## Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

## RISK FACTORS

8. Discuss the material factors that make an investment in the issuer speculative or risky: ①

**A crowdfunding investment involves risk. Investors should not invest any funds unless they can afford to lose the entire investment.**

**In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.**

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

### Business Risks

The Issuer's success depends on its brand perception, in part, upon the popularity of their establishment and the customer's experience. The Issuer intends to reinforce and extend positive brand perception, including by providing a training program for its employees to ensure a high quality of customer service. Any shortcomings in the Issuer's brand building initiatives or business incidents that diminish customer perceptions of the Issuer's brand could negatively impact revenues. If the Issuer overestimates the demand for its business or underestimates the popularity of its competition, the Issuer may not fully realize its anticipated revenue. The Issuer's business, financial condition and results of operations depends in part on the Issuer's ability to anticipate, identify and respond to changing consumer preferences. Any failure by the Issuer to anticipate and respond to changing customer preferences could make the Issuer's business less appealing and adversely affect business. If the Issuer does not achieve a certain level of revenue, the financial performance will be seriously and negatively impacted, in which case there may be serious adverse financial consequences for the investors.

### Management Risks

Any operational growth experienced by the Issuer will place additional demands on the Issuer's administrative, management and financial resources. If the Issuer's management does not effectively manage growth, the Issuer's operations and financial condition may be negatively impacted. The timing and extent of future growth depends, in part, on the Issuer's ability to manage its organizational structure and financial resources.

### Potential Conflicts of Interest

The key persons individually or as an entity may wish to own, operate or consult with other operations in the San Diego area similar to the Issuer, including operations utilizing the brand associated with the Issuer. Such other businesses will be owned by entities other than the Issuer, which may not have an identity of ownership interest with the Issuer. While it is the intention of the key persons to place such businesses operations strategically so as to maximize the revenue and profitability of each business, there can be no guarantee that such activities will not have a deleterious effect on the revenues of the Issuer's operations and on the Issuer due to unintended competitive factors resulting from the comparative accessibility and desirability of the respective businesses. The relevant key persons will have no duty to account to the Issuer for profits derived from such other such activities.

### Risks Relating to Debt Financing

The Issuer's debt service obligations may adversely affect its cash flow. As a result of any future debt obligations, the Issuer may be subject to: (i) the risk that cash flow from operations will be insufficient to meet required payments of principal and interest, (ii) restrictive covenants, including covenants relating to certain financial ratios, and (iii) interest rate risk. Although the Issuer anticipates that it will be able to repay or refinance any indebtedness when it matures, there can be no assurance that it will be able to do so or that the terms of such refinancing will be favorable. The Issuer's leverage may have important consequences including the following: (i) its ability to obtain additional financing for acquisitions, working capital, capital expenditures or other purposes, if necessary, may be impaired or such financing may not be available on terms favorable to the Issuer and (ii) a substantial decrease in operating cash flow or a substantial increase in its expenses could make it difficult for the Issuer to meet its debt service requirements and restrictive covenants and force the Issuer to sell assets and/or modify its operations.

### Risks Relating to Financial Forecasts

The financial forecasts provided by the Issuer herein are reasonable forecasts by the Issuer based upon assumption of stable economic conditions and other various assumptions regarding the operations of the Issuer. The validity and accuracy of these assumptions will depend in large part on future events over which the Issuer and the key persons will have no control. CHANGES IN ASSUMPTIONS OR THEIR UNDERLYING FACTS COULD SIGNIFICANTLY AFFECT THE FORECASTS. TO THE EXTENT THAT THE ASSUMED EVENTS DO NOT OCCUR, THE OUTCOME MAY VARY SIGNIFICANTLY FROM THE PROJECTED OUTCOMES. CONSEQUENTLY, THERE CAN BE NO ASSURANCE THAT THE ACTUAL OPERATING RESULTS OF THE ISSUER WILL CORRESPOND TO THE FORECASTS PROVIDED HEREIN.

### Limited Source of Repayment

The only source of financial return for investors before maturity is through payments as set forth in the NPA and the Notes and there is no guarantee of any investment return. The Securities are speculative investments inherently involving a degree of risk, meaning part or all of such investments may be lost. While the Issuer is providing a lien on its assets, there is no guarantee that it will have sufficient assets to make full payment to the investors, as the assets may decrease in value, lose their entire value over time or may fluctuate based on the performance of the underlying business. Neither the Issuer nor NextSeed guarantees payment or investor returns.

### Risks from Work Stoppages, Terrorism or Natural Disasters

The Issuer's operations may be subject to disruption for a variety of reasons, including work stoppages, terrorism, acts of war, pandemics, fire, earthquake, flooding, tornadoes or other natural disasters. These disruptions can result in, among other things, lost sales due to the inability of customers, employees or suppliers to reach the store, property damage and lost sales if the Issuer is forced to close for an extended period of time.

