	<u>\$ 3,823.0</u>	<u>\$ 5,272.8</u>

(1) Includes sales of new and pre-owned hardware, accessories, hardware bundles in which hardware and digital or physical software are sold together in a single SKU, interactive game figures, strategy guides, mobile and consumer electronics.

(2) Includes sales of new and pre-owned gaming software, digital software and PC entertainment software.

(3) Includes the sale of apparel, toys, trading cards, gadgets, other retail products for pop culture and technology enthusiasts, and submission services for the authentication and grading of trading cards.

See [Note 5](#), "Segment Information," for net sales by geographic location.

Performance Obligations

We have arrangements with customers where our performance obligations are satisfied over time, which primarily relate to extended warranties and our GameStop Pro[®] rewards program, formerly known as PowerUp Rewards[®].

We expect to recognize revenue in future periods for remaining performance obligations we have associated with unredeemed gift cards, trade-in credits, reservation deposits and loyalty points earned as part of our GameStop Pro[®] rewards program (collectively, "unredeemed customer liabilities"), extended warranties, and subscriptions to our GameStop Pro[®] rewards program.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

Performance obligations associated with unredeemed customer liabilities are primarily satisfied at the time customers redeem gift cards, trade-in credits, customer deposits or loyalty program points for products that we offer. Unredeemed customer liabilities are generally redeemed within one year of issuance.

We offer extended warranties on certain new and pre-owned products with terms generally ranging from 12 to 24 months, depending on the product. Revenues for extended warranties sold are recognized on a straight-line basis over the life of the contract.

Revenues for subscriptions to our GameStop Pro® rewards program are recognized on a straight-line basis over a 12-month subscription term.

The following table presents our performance obligations recognized in accrued liabilities and other current liabilities on our Consolidated Balance Sheets:

	Fiscal	
	2025	2024
Unredeemed customer liabilities	\$ 106.6	\$ 123.9
Extended warranties	45.3	54.1
Subscriptions	43.0	50.9
Total performance obligations	<u>\$ 194.9</u>	<u>\$ 228.9</u>

Significant Judgments and Estimates

We accrue loyalty points related to our GameStop Pro® rewards program at the estimated retail price per point, net of estimated breakage, which can be redeemed by loyalty program members for products we offer. The estimated retail price per point is based on the actual historical retail prices of products purchased through the redemption of loyalty points. We estimate breakage of loyalty points and unredeemed gift cards based on historical redemption rates.

Contract Balances

Our contract liabilities primarily consist of unredeemed customer liabilities and deferred revenues associated with gift cards, extended warranties and subscriptions to our GameStop Pro® rewards program.

The following table presents a roll forward of our contract liabilities:

	Fiscal	
	2025	2024
Contract liability beginning balance	\$ 228.9	\$ 274.1
Increase to contract liabilities ⁽¹⁾	664.8	689.8
Decrease to contract liabilities ⁽²⁾	(699.8)	(732.9)
Other adjustments ⁽³⁾	1.0	(2.1)
Contract liability ending balance	<u>\$ 194.9</u>	<u>\$ 228.9</u>

(1) Includes issuances of gift cards, trade-in credits and loyalty points, new reservation deposits, new subscriptions to our GameStop Pro® rewards program and extended warranties sold.

(2) Consists of redemptions and breakage of gift cards and trade-in credits, redemptions and breakage of reservation deposits, and expirations of loyalty points. Additionally, this includes revenues recognized for our GameStop Pro® rewards program and extended warranties. During fiscal 2025, there were \$42.7 million of gift cards redeemed that were previously outstanding as of February 1, 2025. During fiscal 2024, there were \$44.5 million of gift cards redeemed that were previously outstanding as of February 3, 2024.

(3) Primarily includes foreign currency translation adjustments.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

5. Segment Information

Effective May 4, 2025, we operate our business in three geographic segments: United States, Australia and Europe. During the second quarter of fiscal 2025, we divested our operations in Canada, which previously comprised a fourth separate reporting segment.

We identified segments based on a combination of geographic areas and management responsibility. Segment results for the United States include retail operations in 50 states; our ecommerce website www.gamestop.com; and our GameStop Pro[®] loyalty program. The United States segment also includes general and administrative expenses related to our corporate offices in Grapevine, Texas. Segment results for Canada include retail and ecommerce operations we previously had in Canada. Segment results for Australia include retail and ecommerce operations in Australia and New Zealand. During the fourth quarter of fiscal 2025, we closed down our store operations in New Zealand. Current year segment results for Europe include retail and ecommerce operations in France. Our segment results for Europe also previously included retail operations in Italy, Germany, Austria, Ireland, and Switzerland.

Our chief operating decision makers (“CODM”) are our Chief Executive Officer and our Principal Financial and Accounting Officer, who have responsibility for allocating resources and assessing performance for the operating segments. Our CODM measures segment profit using operating income (loss), which is defined as net income (loss) from operations before interest income, net, income tax expense (benefit), and loss (gain) on digital assets and related receivables.

Transactions between our reportable segments consist primarily of royalties, management fees, intersegment loans and related interest. There were no material intersegment sales during fiscal 2025, 2024, and 2023. Information on total assets by segment is not disclosed as such information is not used by our CODM to evaluate segment performance or to allocate resources and capital.

The following tables present segment information:

	United States	Canada	Australia	Europe	Total
As of and for the Fiscal Year Ended January 31, 2026

6. Associates' Defined Contribution Plan

We sponsor a defined contribution plan (the "Savings Plan") for the benefit of substantially all of our U.S. associates who meet certain eligibility requirements, primarily age and length of service. The Savings Plan allows associates to invest up to 60%, subject to IRS limitations, of their eligible gross cash compensation on a pre-tax basis. Historically, the Company provided matching contributions to the Savings Plan based upon a certain percentage of the associates' contributions. Our contributions to the Savings Plan during fiscal 2025, 2024 and 2023, were \$— million, \$— million and \$3.6 million, respectively. Effective January 1, 2024, the Company eliminated employer matching contributions for employees.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

7. Earnings Per Share

Basic net income per common share is computed by dividing the net income available to Class A Common Stockholders by the weighted-average number of common shares outstanding during the period. Diluted net income per common share is computed by dividing the net income available to Class A Common Stockholders by the weighted-average number of common shares outstanding and potentially dilutive securities outstanding during the period. Potentially dilutive securities include shares from convertible notes, stock options, warrants, unvested restricted stock and unvested restricted stock units outstanding during the period, using the treasury stock method. Potentially dilutive securities are excluded from the computations of diluted earnings per share if their effect would be antidilutive. For example, the warrants are anti-dilutive and are excluded from the diluted earnings per share computations primarily because the exercise price is significantly above the average market price. A net loss from continuing operations causes all potentially dilutive securities to be antidilutive.

