Report of Independent Registered Public Accounting Firm

To the Member of
Avior Capital Markets US, LLC

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Avior Capital Markets US, LLC (the “Company”) as of April 30, 2026, and the related notes (collectively referred to as the “financial statement”). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of Avior Capital Markets US, LLC as of April 30, 2026 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

Ernst Winter & Associates LLP

We have served as Avior Capital Markets US, LLC’s auditor since 2021.

The accompanying notes are an integral part of these financial statement.

Note 1 - Organization and Nature of Business

Avior Capital Markets US, LLC (the “Company”) was incorporated in Delaware on February 1, 2019. The Company is a broker-dealer registered with the U.S Securities and Exchange Commission (the “SEC”). The Company became a member of the Financial Industry Regulatory Authority (“FINRA”) effective March 19, 2020 and is a member of the Securities Investor Protection Corp (“SIPC”). The Company is a wholly owned subsidiary of Avior Capital Markets International, Ltd. (the "Parent"). The Company operates out of its sole office in New York City. The Company provides services to affiliates and non-affiliated broker dealers in distributing research reports to qualified institutional buyers (“QIBs”) in the United States of America (“U.S”). The Company earns chaperoning service fees in its capacity to effect securities transactions with these QIBs pursuant to the requirements set forth in SEC Rule 15a-6 “Exemption of Certain Foreign Brokers or Dealers”. The Company is also a member of the Depository Trust & Clearing Corporation (“DTCC”) and facilitates the settlement of securities transactions on behalf of its affiliates.

Note 2 – Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of this financial statement is set out below.

Basis of presentation

The financial statement has been prepared in accordance with, and in compliance with, accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of estimates

The preparation of this financial statement in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Fair Value of Financial Instruments

Unless otherwise indicated, the fair values of all reported assets and liabilities that represent financial instruments (none of which are held for trading purposes) approximate the carrying values of such amounts.

Cash and Cash Equivalents

The Company considers all demand deposits held in banks and certain highly liquid investments with original maturities of three months or less, other than those held for sale in the ordinary course of business, to be cash equivalents. As of April 30, 2026, there were no cash equivalents held by the Company.

Note 2 Summary of Significant Accounting Policies (continued)

Accounts Receivable

Accounts receivable represents amounts that have been billed to clients in accordance with the Company's chaperoning agreements with respective clients that have not yet been collected. The Company accounts for estimated credit losses on financial assets measured at an amortized cost basis in accordance with FASB ASC 326-20, Financial Instruments – Credit Losses. FASB ASC 326-20 requires the Company to estimate expected credit losses over the life of its financial assets as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts.

The Company records the estimate of expected credit losses as an allowance for credit losses. For financial assets measured at an amortized cost basis the allowance for credit losses is reported as a valuation account on the Statement of Financial Condition that is deducted from the asset's amortized cost basis. Changes in the allowance for credit losses are reported as credit loss expense on the Statement of Income. Per management's analysis, no allowance for credit losses was considered necessary as of April 30, 2026.

Income Taxes

The Company follows an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to have an effect on taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized. As of April 30, 2026, deferred income taxes were not material.

The determination of the Company's provision for income taxes requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. Significant judgment is required in assessing the timing and amounts of deductible and taxable items and the probability of sustaining uncertain tax positions. The benefits of uncertain tax positions are recorded in the Company's financial statement only after determining a more-likely-than-not probability that the uncertain tax positions will withstand challenge, if any, from tax authorities. When facts and circumstances change, the Company reassesses these probabilities and records any changes in the financial statement as appropriate. Accrued interest and penalties related to income tax matters are classified as a component of income tax expense.

In accordance with U.S. GAAP, the Company is required to determine whether a tax position of the Company is more-likely-than-not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position.

The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized could result in the Company recording a tax liability that would reduce member's equity. This policy also provides guidance on thresholds, measurement, derecognition, classification, interest and penalties,

Note 2 Summary of Significant Accounting Policies (continued)

Income Taxes (continued)

accounting in interim periods, disclosure, and transition that is intended to provide better financial statement comparability among different entities. Management's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof. The Company files its income tax returns in the U.S. federal and various state and local jurisdictions and has elected to be taxed as a corporation. Generally, the Company is subject to income tax examinations by major taxing authorities. Any potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with U.S. federal, state, local and foreign tax laws. The Company recognizes and measures unrecognized tax benefits in accordance with FASB ASC 740, "Income Taxes". Under the guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon the examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change. At April 30, 2026, management has determined that the Company had no uncertain tax positions that would require financial statement recognition.

Leases

The Company determines if an agreement constitutes a lease and, if so, whether the lease is an operating or finance lease. Operating leases that exceed one year are included in operating lease right-of-use ("ROU") assets and operating lease liabilities on the Statement of Financial Condition. Finance leases that exceed one year are included in property and equipment and other liabilities. As of April 30, 2026, there were no finance leases.

Segment Reporting

The Company operates as a single reportable segment, focusing on broker dealer activities, mainly investment banking services. All material financial information, including revenue, expenses, and assets, is reviewed and managed by the Company's Chief Operating Decision Maker (CODM). The Company has identified the CEO as the CODM. As a result of operating as a single segment entity, the Company's financial statement reflects its overall performance without disaggregation into multiple segments.