### Tax Risks

The Issuer is subject to federal, state and local taxes. In making tax estimates and paying taxes, significant judgment is often required. Although the Issuer believes its tax positions and estimates are reasonable, the Issuer could have additional tax liability, including interest and penalties, if a taxing authority disagrees with the positions taken by the Issuer. If material, payment of such additional amounts could have a material impact on the Issuer's results of operations and financial position.

### Regulatory Risks

Products and services offered by the Issuer are subject to regulation. Regulatory action could substantially increase the Issuer's costs, decrease revenues and materially affect operating results. The Issuer's increased costs is commensurate with these requirements or failure

damage reputation and materially affect operating results. The Issuer's increased costs in complying with these requirements or failure to obtain required licenses or permits in a timely fashion may materially affect operations.

Regulations regarding climate change, energy usage and emissions controls may impact the Issuer directly through higher cost of goods. The potential impacts of climate change and climate change regulations are highly uncertain at this time, and the Issuer cannot anticipate or predict the material adverse effects on the business as a result of climate change or climate change regulation. For instance, changes in the prevailing climates may result in a reduction in, or increased prices of available goods, which may adversely affect the Issuer's revenue and operating margins. The Issuer is subject to various federal, state and local regulations, including regulations related to the preparation and sale of food, the sale of alcoholic beverages, zoning and building codes, land use and employee, health, sanitation and safety matters. The Issuer is also subject to the U.S. Fair Labor Standards Act, which governs such matters as working conditions, family leave mandates and other employment law matters. In recent years, there has been an increased legislative, regulatory and consumer focus on nutrition and advertising practices in the food industry. Compliance with additional regulations can become costly and affect the Issuer's operating results.

There is also a potential for increased regulation of certain food establishments in the United States, where compliance with a Hazard Analysis and Critical Control Points ("HACCP") approach would be required. HACCP refers to a management system in which food safety is addressed through the analysis and control of potential hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product.

---

#### Intellectual Property Risks

The Issuer's intellectual property is material to conducting business. The Issuer's success depends in part on furthering brand recognition using its trademarks, service marks, trade dress, trade secrets and other proprietary intellectual property, including its name, logos and unique ambience of its stores. The Issuer has taken efforts to protect its brand, but if its efforts are inadequate, or if any third party misappropriates or infringes on the Issuer's intellectual property, the value of the store brand or consumer products brand may be harmed, which could have a material adverse effect on the business. There are no material claims against us from prior users of intellectual property, but there can be no assurances that the Issuer will not encounter any material claims in the future. If this happens, it could harm the Issuer's image, brands or competitive position and cause the Issuer to incur significant penalties and costs.

---

#### Accounting Risks

Changes to existing accounting rules or regulations may impact the Issuer's future results of operations or cause the perception that the Issuer is more highly leveraged. Other new accounting rules or regulations and varying interpretations of existing accounting rules or regulations have occurred and may occur in the future. For example, accounting regulatory authorities have indicated that they may begin to require lessees to capitalize operating leases in their financial statements for the next few years. If adopted, such change would require the Issuer to record significant capital lease obligations on its balance sheet and make other changes to its financial statements. This and other future changes to accounting rules or regulations may impact the Issuer's future operating results.

---

#### Information Technology Risks

The Issuer relies heavily on information systems, such as point-of-sale processing, for management of the Issuer's supply chain, payment of obligations, collection of cash, credit and debit card transactions and other processes and procedures. The Issuer's ability to efficiently and effectively manage its business depends significantly on the reliability and capacity of these systems. The Issuer's operations depend on its ability to protect its computer equipment and systems against damage from physical theft, fire, power loss, telecommunications failure or other catastrophic events, as well as from internal and external security breaches, viruses and other disruptive problems. The failure of these systems to operate effectively, maintenance problems, upgrading or transitioning to new platforms, expanding the Issuer's systems or a breach in security of these systems could result in delays in guest service and reduce operational efficiency. Remediation of such problems could result in significant, unplanned capital investments.

---

#### Environmental Risks

The Issuer is subject to national, state and local laws and regulations in the U.S. concerning waste disposal, pollution, protection of the environment, and the presence, discharge, storage, handling, release and disposal of, and exposure to, hazardous or toxic substances. These environmental laws provide for significant fines and penalties for noncompliance and liabilities for remediation, sometimes without regard to whether the owner or operator of the property knew of, or was responsible for, the release or presence of hazardous toxic substances. Third parties may also make claims against owners or operators of properties for personal injuries and property damage associated with releases of, or actual or alleged exposure to, such hazardous or toxic substances at, on or from the Issuer's business. Environmental conditions relating to releases of hazardous substances at the Issuer's site could materially adversely affect the business, financial condition and results of operations. Further, environmental laws, and the administration, interpretation and enforcement thereof, are subject to change and may become more stringent in the future, each of which could materially adversely affect the Issuer's business, financial condition and results of operations.