The following is a reconciliation of shares used in calculating basic and diluted net income per common share:

	Fiscal Year ended		
	2025	2024	2023
Weighted-average common shares outstanding	447.6	394.1	305.1
Dilutive effect of stock-based awards	0.5	0.6	0.1
Dilutive effect of Convertible Notes	101.0	—	—
Weighted-average diluted common shares	<u>549.1</u>	<u>394.7</u>	<u>305.2</u>
Anti-dilutive shares:			
Warrants to purchase common stock	19.0	—	—
Restricted stock units	0.1	0.7	2.7

8. Property and Equipment

The following table presents property and equipment, net:

	Estimated Useful Lives (Years)	January 31, 2026	February 1, 2025
Buildings and leasehold improvements	1-10	179.3	304.2
Fixtures and equipment	3-10	196.1	264.3
Software and hardware	3	155.9	178.5
Construction-in-progress		5.2	5.4
Total property and equipment		<u>536.5</u>	<u>752.4</u>
Accumulated depreciation		(488.2)	(684.2)
Property and equipment, net ⁽¹⁾		<u>\$ 48.3</u>	<u>\$ 68.2</u>

(1) Property and equipment reclassified as held for sale that related to our French disposal group are excluded from the table above and presented with Property and equipment, net within Assets Held-for-Sale in our Consolidated Balance Sheets as of January 31, 2026.

Our total depreciation expense was \$19.4 million, \$38.4 million and \$55.3 million for fiscal 2025, 2024 and 2023, respectively, and is recorded in Selling, general, and administrative expenses in our Consolidated Statements of Operations.

In fiscal 2024, we closed our distribution facility in York, Pennsylvania and consolidated U.S. fulfillment activities into our facility in Grapevine, Texas. During the same period, we relocated our U.S. refurbishment operations into our Grapevine, Texas distribution and administration facility; previously, refurbishment operations were conducted in a separate facility also located in Grapevine. We also divested our operations in Italy, which included our facility in Milan.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

In fiscal 2025 we divested our operations in Canada, including our distribution and administration facility in Brampton, Ontario. During the same period, management approved a plan to divest our operations in France, and all related property and equipment were reclassified as held for sale.

9. Leases

The following table presents rent expenses under operating leases:

	Fiscal		
	2025	2024	2023
Operating lease cost	\$ 196.7	\$ 264.1	\$ 284.0
Variable lease cost ⁽¹⁾	42.9	58.1	57.5
Total rent expense	\$ 239.6	\$ 322.2	\$ 341.5

(1) Variable lease cost includes percentage rentals and variable executory costs.

In fiscal 2025, we recognized \$0.9 million of store-level ROU asset impairment charges compared to \$0.7 million and \$2.7 million of store-level ROU asset impairment charges in fiscal 2024 and 2023, respectively.

The following table presents the weighted-average remaining lease term, which includes reasonably certain renewal options, and the weighted-average discount rate for operating leases included in the measurement of our lease liabilities:

	January 31, 2026	February 1, 2025
Weighted-average remaining lease term (years) ⁽¹⁾	3.4	3.7
Weighted-average discount rate ⁽²⁾	6.3 %	6.7 %

(1) The weighted-average remaining lease term is weighted based on the lease liability balance for each lease as of January 31, 2026 and February 1, 2025.

(2) The weighted-average discount rate weights the IBR determined for each lease based on each lease's respective liability balance as of January 31, 2026 and February 1, 2025.

The following table presents expected lease payments associated with our operating lease liabilities, excluding percentage rentals, for the next five fiscal years:

Period	Operating Leases ⁽¹⁾
Fiscal 2026	\$ 104.8
Fiscal 2027	70.0
Fiscal 2028	42.2
Fiscal 2029	25.1
Fiscal 2030	13.7
Thereafter	15.4
Total remaining lease payments	271.2
Less: Interest	(30.1)
Present value of lease liabilities⁽²⁾	\$ 241.1

(1) Operating lease payments exclude legally binding lease payments for leases signed but not yet commenced.

(2) The future lease payments presented in the table above include amounts related to operating leases associated with our French disposal group classified as held for sale. The related lease liabilities totaling approximately \$43.5 million have been reclassified to liabilities held for sale on the consolidated balance sheet and are not included in the lease liabilities line item as of January 31, 2026. With this reclassification, the present value of the lease payments reconcile to the total lease liabilities recognized. The present value of lease liabilities consist of \$87.5 million classified as current portion of operating lease liabilities and \$110.1 million classified as long-term operating lease liabilities on our Consolidated Balance Sheets.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

10. Intangible Assets

The following table presents the gross carrying amount and accumulated amortization of our intangible assets:

	January 31, 2026			February 1, 2025		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Intangible assets with indefinite lives:						
Trade name ⁽¹⁾	—	—	—	5.1	—	5.1
Intangible assets with finite lives:						
Leasehold rights ⁽¹⁾	—	—	—	61.4	(60.7)	0.7
Other ⁽²⁾	—	—	—	21.3	(21.3)	—
Total	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 87.8</u>	<u>\$ (82.0)</u>	<u>\$ 5.8</u>

(1) Trade name and Leasehold rights (key money) reclassified as held for sale that relate to our French disposal group are excluded from the table above and presented within Other Non Current Assets within Assets Held for Sale in our Consolidated Balance Sheets as of January 31, 2026.

(2) Other intangible assets relating to a portfolio of product designs that were created by Geeknet as part of an acquisition have been fully amortized, are no longer utilized by the Company, and have been removed from the Company's books and the table above as of January 31, 2026.

Indefinite-lived Intangible Assets

Trade Name

Our trade name relates to Micromania SAS ("Micromania"), our retail operations business in France, which we acquired in 2008. There were no impairment charges recognized during fiscal 2025, 2024 and 2023 related to the trade name. The trade name has been reclassified and presented as Liabilities Held for Sale in our Consolidated Balance Sheets and excluded from the table above as of January 31, 2026.

Finite-lived Intangible Assets

Leasehold rights, the majority of which were recorded as a result of the purchase of Micromania in 2008, represent the value of rights of tenancy under commercial property leases for properties located in France. Rights pertaining to individual leases can be sold by us to a new tenant or recovered by us from the landlord if the exercise of the automatic right of renewal is refused. Leasehold rights are amortized on a straight-line basis over the expected lease term, not to exceed 20 years, with no residual value. Leasehold rights has been reclassified and presented as Assets Held for Sale in our Consolidated Balance Sheets and excluded from the table above as of January 31, 2026.

As of January 31, 2026, the total weighted-average amortization period for our finite-lived intangible assets was approximately 7 years. The intangible assets are being amortized based upon the pattern in which the economic benefits of the intangible assets are being utilized, with no expected residual value.

Intangible asset amortization expense during fiscal 2025, 2024 and 2023 was \$0.1 million, \$0.5 million and \$0.9 million, respectively.

11. Fair Value Measurements

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Applicable accounting standards require disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement. Each fair value measurement is reported in one of the following three levels:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities.
- Level 2 inputs are observable inputs other than quoted prices included in Level 1 for the asset or liability, either directly or indirectly through market-corroborated inputs.
- Level 3 inputs are unobservable inputs for the asset or liability reflecting our assumptions about pricing by market participants.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

Assets and Liabilities that are Measured at Fair Value on a Recurring Basis

Assets and liabilities that are measured at fair value on a recurring basis include our cash equivalents, marketable securities, digital assets, digital assets receivable, foreign currency contracts, derivative assets and liabilities, company-owned life insurance policies with a cash surrender value, and certain nonqualified deferred compensation liabilities.

