NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the firm's significant accounting policies consistently applied in the preparation of the accompanying financial statements are as follows:

- a. Nature of Operations – SCH Enterprises, Inc. (the Firm) is a registered broker-dealer with Financial Industry Regulatory Authority, the Securities and Exchange Commission (SEC) and various states with the United States. The Firm was organized and incorporated in the state of Indiana on April 1, 1999. The Firm operates as an introducing broker on a fully disclosed basis. Accordingly, the Firm operates under the exemptive provision of the SEC Rule 15c3-3(k) (1).
- b. Cash Equivalents - For purposes of the statements of cash flows, the Firm considers all highly liquid debt instruments with maturities of three months or less when purchased to be cash equivalents. There were no cash equivalents at December 31, 2025.
- c. Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.
- d. Concentrations of Credit Risk - The Firm places its cash in accounts with a local financial institution. At times, balances in these accounts may exceed FDIC insured limits.
- e. Commissions Receivable – Commissions Receivable consists of commissions, fees and other amounts owed to the Firm. The Firm considers all commissions receivable to be fully collectible. Uncollectible accounts receivable are charged directly against operations when they are determined to be uncollectible. Use of this method does not result in a material difference from the valuation method required by accounting principles generally accepted in the United States of America. Management believes an allowance is unnecessary. Commissions receivable are written off when collection efforts have been exhausted.
- f. Recently Issued Accounting Pronouncements Adopted - In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," which expands annual and interim disclosure requirements for reportable segments, primarily through enhanced disclosures about significant segment expenses. The Firm adopted this standard effective January 1, 2024. For further information, refer to Note 9.
- g. Investment in Debt and Marketable Equity Securities – The Firm has an investment in a marketable equity security that is listed and traded on a national exchange. The Firm's investment in marketable equity securities has been classified as available-for-sale and is stated at fair value. Unrealized holding gains and losses are reported in other comprehensive income. Dividends on marketable equity securities are recognized in income when declared. Realized gains and losses, including losses from declines in value of specific securities determined by management to be other-than-temporary, are included in income. Realized gains and losses are determined on the basis of average cost of securities sold.

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

- h. **Revenue Recognition** -- All income and expense records will be maintained on an accrual basis. As all regular income is in the form of commissions from mutual fund or insurance companies, regular income will be accrued as of the date listed on the applicable commission statement, and listed as received on the date the check is received in the mail or the date the direct deposit is credited to the firm's bank account. If no commission statement is readily available, the income will be accrued as of the Friday prior to receiving the physical check or direct deposit.

In May 2014, FASB issued ASU 2014-09, Revenue from Contracts with Customers: Topic 606 which supersedes nearly all existing revenue recognition guidance under GAAP. The Firm has performed an assessment of its revenue contracts by looking at the five components of the pronouncement:

- Identify the contract with the customer
- Identify the performance obligation
- Determine the transaction price
- Allocate the transaction price to the performance obligation
- Recognize the revenue when the performance obligation is met

NOTE 2: COMMISSION RECEIVABLES AND PAYABLES FROM AND TO BROKERS

Receivables from brokers represent commissions due and accrued to the Firm from their correspondents. The payable to brokers are commissions due to the brokers. At December 31, 2025, there were commission receivables of \$611. There were no accrued commission payables at December 31, 2025.

NOTE 3: TRANSACTIONS WITH AFFILIATED ENTITIES

The Firm shares office space, utilities, telephone, interior maintenance and janitorial services with two affiliated entities. These expenses are allocated per an Expense Sharing Agreement effective January 1, 2022. The agreement calls for an 70% (affiliated entity), 30% (the Firm) split of shared expenses for the period January through April; and a 25% (affiliated entity), 75% (the Firm) split of shared expenses for the period May through December each year. The Firm's allocated portion of these expenses was \$64,929 for the year ended December 31, 2025.

NOTE 4: INCOME TAX EXPENSE

The Firm has elected to be treated as an S Corporation for tax purposes. In lieu of corporate income taxes, the shareholders of an S Corporation are taxed on their proportionate share of the Firm's taxable income. Therefore, no provision or liability for income taxes has been included in these financial statements.

NOTE 4: INCOME TAX EXPENSE-Continued

Accounting principles generally accepted in the United States of America require the firm to examine its tax positions for uncertain positions. Management is not aware of any tax positions that are more likely than not to change in the next twelve months or that would not sustain an examination by applicable taxing authorities.