---

#### Alcohol Investment Risks

Alcohol beverage control regulations may limit an investor's ability to hold interests in the Issuer. For example, California laws and regulations generally do not allow a person from holding financial interests in both manufacturers and distributors of alcoholic beverages and retailers of alcoholic beverages, and local regulators may require disclosure of investors' personal information to verify their eligibility to invest in the Issuer. In the event that California laws and regulations do not allow an investor to hold the Securities, such investor may be required to transfer its interests in the Securities to the Issuer as described in the NPA. If a number of investors are ineligible to hold the Securities, it could materially adversely affect the Issuer's financial condition.

---

#### Alcohol Sale Risks

The Issuer is subject to alcoholic beverage control regulations that govern various aspects of daily operations of the business, including the minimum age of guests and employees, hours of operation, advertising, wholesale purchasing and inventory control, handling and storage. Any failure by the Issuer to obtain and maintain, on a timely basis, liquor or other licenses, permits or approvals required to serve alcoholic beverages or food, as well as any associated negative publicity, could delay or prevent the opening of, or adversely impact the viability of, and could have an adverse effect on, the business and its operating and financial performance. Because of the many and various state and federal licensing and permitting requirements, there is a risk that one or more regulatory agencies could determine that the Issuer has not complied with applicable licensing or permitting regulations or have not maintained the approvals necessary to conduct business within its jurisdiction. The Issuer is subject to state "dram shop" laws, which generally allow a person to sue the Issuer if that person was injured by an intoxicated person who was wrongfully served alcoholic beverages at the Issuer's. A judgment against the Issuer under a dram shop law could exceed the Issuer's liability insurance coverage policy limits and could result in substantial liability and materially adversely affect the Issuer's results of operations. The Issuer's inability to continue to obtain such insurance coverage at reasonable cost could also have a material adverse effect on operations. Regardless of the validity of the claims, the Issuer could be adversely affected by negative publicity resulting from such laws.

---

#### Legal Risks

Food service businesses can be adversely affected by litigation and complaints from customers or government authorities resulting from food quality, health claims, allergens, illness, injury or other health concerns or operating issues stemming from one or more retail locations. Negative publicity about these allegations may negatively affect the Issuer, regardless of whether the allegations are true, by discouraging customers from patronizing the Issuer. The Issuer may also be impacted by industry trends in litigation, including class-action allegations brought under various consumer protection laws, securities and derivative lawsuits claiming violations of state and federal securities law, and employee lawsuits, including wage and hour claims. Due to the inherent uncertainties of litigation and regulatory proceedings, the Issuer cannot accurately predict the outcome of any such proceedings. An unfavorable outcome could have a material adverse impact on the Issuer's business, financial condition and results of operations. Further, regardless of outcome, these proceedings could result in substantial costs and may require resources of the Issuer be used to defend any claims.

---

#### Required Nutritional Disclosure Risks

Government regulation and consumer eating habits may impact the Issuer's business as a result in changes in attitudes regarding diet and health or new information regarding the health effects of consuming the Issuer's menu offerings. These changes have resulted in, and may continue to result in, the enactment of laws and regulations that impact the ingredients and nutritional content of the Issuer's menu offerings, or laws and regulations requiring the Issuer to disclose the nutritional content of its food offerings. Compliance with current and future laws and regulations regarding the ingredients and nutritional content of the Issuer's menu items may be costly and time consuming. Additionally,

government authorities may increase regulations regarding trans-fats and sodium, which may require the Issuer to limit or eliminate trans-fat and sodium in the menu offerings, switch to higher cost ingredients or may hinder the Issuer's ability to operate. The Issuer cannot make any assurances regarding its ability to effectively respond to changes in consumer health perceptions or successfully implement the nutrient content disclosure requirements or menu-labeling laws, which could have an adverse effect on the Issuer's results of operations and financial position.