We measure the fair value of cash equivalents, certain marketable securities, and digital assets based on quoted prices in active markets for identical assets. Other marketable securities were valued either based on recent trades of securities in inactive markets or based on quoted market prices of similar instruments and other significant inputs derived from or corroborated by observable market data.

Our investments in time deposits are reported at fair value and utilize Level 1 inputs for measurement.

We measure the fair value of our foreign currency contracts, derivative assets and liabilities, digital assets receivable, life insurance policies with cash surrender values and certain nonqualified deferred compensation liabilities based on Level 2 inputs using quotations provided by major market news services, such as Bloomberg, and industry-standard models that consider various assumptions, including quoted forward prices, time value, volatility factors, contractual prices for the underlying instruments and other relevant economic measures, all of which are observable in active markets.

When appropriate, valuations are adjusted to reflect credit considerations, generally based on available market evidence.

The following tables presents our assets and liabilities measured at fair value on a recurring basis:

January 31, 2026				
	Adjusted Cost	Unrealized Gains	Unrealized Losses	Fair Value
Assets				
Level 1:				
Marketable securities ⁽¹⁾	\$ 2,708.7	\$ 0.4	\$ —	\$ 2,709.1
Digital assets ⁽²⁾	0.2	—	(0.1)	0.1
Level 2:				
Digital assets receivable ⁽²⁾	428.0	—	(59.7)	368.3
Company-owned life insurance ⁽³⁾	0.1	—	—	0.1
Total assets	\$ 3,137.0	\$ 0.4	\$ (59.8)	\$ 3,077.6
Liabilities				
Level 2:				
Derivative liability on digital assets ⁽⁴⁾	\$ 3.0	\$ (2.3)	\$ —	\$ 0.7
Nonqualified deferred compensation ⁽⁴⁾	0.1	—	—	0.1
Total liabilities	\$ 3.1	\$ (2.3)	\$ —	\$ 0.8
February 1, 2025				
	Adjusted Cost	Unrealized Gains	Unrealized Losses	Fair Value
Assets				
Level 1:				
Time deposits ⁽¹⁾	\$ 18.0	\$ —	\$ —	\$ 18.0
Level 2:				
Company-owned life insurance ⁽³⁾	0.1	—	—	0.1
Total assets	\$ 18.1	\$ —	\$ —	\$ 18.1
Liabilities				
Level 2:				
Nonqualified deferred compensation ⁽⁴⁾	0.1	—	—	0.1
Total liabilities	\$ 0.1	\$ —	\$ —	\$ 0.1

(1) Recognized in "Marketable securities" on our Consolidated Balance Sheets.

(2) Recognized in "Digital assets and related receivables" on our Consolidated Balance Sheets. The Company pledged a portion of its

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

digital assets as collateral in connection with a covered-call strategy, which resulted in the derecognition of the pledged digital assets and the corresponding recognition of a digital asset receivable.

(3) Recognized in "Other noncurrent assets" on our Consolidated Balance Sheets.

(4) Recognized in "Accrued liabilities and other current liabilities" on our Consolidated Balance Sheets.

Assets that are Measured at Fair Value on a Nonrecurring Basis

Assets that are measured at fair value on a nonrecurring basis relate primarily to property and equipment, operating lease ROU assets and other intangible assets, which are remeasured when the estimated fair value is below its carrying value. When we determine that impairment has occurred, the carrying value of the asset is reduced to its fair value.

The carrying values of our cash, restricted cash, net receivables, accounts payable and current portion of debt approximate their fair values due to their short-term maturities.

The fair value estimates of trade name intangibles and store-level property and equipment are based on significant unobservable inputs (Level 3) developed using company-specific information. These assets were valued using variations of the discounted cash flow method, which require assumptions associated with, among others, projected sales and cost estimates, capital expenditures, royalty rates, discount rates, terminal values and remaining useful lives.

During the first quarter of fiscal 2025, management approved a plan to divest the Company's operations in France. In connection with this plan, we reclassified debt related to the French disposal group to Liabilities held for sale, within our Consolidated Balance Sheets. The debt had previously been included within our consolidated debt balances and consisted of government-subsidized low interest French term loans maturing from October 2022 through October 2026 ("French Term Loans").

As of January 31, 2026, the French Term Loans included in Liabilities held for sale had a carrying value of \$7.5 million and a fair value of \$7.2 million. The fair value of our French Term Loans was estimated using a discounted cash flow model that incorporates interest rates available to the Company for similar debt with comparable maturities. The valuation technique uses Level 2 inputs within the fair value hierarchy.

On October 7, 2025, the Company announced that the Board declared the Warrant Distribution. The Company estimated the fair value of the Warrants using the Black-Scholes option pricing model (Level 3). The estimated fair value of each Warrant on the issuance date was \$2.94 and the \$173.9 million aggregate fair value of the Warrants was recorded as additional paid-in-capital. Of this aggregate fair value amount, \$42.2 million was distributed to the holders of the Convertible Notes and recognized as interest expense and \$131.7 million was distributed to stockholders and recorded to retained earnings.

12. Accrued and Other Current Liabilities

The following table presents our accrued and other current liabilities:

	January 31, 2026	February 1, 2025
Customer-related liabilities	\$ 106.8	\$ 126.9
Deferred revenue	91.4	109.0
Employee benefits, compensation and related taxes	32.1	51.4
Income and other taxes payable	18.4	25.2
Other accrued liabilities	35.1	49.7
Total accrued and other current liabilities ⁽¹⁾	<u>\$ 283.8</u>	<u>\$ 362.2</u>

(1) Accrued and Other Current Liabilities reclassified as held for sale that related to our French disposal group are excluded from the table above and presented with Current Liabilities within Assets Held for Sale in our Consolidated Balance Sheets as of January 31, 2026.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

13. Debt

The following table presents our debt as of January 31, 2026 and February 1, 2025:

	January 31, 2026	February 1, 2025
Convertible notes	\$ 4,164.3	\$ —
French term loans - current portion ⁽¹⁾	—	\$ 10.3
French term loans - long-term portion ⁽¹⁾	—	\$ 6.6
Total debt	<u>\$ 4,164.3</u>	<u>\$ 16.9</u>

(1) In fiscal 2025 we reclassified the French Term Loans associated with the French disposal group to Liabilities Held for Sale in the Consolidated Balance Sheets. As of January 31, 2026, the disposal group included \$7.5 million of short-term debt and no long-term debt within Liabilities held for sale.

French Term Loans

During fiscal 2021, our French subsidiary, Micromania SAS, entered into six separate unsecured term loans totaling €40.0 million. In the second quarter of 2021, Micromania SAS extended the loans for five years, with principal amortization beginning in October 2022. In connection with the extension, interest rates increased from zero to 0.7% for three loans totaling €20.0 million, and to 1% for the remaining three term loans totaling €20.0 million. The French government guarantees 90% of these loans pursuant to a COVID-19 state-guaranteed loan program.

Each of Micromania SAS's term loans, as described above, restrict the ability of Micromania SAS to make distributions and loans to its affiliates, and include various events that would result in the automatic acceleration of the loans thereunder, including failure to pay any principal or interest when due, acceleration of other indebtedness, a change of control and certain bankruptcy, insolvency or receivership.

