Graphic Design

Greencastle, Pennsylvania, United States

## Summary

With over 25 years as a graphic designer in the printing industry, I've had opportunities to work with a large spectrum of clients and industries as well a wide variety of projects including print, digital and visual design. I assist my customers from creation to completion, whether a logo design, wedding invitation or an annual report. I look at everything as a puzzle and enjoy putting the pieces together to create interesting, balanced and creative projects. I have strong morals and a peaceful personality with a heart for animals and helping people. I enjoy traveling and love trying unique cuisine.