#### Food Safety Risks

The Issuer considers food safety a top priority and dedicates substantial resources toward ensuring that customers enjoy high-quality, safe products. However, food tampering, employee hygiene and cleanliness failures or improper employee conduct at the Issuer's business could lead to product liability or other claims. Instances of food-borne illnesses, whether real or perceived, and whether at the Issuer's store or those of competitors, could harm customers and otherwise result in negative publicity about the Issuer or the products the Issuer serves, which could adversely affect revenue. If customers become ill from food-borne illnesses, the Issuer could be forced to temporarily close. In addition, the Issuer may have different or additional competitors for intended customers as a result of such changes and may not be able to compete successfully against those competitors. Food safety concerns may also adversely affect the price and availability of those affected ingredients and cause customers to shift their preferences. A decrease in customer traffic as a result of these health concerns or negative publicity, or as a result of a change in menu or customer experience or a temporary closure of the store, could materially and adversely impact the business's financial condition and results of operations. A number of pandemic scares related to a variety of raw food ingredients, including meats, fruits and vegetables, have recently caused concern among consumers and health care officials. One or more such outbreaks of such food related illnesses, whether pandemic or isolated, may adversely affect the consumer demand for certain foods and consequently negatively impact the operations and profitability of the Issuer, regardless of the quality and safety of products offered by the Issuer.

#### Industry Risks

The Issuer will face significant competition from other restaurants and bars, which could adversely affect business and financial performance. The restaurant and spirits industry is characterized by the continual introduction of new concepts and is subject to rapidly changing consumer preferences, tastes and dining habits. The restaurants and spirits industry in the San Diego area is highly competitive in terms of type and quality of food, beverages, quality of service, restaurant location, atmosphere and price.

#### Development Risk

The Issuer's dependence on development exposes the Issuer to timing, budgeting and other risks. New project development has a number of risks, including risks associated with:

- construction delays or cost overruns that may increase project costs;
- receipt of zoning, occupancy and other required governmental permits and authorizations from local governmental agencies, which are issued at the discretion of the issuing authority with no guaranty that all licenses and permits applied for by the Issuer will be issued;
- development costs incurred for projects that are not pursued to completion;
- so-called acts of God such as earthquakes, hurricanes, floods or fires that could adversely impact a project;
- defects in design or construction that may result in additional costs to remedy or require all or a portion of a property to be closed during the period required to rectify the situation;
- ability to raise capital; and
- governmental restrictions on the nature or size of a project or timing of completion.

The Issuer cannot assure you that any development project will in fact be developed, and, if developed, the time period or the budget of such development may be greater than initially contemplated.

#### Real Estate Risks

The Issuer is planning to open in San Diego area. There is no guarantee that this site will remain suitable, or that the business will be operated profitably. The Issuer depends on cash flow from operations to pay lease obligations and to fulfill other cash requirements. If the business does not generate sufficient cash flow and sufficient funds are not otherwise available to the Issuer from other sources, the Issuer may not be able to meet its lease obligations, grow the business, respond to competitive challenges or fund its other liquidity and capital needs, which would have a material adverse effect on the Issuer. The Issuer is leasing its business location and is subject to any penalties that may result from a violation of the lease terms, such as early lease cancellation. The current location of the store may become unattractive as demographic patterns change. The Issuer may fail to negotiate renewals of the lease, either on commercially acceptable terms or at all, which could require the Issuer to close a store in a desirable location. Negative effects on the Issuer's landlord due to any inaccessibility of credit and other unfavorable economic factors may, in turn, adversely affect the Issuer's business and results of operations. If the Issuer's landlord is unable to obtain financing or remain in good standing under their existing financing arrangements, they may be unable to provide construction contributions or satisfy other lease covenants with the Issuer. If the landlord files for bankruptcy protection, the landlord may be able to reject the Issuer's lease in the bankruptcy proceedings. While the Issuer may have the option to retain its rights under the lease, the Issuer may not be able to compel the landlord to perform any of its obligations and would be left with damages as the sole recourse. In addition, if the landlord is unable to obtain sufficient credit to continue to properly manage its retail site, the Issuer may experience a drop in the level of quality of such retail center. The Issuer may be adversely affected by the negative financial situations of developers and landlords.

#### Financing Risks

The Issuer has not yet commenced operations and has not generated any revenue to date. In order to begin business operations, the Issuer will need to incur expenses related to the development of the planned service, expenses related to the acquisition of certain supplies, expenses related to the opening of the first planned location, and other start-up costs. Accordingly, if the Issuer does not obtain additional financing, including the financing sought in this offering, the business will likely fail.

#### Operational Risks

The Issuer's business operations require processing and/or maintaining certain personal, business and financial information about customers, vendors and employees. The use of such information by the Issuer is regulated by federal and state laws, as well as certain third party agreements. If the Issuer's security and information systems are compromised or if employees fail to comply with the applicable laws and regulations, and this information is obtained by unauthorized persons or used inappropriately, it could adversely affect the Issuer's reputation and result in litigation and settlement costs, damage awards or penalties and fines. As privacy and information security law and regulations change, the Issuer may incur additional costs to ensure compliance.