As of January 31, 2026 and February 1, 2025, outstanding balances under the French Term Loans totaled \$7.5 million and \$16.9 million, respectively. In fiscal 2025 we classified the French Term Loans associated with the French disposal group to Liabilities Held for Sale in the Consolidated Balance Sheets. As of January 31, 2026, the disposal group included \$7.5 million of short-term debt and no long-term debt within Liabilities held for sale.

Convertible Senior Notes

Convertible 2030 Notes

On April 1, 2025, we completed a private offering of \$1,500 million aggregate principal amount of the Convertible 2030 Notes, including the exercise in full of the initial purchaser's option to purchase up to an additional \$200 million aggregate principal amount of the Convertible 2030 Notes. The Convertible 2030 Notes are general unsecured obligations of the Company. The Convertible 2030 Notes were issued pursuant to an Indenture, dated April 1, 2025 (the "2030 Indenture"), between the Company and U.S. Bank Trust Company, National Association, as trustee (the "Trustee"). As of January 31, 2026, the balance of the Convertible 2030 Notes, net of debt issuance costs of \$16.4 million was \$1,483.6 million. The Company determines the fair value of its Convertible 2030 Notes in accordance with ASC 820, Fair Value Measurement, using observable market inputs on a secondary market exchange (Level 2 input). As of January 31, 2025, the fair value of the Convertible 2030 Notes was approximately \$1,618.1 million.

The Convertible 2030 Notes will mature on April 1, 2030, unless earlier converted, redeemed or repurchased. The Convertible 2030 Notes will not bear regular interest and the principal amount of the Convertible 2030 Notes will not accrete. Holders may convert all or any portion of their Convertible 2030 Notes at their option at any time prior to the close of business on the business day immediately preceding January 1, 2030 only upon satisfaction of one or more of the following conditions: (1) during any fiscal quarter commencing after the fiscal quarter ending on August 2, 2025 (and only during such fiscal quarter), if the last reported sale price of the Common Stock, for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on, and including, the last trading day of the immediately preceding fiscal quarter is greater than or equal to 130% of the conversion price for the Convertible 2030 Notes on each applicable trading day; (2) during the five business day period after any ten consecutive trading day period (the "measurement period") in which the trading price (as defined in the 2030 Indenture) per \$1,000 principal amount of Convertible 2030 Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of the Common Stock and the conversion rate on each such trading day; (3) if the Company calls such Convertible 2030 Notes for redemption, at any time prior to the close of business on the scheduled trading day

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

immediately preceding the redemption date, but only with respect to the Convertible 2030 Notes called (or deemed called) for redemption; and (4) upon the occurrence of specified corporate events as set forth in the 2030 Indenture. On or after January 1, 2030 until the close of business on the scheduled trading day immediately preceding the maturity date, holders may convert all or any portion of their Convertible 2030 Notes at any time, in multiples of \$1,000 principal amount, at any time, regardless of the foregoing conditions. Upon conversion, the Company will satisfy its conversion obligation by paying and/or delivering, as the case may be, cash, shares of Common Stock or a combination of cash and shares of Common Stock, at the Company's election, in the manner and subject to the terms and conditions set forth in the 2030 Indenture.

The conversion rate for the Convertible 2030 Notes was initially 33.4970 shares of Common Stock per \$1,000 principal amount of Notes, which was equivalent to an initial conversion price of approximately \$29.85 per share of Common Stock, subject to adjustment in certain events.

The Company may not redeem the Convertible 2030 Notes prior to April 6, 2028. The Company may redeem for cash all or any portion of the Convertible 2030 Notes (subject to the partial redemption limitation set forth in the 2030 Indenture), at its option, on or after April 6, 2028 if the last reported sale price of the Common Stock has been at least 130% of the conversion price for the Convertible 2030 Notes then in effect for at least 20 trading days (whether or not consecutive) during any 30 consecutive trading day period (including the last trading day of such period) ending on, and including, the trading day immediately preceding the date on which the Company provides notice of redemption, at a redemption price equal to 100% of the principal amount of the Convertible 2030 Notes to be redeemed, plus accrued and unpaid special interest, if any, to, but excluding, the redemption date. No sinking fund is provided for the Notes.

Noteholders may require the Company to repurchase their Convertible 2030 Notes on April 3, 2028, at a cash repurchase price equal to 100% of the principal amount of the Convertible 2030 Notes to be repurchased, plus accrued and unpaid special interest, if any, to, but excluding, the repurchase date. In addition, if the Company undergoes a fundamental change (as defined in the 2030 Indenture), then holders may require the Company to repurchase for cash all or any portion of their Convertible 2030 Notes at a fundamental change repurchase price equal to 100% of the principal amount of the Convertible 2030 Notes to be repurchased, plus accrued and unpaid special interest, if any, to, but excluding, the fundamental change repurchase date.

The 2030 Indenture includes customary terms and covenants and sets forth certain events of default after which the Convertible 2030 Notes may be declared immediately due and payable and sets forth certain types of bankruptcy or insolvency events of default involving the Company or any of its significant subsidiaries (as defined in the 2030 Indenture) after which the Convertible 2030 Notes become automatically due and payable. If an event of default (other than certain bankruptcy and insolvency-related events of default with respect to the Company or any of its significant subsidiaries) occurs and is continuing, the Trustee by notice to the Company, or the holders of at least 25% in principal amount of the outstanding Convertible 2030 Notes by notice to the Company and the Trustee, may, and the Trustee at the request of such holders shall, declare 100% of the principal of, and accrued and unpaid special interest, if any, on, all of the then outstanding Convertible 2030 Notes to be due and payable.

Convertible 2032 Notes

On June 17, 2025, we completed a private offering of \$2,250.0 million aggregate principal amount of the Convertible 2032 Notes. Pursuant to the purchase agreement between the Company and the initial purchaser of the Convertible 2032 Notes, the Company granted the initial purchaser an option to purchase up to an additional \$450.0 million aggregate principal amount of the Convertible 2032 Notes (the "Additional Notes"). On June 23, 2025, the initial purchaser elected to exercise in full such option, and on June 24, 2025, the Company issued the full aggregate principal amount of the Additional Notes. The Convertible 2032 Notes are general unsecured obligations of the Company. The Convertible 2032 Notes were issued pursuant to an Indenture, dated June 17, 2025 (the "2032 Indenture"), between the Company and the Trustee, as trustee. As of November 1, 2025, the balance of the Convertible 2032 Notes, net of debt issuance costs of \$19.3 million was \$2,680.7 million. The Company determines the fair value of its Convertible 2030 Notes in accordance with ASC 820, Fair Value Measurement, using observable market inputs on a secondary market exchange (Level 2 input). As of January 31, 2026, the fair value of the Convertible 2032 Notes was approximately \$2,920.9 million.