The Firm's policy is to recognize penalties and interest as incurred in its Statement of Income, there were none from the year ended December 31, 2025. The Firm's federal and state income tax returns for 2022 through 2025 are subject to examination by the applicable tax authorities, generally from three years after the later of the original or extended due date.

NOTE 5: ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation Number 48 (FIN 48), Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109 (SFAS 109). The interpretation contains a two-step approach to recognizing and measuring uncertain tax positions accounted for in accordance with SFAS 109. The Firm has elected to defer the adoption of FIN 48 as allowed in FASB Staff Position (FSP-48-3) issued December 30, 2008. The adoption of this standard is not currently anticipated to have a material impact on the Firm's financial position, results of operations, or cash flows; however, the effect on future financial statements of this pronouncement cannot be determined at this time. Management will continue to evaluate any uncertain tax positions, if any, during the deferral period.

NOTE 6: FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820 defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (or exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Firm. Unobservable inputs are inputs that reflect the Firm's assumptions about the inputs that market participants would use in pricing the asset or liability and are developed based on the best information available in the circumstances.

The fair value hierarchy input levels are as follows:

- Level 1 – Quoted market prices in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 – Observable inputs other than quoted market prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, or quoted market prices for identical or similar assets or liabilities in markets that are not active.

NOTE 6: FAIR VALUE MEASUREMENTS-Continued

- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

As of December 31, 2025, the Firm held certain financial assets that are required to be measured at fair value on a recurring basis. These marketable equity securities are valued at a Level 1 fair value of \$116,556. These marketable equity securities have an original cost of \$4,600 resulting in an accumulated unrealized gain of \$111,956.

NOTE 7: OPERATING LEASES

The Firm has a shared lease obligation for its office facilities with an affiliated entity. The lessor is another affiliated entity. The Firm was operating under a lease entered into on January 1, 2020 and ended November 30, 2020, and has continued on a month-to-month basis. These leases resulted in \$21,600 in total shared annual costs with the affiliated entity. Rent expense paid by the Firm during 2025 was \$12,420. An affiliated entity paid the remaining \$9,180 due under these lease agreements.

The Firm's portion of minimum future rentals is undetermined due to the short-term nature of the current lease.

NOTE 8: NET CAPITAL REQUIREMENTS

The Firm is required to maintain a minimum net capital under Rule 15c3-1 of the Securities and Exchange Commission. Net capital required under the rule is the greater of \$5,000 or 6 2/3 percent of the aggregate indebtedness of the Firm. At December 31, 2025, net capital as defined by the rules, equaled \$647,530. The ratio of aggregate indebtedness to net capital was 1.36%. Net capital in excess of the minimum required was \$641,530.

NOTE 9: SEGMENT REPORTING

The Firm is engaged in a single line of business as a securities broker-dealer which is comprised of being an introducing broker dealer on a fully disclosed basis described in Note 1. The Firm has identified its President as the chief operating decision maker ("CODM"), who uses net income to evaluate the results of the business, predominantly in the forecasting process, to manage the Firm. Additionally, the CODM uses excess net capital (see Note 8), which is not a measure of profit and loss, to make operational decisions while maintaining capital adequacy, such as whether to maintain profits or pay distributions. The Firm's operations constitute a single operating segment and therefore, a single reportable segment, because the CODM manages the business activities using information of the Firm as a whole. The accounting policies used to measure the profit and loss of the segment are the same as those described in the policies listed below.

NOTE 11: COMMITMENTS AND CONTINGENCIES

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of
SCH Enterprises, Inc.

I have reviewed management's statements, included in the accompanying Exemption Report of Brokers and Dealers, in which (1) SCH Enterprises, Inc., identified the following provision of 17 C.F.R. § 15c3-3(k) under which SCH Enterprises, Inc. claimed an exemption from 17 C.F.R. § 240.15c3-3: (k)(1), and (2) SCH Enterprises, Inc. stated that SCH Enterprises, Inc. has met this exemption provision throughout the most recent fiscal year ended December 31, 2025, without exception. SCH Enterprises, Inc.'s management is responsible for compliance with the exemption provisions and its statements.

My review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and accordingly, included inquiries and other required procedures to obtain evidence about SCH Enterprises, Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, I do not express such an opinion.

Based on my review, I am not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(1) of Rule 15c3-3 under the Securities Exchange Act of 1934.