#### Supply and Delivery Cost Risks

Supplies and prices of the various products used in the goods that the Issuer offers can be affected by a variety of factors, such as weather, seasonal fluctuations, demand, politics and economics in the producing regions. These factors may subject the Issuer to shortages or interruptions in product supplies, which could adversely affect revenue. The Issuer does not have control over the businesses of its vendors, suppliers and distributors, and its efforts to specify and monitor the standards under which they perform may not be successful. Higher diesel and gasoline prices may affect supply or transportation costs and may affect the Issuer's profitability. If the Issuer has long-term purchase commitments in excess of what the Issuer needs due to a decline in demand, this may also adversely affect profitability. Furthermore, certain supplies may be perishable, and the Issuer has limited control over whether those items will be delivered in an appropriate condition for use in its business. If any of the Issuer's vendors, suppliers or distributors are unable to fulfill their obligations to the Issuer's standards, or if a replacement provider cannot be found in the event of a supply or service disruption, the Issuer could encounter supply shortages and incur higher costs to secure adequate supplies, which could materially adversely affect the Issuer's business, financial condition and results of operation. A number of pandemic scares related to a variety of raw food ingredients, including meats, fruits and vegetables, have recently caused concern among consumers and health care officials. One or more such outbreaks of such food related illnesses, whether pandemic or isolated, may adversely affect the consumer demand for certain foods and consequently negatively impact the operations and profitability of the Issuer, regardless of the quality and safety of products offered by the Issuer.

#### Market Conditions

The Issuer's success depends to a significant degree on numerous factors affecting discretionary consumer spending, including general economic conditions, disposable consumer income and consumer confidence. The Issuer will cater to both business and social guests.

Accordingly, cost-conscious consumers may reduce their level of discretionary spending during economic turmoil or periods of uncertainty. Any material decline in the amount of discretionary spending could have a material adverse effect on our revenue, results of operations, business and financial condition. The Issuer's sales are also dependent on foot traffic and sales in a specific location. If the foot traffic in the area declines, or the Issuer is forced to move its operations to a different location, revenues may be negatively impacted. The Issuer's success also depends on the popularity of our menu offerings and the overall dining experience provided to guests. Any shift in consumer preferences away from the Issuer's business concept could negatively affect financial performance.

#### Labor Supply Risks

A primary component of the Issuer's operations is labor. The Issuer competes with other employers in the market for hourly workers and may be subject to higher labor costs as a result of such competition. The Issuer devotes significant resources to recruiting and training team members, as its success depends, in part, upon its ability to attract, motivate and retain qualified employees in restaurants & bars, including chefs and bar managers. If the Issuer is unable to recruit and retain sufficiently qualified personnel, the business and its growth could be adversely affected. Any material increases in employee turnover rates or any employee dissatisfaction could have a material adverse effect on the Issuer's business and results of operations. The Issuer may sustain an increase in operating costs if it pays increased compensation or benefits to its employees. The Issuer must follow various federal and state labor laws, including but not limited to employee classifications as exempt or non-exempt, unemployment tax rates, workers' compensation rates, citizenship requirements and other wage and benefit requirements for employees classified as non-exempt. The Issuer may be adversely affected by legal or governmental proceedings brought by or on behalf of its employees or guests. Although the Issuer requires all workers to provide government-specified documentation evidencing employment eligibility, some employees may, without the Issuer's knowledge, be unauthorized workers. If any of the Issuer's workers are found to be unauthorized, the Issuer may experience adverse publicity that negatively impacts their ability to hire and keep qualified employees. Termination of a significant number of employees who were unauthorized employees may disrupt the Issuer's operations, cause temporary increases in labor costs as new employees are trained and result in additional negative publicity. The Issuer could also become subject to fines, penalties and other costs related to claims that the Issuer did not fully comply with all record-keeping obligations of federal and state immigration compliance laws. These factors may have a material adverse effect on the Issuer's business, financial condition and results of operations. A significant portion of the Issuer's service staff will be tipped employees and are accordingly paid the minimum wage. State, federal and local legislators have advocated significant increases in the minimum wage during recent years. The Issuer has no control over increases in the minimum wage. However, when the minimum wage is increased, it may be difficult for the Issuer to pass along increased payroll costs to guests due to the competitiveness of the food and beverage service industry. As a result, increases in the minimum wage could have a material adverse impact on the Issuer.

#### Personnel Risks

The success of the business is heavily dependent on the judgment and ability of the members of the Issuer's leadership. If they are unable to attend to the business for health or personal reasons for an extended period of time, the business may suffer. If members of the Issuer's leadership team or other key management personnel leave, the Issuer may have difficulty replacing them, and the business may suffer. There can be no assurance that the Issuer will be able to successfully attract and retain the leadership team and other key management personnel needed.