The Convertible 2032 Notes will mature on June 15, 2032, unless earlier converted, redeemed or repurchased. The Convertible 2032 Notes will not bear regular interest and the principal amount of the notes will not accrete. Holders may convert all or any portion of their Convertible 2032 Notes at their option at any time prior to the close of business on the business day immediately preceding March 15, 2032 only upon satisfaction of one or more of the following conditions: (1) during any fiscal quarter commencing after the fiscal quarter ending on November 1, 2025 (and only during such fiscal quarter), if the last reported sale price of the Company's Class A common stock, par value \$.001 per share (the "Common Stock"), for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on, and including, the last trading day of the immediately preceding fiscal quarter is greater than or equal to 130% of the

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

conversion price for the Notes on each applicable trading day; (2) during the five business day period after any ten consecutive trading day period (the "measurement period") in which the trading price (as defined in the 2032 Indenture) per \$1,000 principal amount of Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of the Common Stock and the conversion rate on each such trading day; (3) if the Company calls such Notes for redemption, at any time prior to the close of business on the scheduled trading day immediately preceding the redemption date, but only with respect to the Notes called (or deemed called) for redemption; and (4) upon the occurrence of specified corporate events as set forth in the 2032 Indenture. On or after June 15, 2032 until the close of business on the scheduled trading day immediately preceding the maturity date, holders may convert all or any portion of their Convertible 2032 Notes at any time, in multiples of \$1,000 principal amount, at any time, regardless of the foregoing conditions. Upon conversion, the Company will satisfy its conversion obligation by paying and/or delivering, as the case may be, cash, shares of Common Stock or a combination of cash and shares of Common Stock, at the Company's election, in the manner and subject to the terms and conditions set forth in the 2032 Indenture.

The conversion rate for the Convertible 2032 Notes will initially be 34.5872 shares of Common Stock per \$1,000 principal amount of Notes, which is equivalent to an initial conversion price of approximately \$28.91 per share of Common Stock, subject to adjustment in certain events.

The Company may not redeem the Convertible 2032 Notes prior to June 20, 2029. The Company may redeem for cash all or any portion of the Convertible 2032 Notes (subject to the partial redemption limitation set forth in the 2032 Indenture), at its option, on or after June 20, 2029 if the last reported sale price of the Common Stock has been at least 130% of the conversion price for the Convertible 2032 Notes then in effect for at least 20 trading days (whether or not consecutive) during any 30 consecutive trading day period (including the last trading day of such period) ending on, and including, the trading day immediately preceding the date on which the Company provides notice of redemption, at a redemption price equal to 100% of the principal amount of the Convertible 2032 Notes to be redeemed, plus accrued and unpaid special interest, if any, to, but excluding, the redemption date. No sinking fund is provided for the Notes.

Noteholders may require the Company to repurchase their Convertible 2032 Notes on December 15, 2028, at a cash repurchase price equal to 100% the principal amount of the Convertible 2032 Notes to be repurchased, plus accrued and unpaid special interest, if any, to, but excluding, the repurchase date. In addition, if the Company undergoes a fundamental change (as defined in the 2032 Indenture), then, subject to certain conditions and except as set forth in the 2032 Indenture, holders may require the Company to repurchase for cash all or any portion of their Convertible 2032 Notes at a fundamental change repurchase price equal to 100% of the principal amount of the Convertible 2032 Notes to be repurchased, plus accrued and unpaid special interest, if any, to, but excluding, the fundamental change repurchase date.

The 2032 Indenture includes customary terms and covenants and sets forth certain events of default after which the Convertible 2032 Notes may be declared immediately due and payable and sets forth certain types of bankruptcy or insolvency events of default involving the Company or any of its significant subsidiaries (as defined in the 2032 Indenture) after which the Convertible 2032 Notes become automatically due and payable. If an event of default other than certain bankruptcy and insolvency-related events of default with respect to the Company or any of its significant subsidiaries occurs and is continuing, the Trustee by notice to the Company, or the holders of at least 25% in principal amount of the outstanding Convertible 2032 Notes by notice to the Company and the Trustee, may, and the Trustee at the request of such holders shall, declare 100% of the principal of, and accrued and unpaid special interest, if any, on, all of the then outstanding Convertible 2032 Notes to be due and payable.

Credit Facilities

We maintain uncommitted letter of credit facilities with certain banks that provide for the issuance of letters of credit and bank guarantees, at times supported by cash collateral. See Note 15, "Commitments and Contingencies," for further information regarding outstanding stand-by letters of credit and other bank guarantees.

On August 27, 2024, we voluntarily terminated our \$250 million revolving credit facility, which would have matured in November 2026, including all commitments and obligations thereunder. In connection with the termination, we cancelled all letters of credit issued thereunder and replaced them with letters of credit issued under our uncommitted letter of credit facilities supported by cash collateral.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

14. Digital Assets and Related Receivables

During the second quarter of fiscal 2025, the Company purchased 4,710 Bitcoin. During the fourth quarter of fiscal 2025, the Company pledged 4,709 of the Bitcoin as collateral in a covered call strategy resulting in the derecognition of the Bitcoin digital asset and the recognition of a Bitcoin digital asset receivable. The following table summarizes the Company's digital asset rollforward and holdings for the year ended January 31, 2026:

Description	Bitcoin (Digital Assets)
Balance, Beginning of fiscal year	—
Additions (Cost of \$500 million purchased in Q2)	500.0
Loss on digital assets pledged	(71.8)
Dispositions (pledged/derecognized in Q4)	(428.0)
Remeasurement loss on digital assets	(0.1)
Fair Value, End of fiscal year	<u>\$ 0.1</u>

The following table provides the required disclosures for our crypto asset holding as of January 31, 2026, including units held, cost basis, fair value, and cumulative unrealized gain (loss).

	Quantity ⁽¹⁾	Cost Basis	Fair Value	Cumulative Unrealized Loss
Bitcoin	1.0	0.2	0.1	(0.1)
Total digital assets held as of January 31, 2026	<u>1.0</u>	<u>\$ 0.2</u>	<u>\$ 0.1</u>	<u>\$ (0.1)</u>

(1) Actual Bitcoin quantity held; not in millions.

During the fiscal year ended January 31, 2026, the Company recognized a net loss on digital assets and related receivables of \$131.6 million. This was primarily driven by an \$71.8 million realized loss upon the derecognition of digital assets pledged as collateral in a covered call strategy, a \$59.7 million unrealized loss on the digital asset receivable, and a \$0.1 million remeasurement loss on remaining digital asset holdings. The following table summarizes the components of "Loss on digital asset and related receivables" in the Consolidated Statements of Operations for the year ended January 31, 2026:

	Amount
Realized loss on digital assets pledged	(71.8)
Unrealized loss on digital asset receivable	(59.7)
Remeasurement loss on digital assets held	(0.1)
Total loss on Digital asset and related receivables	<u>(131.6)</u>

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

Upon adoption of ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, cash paid for income taxes, net of refunds, disaggregated by jurisdiction, was as follows:

	<u>Fiscal Year Ended 2025</u>
Federal	\$ 28.4
State	2.6
Foreign	2.8
Total cash paid for income taxes, net of refunds	<u>\$ 33.8</u>

Differences between financial accounting principles and tax laws cause differences between the bases of certain assets and liabilities for financial reporting purposes and tax purposes. The tax effects of these differences, to the extent they are temporary, are recorded as deferred tax assets and liabilities which are presented in the table below.