#### Competition Risks

The market for restaurants, bars & spirits is competitive and the Issuer may need to compete with other established competitors. The Issuer competes with these other businesses on the basis of quality and price of products and/or services offered, atmosphere, location and overall customer experience. The entrance of new competitors into the Issuer's markets could reduce revenue and operating margins. Some competitors may have greater financial and other resources, greater name recognition, more experience in the business and/or better presence in the planned markets. Any inability to compete successfully with competitors, shifts in consumer preferences away from restaurants & bars or the Issuer's inability to develop new products or services that appeal to consumers may negatively affect revenues.

#### Reputational Risks

Adverse publicity concerning restaurants & bars and the business could damage the Issuer's brand and negatively affect the future success of the business. This can take different forms, such as word-of-mouth criticisms, web blogs, social media websites, and other Internet-based communications that allow individuals access to a broad audience of consumers and other interested persons. Many social media platforms immediately publish the content their subscribers and participants can post, often without filters or checks on accuracy of the content posted. There is significant opportunity for dissemination of information, including inaccurate information. Information about the Issuer's business may be posted on such platforms at any time, and may be adverse or inaccurate, either of which may harm the business and the Issuer's financial performance. The harm may be immediate without affording the Issuer an opportunity for redress or correction.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

## The Offering

### USE OF FUNDS

#### 9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

#### 10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

**Use of Proceeds:** If we hit our minimum fundraising target of \$50,000, these funds mainly allow us to keep and expand our existing location while positioning us to purchase the property outright. We're planning to allocate roughly 45% of funds toward acquiring the property, 30% toward expanding and renovating the current location, and 17.5% toward working capital and operating reserves to support that growth. The remaining 7.5% covers Wefunder's platform fee.

If we raise: **\$124,000**

**Use of Proceeds:** If we hit our maximum fundraising target of \$124,000, these funds mainly allow us to keep and expand our existing location while positioning us to purchase both properties outright. We're planning to allocate roughly 40% of funds toward acquiring the two properties, 28% toward expanding and renovating the current location, and 24.5% toward working capital and operating reserves to support that growth. The remaining 7.5% covers Wefunder's platform fee. The second property will give us room to grow capacity beyond our current footprint, opening up additional revenue opportunities alongside our existing location

## DELIVERY & CANCELLATIONS

#### 11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an investor's transaction and deliver securities to the investor.

Investor Commitment. The investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the investor will also execute an investment contract with the Company ("Investment Agreement"), using the investor's electronic signature.

**Acceptance of the Investment.** If the Investor Agreement is complete, the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.

**Investor Transfer of Funds.** Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.

**Progress of the Offering.** The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.

**Closing: Original Deadline.** Unless we meet the target offering amount early, investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.

**Early Closings.** If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.

**Book Entry.** Investments may be in book entry form. This means that the Investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investor's "My Investments" screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

## 12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline.

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be canceled and the committed funds will be returned.

An Investor's right to cancel. An investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

## Ownership and Capital Structure

### THE OFFERING

#### 13. Describe the terms of the securities being offered.

The company is issuing promissory notes to investors. The principal amount of each note is the amount invested by the investor. The company will use 8% of its gross revenues to pay back principal on the notes. Each note will be paid back based on its pro rata share of all notes issued in this offering. The company will make interest payments to the investor quarterly. The company may prepay principal and interest at any time. The company will continue payments until investors have received 1.8x their principal investment (the repayment amount), provided however that at any time the company may defer up to 1 such payments upon notice to the Lender.

Investors in the first \$50,000.00 of the fundraise will receive 2.0x their principal.

Upon the occurrence of an event of default (as defined in each note), all unpaid principal, accrued interest and other amounts owing will automatically be immediately due, payable and collectible by the company pursuant to applicable law.

The notes do not provide investors with any voting rights in the company.

See exact security attached as [Appendix B, Investor Contracts](#).

#### 14. Do the securities offered have voting rights?

Yes  
 No

#### 15. Are there any limitations on any voting or other rights identified above?

No Voting Rights

#### 16. How may the terms of the securities being offered be modified?

Pursuant to authorization in the Investor Agreement between each investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and

Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

#### Restrictions on Transfer of the Securities Being Offered:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities are first sold to the investor.

securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

#### Description of Issuer's Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Authorized	Outstanding	Voting rights
Class of Security	Total Pool	Issued	
Warrants	—		
Options	—	—	

Describe any other rights:

N/A

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights in the company, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering). These decisions could affect gross revenues and diminish payments made to Investors.