	<u>January 31, 2026</u>	<u>February 1, 2025</u>
Deferred tax asset:		
Inventory	\$ 7.6	\$ 7.7
Deferred rents	0.2	0.9
Property and equipment	1.8	1.2
Operating lease liabilities	73.1	87.5
Stock-based compensation	1.6	2.2
Net operating losses and other loss carryforwards	383.7	227.7
Customer liabilities	21.1	25.0
Credits	2.2	4.2
Accrued compensation	4.2	3.5
Intangible assets	0.8	1.9
Goodwill	0.1	0.3
Digital assets and related receivables	29.1	—
Other	25.6	29.5
Total deferred tax assets	551.1	391.6
Valuation allowance	(403.2)	(291.3)
Total deferred tax assets, net	<u>147.9</u>	<u>100.3</u>
Deferred tax liabilities:		
Prepaid expenses	(0.2)	(0.2)
Operating lease right-of-use assets	(60.9)	(82.0)
Total deferred tax liabilities	<u>(61.1)</u>	<u>(82.2)</u>
Net deferred tax assets	<u>\$ 86.8</u>	<u>\$ 18.1</u>
The above amounts are reflected in the consolidated financial statements as:		
Deferred income taxes - assets	\$ 86.8	\$ 18.1
Deferred income taxes - liabilities	\$ —	\$ —

During fiscal 2025, we increased our valuation allowances by a net \$111.9 million. This net change reflects increases of approximately \$253.0 million of increases in certain international jurisdictions where additional losses were generated and the related deferred tax assets are not expected to be realizable, partially offset by approximately \$141.1 million of releases in jurisdictions that returned to profitability after previously being in cumulative loss positions. As of January 31, 2026, we maintain full valuation allowances on all international deferred tax assets except those in Australia, and we maintain valuation allowances on only certain deferred tax assets in the United States, rather than a full valuation allowance. We will continue to assess the realizability of our gross and net deferred tax assets in all tax jurisdictions in future reporting periods.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

With respect to state and local jurisdictions and countries outside of the United States, we and our subsidiaries are typically subject to examination for 3 to 6 years after the relevant income tax returns have been filed. Although the outcome of tax audits is inherently uncertain, we believe that adequate provisions for tax, interest and penalties have been recorded in the accompanying consolidated financial statements for any adjustments that may arise from state, local or foreign tax examinations.

As of January 31, 2026, we had approximately \$30.9 million of U.S. federal net operating loss ("NOL") carryforwards acquired through the ThinkGeek acquisition, which will expire in years 2031 through 2036. We also had \$275.5 million of state NOL carryforwards, of which \$239.0 million will expire between 2025 to 2044, \$26.9 million have no expiration date, and \$9.5 million, acquired through the ThinkGeek acquisition, will expire between 2029 through 2036.

Section 382 under the Internal Revenue Code imposes limitations on the utilization of tax attributes following an ownership change. The federal and state NOL carryforwards acquired through the ThinkGeek acquisition experienced an ownership change on July 17, 2015, and we have determined that these NOLs will be subject to future utilization limitations.

We have approximately \$2.2 million of foreign tax credit carryforwards that expire between 2025 through 2027, and approximately \$1,366.4 million of foreign NOL carryforwards in various jurisdictions that have no expiration period, substantially all of which relate to Luxembourg and were generated primarily from impairments of international subsidiaries that we have divested or are currently held for sale.

As of January 31, 2026, the gross amount of unrecognized tax benefits was approximately \$5.0 million. If we were to prevail on all uncertain tax positions, the net effect would result in approximately a \$5.0 million benefit to our effective tax rate, excluding any related to interest and penalties.

The following table presents a reconciliation of the changes in the gross balances of unrecognized tax benefits:

	Fiscal Year ended		
	2025	2024	2023
Beginning balance of unrecognized tax benefits	\$ 7.5	\$ 6.8	\$ 9.5
Increases related to current period tax positions	0.3	0.8	0.6
Increase (decrease) related to prior period tax positions	(0.2)	0.1	0.8
Reductions as a result of a lapse of the applicable statute of limitations	(0.4)	(0.2)	(1.1)
Reductions as a result of settlements with taxing authorities	(2.2)	—	(3.0)
Ending balance of unrecognized tax benefits	<u>\$ 5.0</u>	<u>\$ 7.5</u>	<u>\$ 6.8</u>

We recognize accrued interest and penalties related to unrecognized tax benefits within income tax expense in our Consolidated Statement of Operations. As of January 31, 2026, February 1, 2025, and February 3, 2024, we had approximately \$2.0 million, \$2.2 million and \$1.6 million, respectively, of accrued interest and penalties. During fiscal 2025, 2024 and 2023, we recognized approximately \$0.2 million of benefit, \$0.6 million of expense and \$2.1 million of benefit, respectively, in income tax expense related to those items. If we were to prevail on all uncertain tax positions, the reversal of these accrued interest and penalties would result in a corresponding benefit to our effective tax rate.

It is reasonably possible that the amount of the unrecognized benefits with respect to certain positions could significantly increase or decrease within the next 12 months as a result of resolving ongoing audits. However, because audit outcomes and timing are inherently uncertain, and given the complexity of the issues involved, we are unable to reasonably estimate the potential change, if any, in unrecognized tax benefits during that period. Nevertheless, we believe our reserves for uncertain tax positions are adequate as of January 31, 2026.

We do not assert indefinite reinvestment with respect to the undistributed earnings of our foreign subsidiaries. Income taxes and/or withholding taxes associated with amounts available for distribution as of January 31, 2026 are not expected to be material to our financial statements.

The Organization for Economic Co-operation and Development ("OECD"), supported by more than 140 member countries, has agreed to implement a global minimum tax rate of 15% tax on certain multinational enterprises under the Pillar Two framework. These rules began taking effect across various jurisdictions in 2024 as countries enacted legislation aligned with the OECD model. In fiscal 2025, the Company did not incur any Pillar Two top-up taxes and therefore recorded no related impact to the fiscal 2025 effective tax rate. The Company will continue to evaluate additional OECD guidance, as well as pending and enacted legislation in the jurisdictions in which we operate.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

16. Commitments and Contingencies

Commitments

As of January 31, 2026, we had approximately \$6.7 million of outstanding Stand-By Letters of Credit and other bank guarantees supported by \$5.5 million of cash collateral that is included in restricted cash.

As of January 31, 2026, we have purchase obligations of \$128.7 million with payment dates through fiscal 2026 that represent outstanding purchase orders for merchandise from vendors. These purchase orders are generally cancellable until shipment of the products.

See [Note 9](#), "Leases," for information regarding commitments related to our non-cancelable operating leases.

Legal Proceedings

In the ordinary course of business, we are, from time to time, subject to various legal proceedings, including matters involving wage and hour employee class actions, stockholder actions, consumer class actions, violent acts, and other conflicts. We may enter into discussions regarding settlement of these and other types of lawsuits, and may enter into settlement agreements, if we believe settlement is in the best interest of our stockholders. We do not believe that any such existing legal proceedings or settlements, individually or in the aggregate, will have a material effect on our financial condition, results of operations or liquidity.