Based on the risk that the company may never realize revenues or face a Default Event, the Investor may never see any returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the shareholders may make decisions with which the Investor disagrees, or that negatively affect the gross revenues of the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the shareholders may change the terms of the Operating Agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The shareholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. Shareholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFEs, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be negatively affected.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The value of the promissory notes will be determined by the Company's senior management in accordance with U.S. generally accepted accounting principles. For example, the notes may be valued based on principal plus anticipated interest payments over the course of the term of the note.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the promissory notes holds no position in the Company and will have no voting rights in the Company, and thus will be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its board of directors, and the Investor will have no independent right to name or remove an officer or member of the board of directors of the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

**Additional issuances of securities.** Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

**Issuer repurchases of securities.** The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

**A sale of the issuer or of assets of the issuer.** As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the

Company, or a proportion of a substantial portion of the Company's assets), there can be no guarantee that the funds received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

**Transactions with related parties.** The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

**24. Describe the material terms of any indebtedness of the issuer:**

<p><b>Loan</b> Lender: Caroline White Amount: \$50,000.00 Outstanding principal plus interest: \$50,000.00 as of 7/15/2025 Current with payments: Yes Revenue share, 2.0X payback multiple, 8% of revenue</p>
<p><b>Related party</b> Name: Caroline White</p>
<p><b>Loan</b> Lender: George Apostolopoulos Amount: \$30,000.00 Outstanding principal plus interest: \$30,000.00 as of 7/15/2025 Current with payments: Yes Revenue share, 2.0X payback multiple, 8% of revenue</p>
<p><b>Related party</b> Name: George Apostolopoulos</p>

INSTRUCTION TO QUESTION 24: name the creditor, amount owed, interest rate, maturity date, and any other material terms.

**25. What other exempt offerings has the issuer conducted within the past three years?**

Offering date	Exemption	Security type	Amount sold	Use of proceeds
No exempt offerings.				

**26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:**

- any director or officer of the issuer;
- any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
- if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
- or any immediate family member of any of the foregoing persons.

Yes  
 No

For each transaction specify the person, relationship to issuer, nature of interest in transaction, and amount of interest.

**FINANCIAL CONDITION OF THE ISSUER**

**27. Does the issuer have an operating history?**

Yes

**28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.**

**Management's Discussion and Analysis of Financial Condition and Results of Operations**

**Overview of the Business and Financial Condition**

619 Spirits is a San Diego-based craft distillery and cocktail bar located in North Park. They produce locally distilled spirits using locally sourced infusion ingredients and operate a bar/restaurant serving premium craft cocktails, food, and hosting events.

We are an early-stage company and have incurred operating losses and negative cash flows from operations since inception. We expect to continue to incur operating losses in the near term.

As of June 10, 2026, we had cash and cash equivalents of approximately \$25,000.

Our ability to continue operations is dependent on managing our expenses and, if necessary, obtaining additional financing.

This discussion should be read in conjunction with the financial statements and related notes included in this offering statement.

**Business and Operating Uncertainty**

Our business operates in an environment subject to various risks, uncertainties, and changing conditions, which makes it difficult to evaluate our business, financial condition, and prospects and may limit the comparability of our results of operations from period to period.

**Financial Condition**

As of the date of the financial statements included in this offering statement, our total assets were \$983,491.03 and our current and non-current liabilities, as reflected in available financial statement fields, were \$314,839.38.

Our financial statements reflect an early-stage company with limited operating history. Investors should not place undue reliance on historical financial information given the company's limited operating history and the likelihood that future results will differ from historical results.

**Liquidity and Capital Resources**

As of the date of the financial statements included in this offering statement, we had cash and cash equivalents of approximately \$56,615.26.

Based on our current operations, we have a monthly net cash burn of approximately \$10,000.

Our monthly net cash burn or profit may vary significantly from month to month due to the timing of receipts and expenditures and other short-term factors. As a result, period-to-period comparisons may not be meaningful.

Based on our current plan, we do not expect to have sufficient cash to fund operations for at least the next 12 months. The main drivers of our limited runway include:

Loan, lease, or rent payments

To date, our operations have been funded through minimal cash resources and have not included any external financing. We have also operated with founder contributions of around \$529,000.

#### Liquidity Assumptions

Our assessment of our liquidity and ability to fund operations is not a projection and is based on current assumptions regarding operating expenses, cash requirements, and capital needs. These assumptions may change, and actual results may differ materially due to changes in operating conditions, timing of receipts and payments, and other factors.

#### Dependence on Additional Financing

There can be no assurance that additional financing will be available on acceptable terms, or at all. If we are unable to raise additional capital when needed, we may be required to materially reduce or suspend operations.

#### Indebtedness and Capital Structure

As of the date of this offering statement, we had total outstanding indebtedness consisting of 1 loan and approximately \$139,441.96 in aggregate principal obligations.

We have not conducted any exempt offerings or raised capital in the past three years.