17. Assets Held for Sale

During the first quarter of fiscal 2025, management approved a plan to divest our operations in France. Accordingly, all relevant assets and liabilities associated with these operations were reclassified to held for sale in our Consolidated Balance Sheets, and as of January 31, 2026 are as follows:

	January 31, 2026
Assets Held for Sale	
Cash and cash equivalents	\$ 22.5
Receivables, net	8.7
Merchandise inventories, net	53.6
Prepaid expenses and other current assets	5.8
Property and equipment, net	12.9
Operating lease right-of-use-assets	58.3
Other noncurrent assets	15.3
Total assets held for sale (gross)	177.1
Less: Impairment loss	(30.6)
Total assets held for sale (net) as of January 31, 2026	\$ 146.5
Liabilities held for sale	
Current liabilities	\$ 86.4
Noncurrent liabilities	49.7
Total liabilities held for sale as of January 31, 2026	\$ 136.1

Based on the expected fair value of this business, net of our costs to sell, we recognized an impairment charge of \$17.2 million on Assets held for sale for the French disposal group in the first quarter of fiscal 2025. During the remainder of fiscal 2025, we recorded additional impairment charges totaling \$12.6 million. These amounts reflect the remeasurement of the carrying value of the French disposal group to its fair value, including related amounts in Accumulated Other Comprehensive Income.

18. Class A Common Stock and Share-Based Compensation

Class A Common Stock

The holders of Class A Common Stock are entitled to one vote per share on all matters to be voted on by stockholders. Holders of Class A Common Stock will share in any dividend declared by our Board of Directors. In the event of our liquidation, dissolution or winding up, all holders of Class A Common Stock are entitled to share ratably in any assets available for distribution to holders of shares of Class A Common Stock.

During fiscal 2024, we sold an aggregate of 140,000,000 shares of our Class A Common Stock under an at-the-market equity offering programs (the "ATM Transactions"). We generated \$3,470.1 million in aggregate gross proceeds from sales under the ATM Transactions. All associated commissions and administrative fees were recognized in additional paid-in capital on our Consolidated Balance Sheets and Selling, general, and administrative expenses in our Consolidated Statements of Operations.

Share-Based Compensation

In June 2022, we adopted the GameStop Corp. 2022 Incentive Plan (the "2022 Plan"), which provides for the grant of equity awards to our officers, associates, consultants, advisors and directors, and which replaced the GameStop Corp. 2019 Incentive Plan (the "2019 Incentive Plan") and the Amended and Restated GameStop Corp. 2011 Incentive Plan (the "2011 Plan"). Awards under the 2022 Plan may take the form of stock options, stock appreciation rights, restricted stock awards, restricted stock units, performance awards and other share-based awards, or any combination of the foregoing. The 2022 Plan allows for 32,000,000 shares of Class A Common Stock, plus any shares subject to 2019 Plan awards that expire, are forfeited, canceled or terminated after the adoption of the 2019 Plan. No awards were granted under the 2019 or 2011 Plan after the adoption of the 2022 Plan.

Restricted Stock Units

Restricted Stock Units ("RSUs") represent a right to receive one share or the value of one share upon the terms and conditions set forth in the applicable plan and award agreement. We grant RSUs to certain of our associates, officers and non-associate directors. We used the stock price on the grant date to estimate the fair value of our RSUs. The grant date fair value of RSUs is amortized to expense on a straight-line basis over the vesting period. RSUs are not eligible to receive cash dividends; however they are entitled to dividend equivalent rights, which mirror the dividends declared and accumulate as additional RSUs, payable only upon vesting.

Restricted Stock Award

The fair value of restricted stock awards ("RSAs") is recognized as compensation expense on a straight-line basis between the grant date and the date the RSAs become fully vested. We have granted RSAs to certain associates, officers and non-associate directors. We estimate the fair value of RSAs on the grant date based on the quoted market price of our Class A Common Stock.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

RSAs granted by us are considered to be legally issued and outstanding as of the date of grant, notwithstanding that the shares remain subject to risk of forfeiture if the vesting conditions for such shares are not met and are included in the number of shares of Class A Common Stock outstanding disclosed on the cover page of this annual report on Form 10-K as of March 18, 2026. The total number of shares presented on our consolidated financial statements represents shares of our Class A Common Stock that are legally issued and outstanding. There were no remaining nonvested shares of RSAs as of January 31, 2026 and February 1, 2025.

Time-based RSAs and RSUs generally vest in installments, subject to continued service with us, and subject further to accelerated vesting in the case of retirement eligibility and certain termination events.

The following table presents a summary of our RSU activity:

	<u>Time-Based Restricted Stock Units</u>	
	<u>Shares</u>	<u>Weighted-Average Grant Date Fair Value</u>
Nonvested shares at February 1, 2025	2,168,462	\$ 22.56
Granted	2,062,577	24.07
Vested	(1,267,270)	24.39
Forfeited	(705,886)	23.66
Nonvested shares at January 31, 2026	<u>2,257,883</u>	<u>\$ 22.55</u>

In fiscal 2025, 2024 and 2023, there were 2.3 million, 2.2 million and 4.1 million of restricted stock awards ("RSAs") and restricted stock units ("RSUs") outstanding, respectively.

During fiscal 2025, 2024, and 2023, we granted 2,062,577, 1,926,225, and 2,425,236 time-based RSUs, respectively, with weighted-average grant-date fair values of \$24.07, \$23.56, and \$17.27. No time-based RSAs were granted during fiscal 2025, 2024, or 2023.

We recognized stock-based compensation expense (inclusive of forfeitures) of \$26.7 million, \$16.4 million, and \$22.2 million in fiscal 2025, 2024 and 2023, respectively, within "Selling, general, and administrative expenses" in our Consolidated Statements of Operations.

As of January 31, 2026, unrecognized compensation expense related to nonvested time-based RSUs totaled \$46.6 million, which is expected to be recognized over a weighted-average period of 2.1 years.

Income tax benefits associated with stock-based compensation were recognized in fiscal 2025, primarily due to the release of valuation allowance on deferred tax assets related to such compensation. There was no income tax expense (including excess tax deficiencies or valuation allowance impacts) related to stock-based compensation for fiscal 2024 and 2023.

The total fair value of RSAs and RSUs vested, measured as of the respective vesting dates, was \$30.9 million, \$33.4 million and \$43.2 million during fiscal 2025, 2024 and 2023, respectively.

CEO Performance Award

On January 6, 2026, the Board of Directors announced a performance-based nonqualified stock option award (the "CEO Performance Award") to Ryan Cohen, the Company's Chairman and Chief Executive Officer. The CEO Performance Award is subject to shareholder approval, and therefore no stock-based compensation expense has been recorded in fiscal 2025.

19. Related Party Transactions

One of the Company's directors, Nat Turner, also serves as the Chairman and Chief Executive Officer of Collectors Holdings, Inc. ("Collectors"), the parent company of Professional Sports Authenticator ("PSA"). As a result, Collectors and PSA are considered related parties under ASC 850, Related Party Disclosures.

GAMESTOP CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in millions, except per share amounts)

During the third quarter of fiscal 2024, the Company announced that it had entered into a collaboration with Collectors through its PSA division. Under this arrangement, the Company became an authorized PSA dealer, and PSA provides authentication and grading services for trading cards through select GameStop stores across the United States.

During the second quarter of fiscal 2025, the Company launched Power Packs, a digital trading card platform developed in collaboration with PSA.

Transactions with Collectors and PSA were not material, individually or in the aggregate, during the current fiscal year.

20. Subsequent Event

Subsequent to year end, the Company posted approximately \$0.7 billion of cash into an account of the Company that is pledged as collateral for certain existing and potential cash or physically settled derivative transactions.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, our management conducted an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed in the reports that we file or submit under the Exchange Act has been appropriately recorded, processed, summarized and reported on a timely basis and are effective in ensuring that such information is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective at the reasonable assurance level. Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures to disclose material information otherwise required to be set forth in our periodic reports.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f). Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with GAAP.

A company's internal control over financial reporting includes policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are being made only in accordance with duly documented authorizations of management and directors of the Company, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Due to inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness for future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting, as of January 31, 2026, based on the Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission, known as "COSO." Based on such evaluation, the Company's management concluded that as of January 31, 2026, the Company's internal control over financial reporting was effective at a reasonable assurance level.

KPMG LLP, our independent registered public accounting firm, has audited our consolidated financial statements included in this Annual Report and has issued a report on the effectiveness of our internal control over financial reporting as of January 31, 2026. Please refer to KPMG LLP's "Report of Independent Registered Public Accounting Firm" included in Part II, Item 8 of this Form 10-K.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recently completed fiscal quarter that has materially affected or is reasonably likely to material affect our internal control over financial reporting.

ITEM 9A. CONTROLS AND PROCEDURES**Report of Independent Registered Accounting Firm**

Our independent registered public accounting firm has audited the effectiveness of our internal control over financial reporting as of January 31, 2026 and has issued its report, which is included in Part II, Item 8 of this Form 10-K.

ITEM 9B. OTHER INFORMATION**Security Trading Plans of Directors and Executive Officers**

On January 12, 2025, Mark Robinson, the Company's General Counsel and Corporate Secretary, adopted a Rule 10b5-1 trading arrangement providing for the sale from time to time of an aggregate of up to 38,802 shares of our common stock. The trading arrangement is intended to satisfy the affirmative defense in Rule 10b5-1(c). The duration of the trading arrangement is until July 31, 2027, or earlier if all transactions under the trading arrangement are completed.

Aside from the plans disclosed above, none of the Company's directors or executive officers adopted or terminated a Rule 10b5-1 trading arrangement or a non-Rule 10b5-1 trading arrangement during the Company's fourth quarter of the fiscal year ended January 31, 2026, as such terms are defined under Item 408(a) or Regulation S-K.

Performance Award

On January 7, 2026, the Company issued a press release announcing that the Board had granted a performance-based stock option award to Ryan Cohen, the Company's Chairman and Chief Executive Officer. The press release indicated that the Company's shareholders will be asked to approve the award at a special meeting that is expected to be held in March or April 2026. After consideration, the Board has decided to bring the matter to shareholders for vote at the Company's annual meeting scheduled for June 8, 2026.

Update on Certain Benefits and Perquisites

In accordance with the independently-assessed executive security program established by our Board, the Company provides Mr. Cohen with executive security services. The aggregate incremental costs to the Company of providing these services was \$1,839,546 for the fiscal year ended January 31, 2026. We believe these arrangements and costs are reasonable, appropriate, necessary and in the best interests of the Company and its stockholders, as they enable Mr. Cohen to carry out his responsibilities and, therefore, mitigate risks to our business. While we do not consider these security services to be a personal benefit for or compensation paid to Mr. Cohen because they arise from, and are necessary for the carrying out of, his employment responsibilities, this amount will be set forth in the definitive proxy statement relating to our 2026 Annual Meeting of Stockholders which is to be filed with the SEC pursuant to Regulation 14A under the Exchange Act in the "All Other Compensation" column of the Summary Compensation Table to be included therein.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE*

Code of Ethics

We have adopted a Code of Ethics for Senior Financial and Executive Officers that is applicable to our Chief Executive Officer, Principal Financial Officer, any Vice President employed in a finance or accounting role and any managing director or finance director of all our foreign subsidiaries. We have also adopted a Code of Standards, Ethics and Conduct applicable to all of our associates. Each of the Code of Ethics and Code of Standards, Ethics and Conduct are available on our website at www.gamestop.com.

In accordance with SEC rules, we intend to disclose any amendment (other than any technical, administrative, or other non-substantive amendment) to either of the above Codes, or any waiver of any provision thereof with respect to any of the executive officers listed in the paragraph above, on our website (www.gamestop.com) within four business days following such amendment or waiver.

ITEM 11. EXECUTIVE COMPENSATION*

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS*

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE*

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES*

* The information not otherwise provided herein that is required by Items 10, 11, 12, 13 and 14 will be set forth in the definitive proxy statement relating to our 2026 Annual Meeting of Stockholders to be held on or around June 8, 2026 which is to be filed with the SEC pursuant to Regulation 14A under the Exchange Act. This definitive proxy statement relates to a meeting of stockholders involving the election of directors and the portions therefrom required to be set forth in this Form 10-K by Items 10, 11, 12, 13 and 14 are incorporated herein by reference pursuant to General Instruction G(3) to Form 10-K. A copy of our insider trading policy is filed as Exhibit 19.1 to this Form 10-K.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULE

(a) The following documents are filed as a part of this Form 10-K

(1) Index to Consolidated Financial Statements

Our consolidated financial statements, together with the report of KPMG LLP, our current independent registered public accounting firm and the report of Deloitte & Touche LLP, our predecessor independent registered public accounting firm, are included in Part II, Item 8 of this Form 10-K.

(2) Financial Statement Schedules required to be filed by Item 8 of this Form 10-K:

The following financial statement schedule for the 52 weeks ended January 31, 2026, 52 weeks ended February 1, 2025 and the 53 weeks ended February 3, 2024 is filed as part of this Form 10-K and should be read in conjunction with our consolidated financial statements appearing elsewhere in this Form 10-K. Other schedules have been omitted because they are not applicable.

Schedule II — Valuation and Qualifying Accounts

For fiscal 2025, 2024 and 2023:

	Balance at Beginning of Period	Charged to Costs and Expenses	Charged to Other Accounts- Accounts Payable ⁽¹⁾	Deductions- Write-Offs Net of Recoveries	Balance at End of Period
	(In millions)				
Inventory Reserve					
Fiscal 2025	\$ 24.5	\$ 46.4	\$ (9.2)	\$ (37.4)	\$ 24.3
Fiscal 2024	38.8	41.6	(18.0)	\$ (37.9)	24.5
Fiscal 2023	46.7	81.3	—	(89.2)	38.8
Valuation Allowance for Deferred Tax Assets					
Fiscal 2025	\$ 291.3	\$ 253.0	\$ —	\$ (141.1)	403.2
Fiscal 2024	355.2	—	—	(63.9)	291.3
Fiscal 2023	408.5	—	—	(53.3)	355.2

(1) Consists primarily of amounts received from vendors for defective allowances.