#### Known Trends, Events, and Uncertainties

Management is not currently aware of any known trends, events, or uncertainties that are reasonably likely to have a material adverse effect on our financial condition or results of operations over the next 12 months.

The absence of a discussion of any particular trend, event, or uncertainty should not be interpreted to mean that such matters do not exist; rather, it reflects management's judgment based on information currently available.

#### Changes Since the Date of the Financial Statements

There have been no material changes in our operations or financial condition since the date of the financial statements included in this offering.

#### Impact of This Offering

The proceeds from this offering are expected to be used to build out and open our new location. The timing and extent of our use of proceeds will depend on the amount of proceeds raised and future operating conditions. Additional detail regarding our planned use of proceeds is provided in Item 10 of this Form C.

There can be no assurance that the proceeds of this offering will be sufficient to fund our operations or achieve our business objectives.

Certain information relevant to understanding our financial condition and liquidity is presented elsewhere in this offering statement, including in the financial statements, related notes, and the sections describing indebtedness and prior financings.

#### Forward-Looking Statements

This discussion contains forward-looking statements that are based on management's current expectations and assumptions. Actual results may differ materially from those expressed or implied by these statements.

- (4) Is any such person subject to an order of the Commission entered pursuant to Section 15(b) or 15B(c) of the Exchange Act or Section 203(e) or (f) of the Investment Advisers Act of 1940 that, at the time of the filing of this offering statement:
  - i. suspends or revokes such person's registration as a broker, dealer, municipal securities dealer, investment adviser or funding portal?  Yes  No
  - ii. places limitations on the activities, functions or operations of such person?  Yes  No
  - iii. bars such person from being associated with any entity or from participating in the offering of any penny stock?  Yes  No
- (5) Is any such person subject to any order of the Commission entered within five years before the filing of this offering statement that, at the time of the filing of this offering statement, orders the person to cease and desist from committing or causing a violation or future violation of:
  - i. any scienter-based anti-fraud provision of the federal securities laws, including without limitation Section 17(a)(1) of the Securities Act, Section 10(b) of the Exchange Act, Section 15(c)(1) of the Exchange Act and Section 206(1) of the Investment Advisers Act of 1940 or any other rule or regulation thereunder?  Yes  No

II. Section b of the Securities Act:  Yes  No

(6) Is any such person suspended or expelled from membership in, or suspended or barred from association with a member of, a registered national securities exchange or a registered national or affiliated securities association for any act or omission to act constituting conduct inconsistent with just and equitable principles of trade?  Yes  No

(7) Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued?  Yes  No

(8) Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations?  Yes  No

If you would have answered "Yes" to any of these questions had the conviction, order, judgment, decree, suspension, expulsion or bar occurred or been issued after May 16, 2016, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

#### OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not misleading.

All information presented to investors hosted on Wefunder.com is available in Appendix A: Business Description & Plan

#### ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<https://619spirts.com/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million; or

Wefunder Portal will review the information you provide before we agree to submit a Form C to the SEC. Our review is designed to assess whether the information you have provided is complete and not inaccurate, misleading or otherwise fraudulent. Despite our review, the company submitting this Form C may be held responsible for all

information provided through it, and for ensuring that the information it submits is not false or misleading in any material way and does not omit any information that would cause the information included to be false or misleading. By submitting your Form C to us, you acknowledge this. You also agree to provide any additional information or clarification we may request from you so that the Form C we submit on your behalf, in our reasonable, good faith review, does not contain incorrect information. Wefunder Portal will not submit a Form C that we believe, in our sole discretion, omits material information or contains false or misleading information. As a result, there is no guarantee that we will submit a Form C on your behalf.

*Intentional misstatements or omissions of facts constitute federal criminal violations. See 18 U.S.C. 1001.*

*The issuer certifies that it has established means to keep accurate records of the holders of the securities it would offer and sell through the Form C.*

*Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned.*

I authorize Wefunder Portal to submit a Form C to the SEC based on the information I provided through this online form and my company's Wefunder profile.

As an authorized representative of the company, I appoint Wefunder Portal as the company's true and lawful representative and attorney-in-fact, in the company's name, place and stead to make, execute, sign, acknowledge, swear to and file a Form C, any future non-material Form C-A, any future Form C-U, and any future Form C-W on the company's behalf. This power of attorney is coupled with an interest and is irrevocable. The company hereby waives any and all defenses that may be available to contest, negate or disaffirm the actions of Wefunder Portal taken in good faith under or in reliance upon this power of attorney.

Before you click on the button below, please review the information you have provided carefully.

We strongly recommend you have your company's lawyer review the information as well. The company submitting this Form C is responsible for all information provided through it, and for ensuring that the information it submits is not false or misleading in any material way and does not omit any information that would cause the information included to be false or misleading.

I verify the Form C is 100% accurate