Note 3 – Revenue from Contracts with Customers

In accordance with ASU No. 2014-09, "Revenue from Contracts with Customers" ("ASC Topic 606") revenue is recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the entity expects to be entitled in exchange for those goods or services. ASC Topic 606 requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and recognize revenue when (or as) the

Note 3 – Revenue from Contracts with Customers (continued)

entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that is probable that a significant reversal in the amount of the cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. The revenue recognition guidance does not apply to revenue associated with financial instruments, interest income and expense, leasing and insurance contracts.

Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

The Company earns fee revenue for providing chaperoning services to clients executing securities transactions with an affiliate and non-affiliated foreign broker dealers of the Company. The Company satisfies its performance obligations over time, which is typically monthly by performing required services in accordance with Rule 15a-6 of the SEC. The Company earns facility fee revenue from its Parent for providing monthly chaperoning services pursuant to Rule 15a-6 of the SEC. The Company's service fee is determined based upon specified monthly expenses incurred by the Company plus a mark-up of 5%.

The Company's chaperoning and service fees are typically billed on a monthly basis.

The Company provides research services to its clients which are typically billed on a periodic basis. The performance obligations include access to research reports and access to research analysts. Revenue is recognized on a contractual milestone basis when performance obligations are met.

Contract Balances

Income is recognized upon completion of the related performance obligation and when an unconditional right to payment exists. The timing of revenue recognition may differ from the timing of customer payments. A receivable is recognized when a performance obligation is met prior to receiving payment by the customer. Receivables related to revenue from contracts with customers totalled \$12,747 and \$10,532 as of May 1, 2025 and April 30, 2026, respectively.

Alternatively, fees received prior to the completion of the performance obligation are recorded as deferred revenue on the Statement of Financial Condition until such time when the performance obligation is met. Deferred revenue totalled \$13,500 and \$0 as of May 1, 2025 and April 30, 2026, respectively.

Note 4 – Leases

Operating lease ROU assets represent the Company's right to use an underlying asset for the lease term. Lease liabilities represent the Company's obligation to make lease payments arising from the operating lease. Operating lease ROU assets and liabilities are recognized at the commencement date based on the present value of lease payments over the lease term. Payments made for lease incentives are excluded.

Note 4 – Leases (continued)

The incremental borrowing rate in the lease agreement is 3.722%. The Company's lease terms may include options to extend or terminate the lease when it is reasonably certain that the Company will

exercise that option. As of April 30, 2026, no such option to extend existed. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

The Company has a lease agreement with lease and non-lease components such as a security deposit. Such non-lease components are accounted for separately.

The Company entered into an operating lease agreement for office space in New York in August 2022 which expired on December 31, 2025. In May 2025, the Company signed a lease amendment which extended the original lease period through April 30, 2026. In December 2025, the Company signed a second amendment to the original lease agreement. The lease expires on October 31, 2031. For the year ended April 30, 2026, information pertaining to the lease was as follows:

ROU asset on May 1, 2025	\$ 91,413
Remeasurement increase of ROU Asset	52,228
Remeasurement of ROU Asset	715,564
Amortization of ROU Asset	(140,404)
ROU asset as of April 30, 2026	<u>\$ 718,801</u>
Payments made on operating lease liability	\$ 154,336
Remaining lease term	66 months
Discount rate	3.722%

Maturities of Operating Lease Liability

For the year ended April 30, 2027	\$ 79,712
For the year ended April 30, 2028	159,424
For the year ended April 30, 2029	159,424
For the year ended April 30, 2030	159,424
For the year ended April 30, 2031	159,424
Thereafter	79,712
Less discount	(81,962)
Total operating lease liability	<u>\$ 715,158</u>

Note 5 - Related Party Transactions

Effective April 1, 2020 the Company entered into a “Cost Plus Agreement” with its Parent and Avior Capital Markets Proprietary Limited, an affiliate. As explained in Note 1, the primary purpose of the Company is to enable distribution of research into the USA among QIBs and to enable trading and settlement activities between its Parent and U.S. QIBs. The Company charges 100% of all of its costs, not including interest expense, incurred plus a 5% mark up to its Parent for services provided. This amounted to \$1,433,754 for the year ended April 30, 2026 and is shown in the Statement of Income as Facility service fee. The Company had a receivable from Parent on the Statement of Financial Condition at April 30, 2026 of \$396,751.

The Company facilitates arbitrage transactions through the DTCC on behalf of its affiliates. The Company does not earn commissions on these transactions.

The Company has a \$100,000 loan from Parent subordinated to claims of general creditors. The loan was approved by FINRA on November 4, 2021 and has an expiration date of November 27, 2026. The loan had a rate of 8% payable annually through the expiration of the loan, however an amendment was signed in May, 2025 decreasing the loan interest rate to 4% payable annually through to expiration.

The Company has a \$850,000 loan from Parent subordinated to claims of general creditors. The loan was approved by FINRA on December 5, 2022 and has an expiration date of December 5, 2028. The loan had a rate of 8% payable annually through the expiration of the loan, however an amendment was signed in May, 2025 decreasing the loan interest rate to 4% payable annually through to expiration.

The Company has a \$3,000,000 loan from Parent subordinated to claims of general creditors. The loan was approved by FINRA on February 28, 2025 and has an expiration date of February 28, 2028. The loan had a rate of 8% payable annually through the expiration of the loan, however an amendment was signed in May, 2025 decreasing the loan interest rate to 4% payable annually through to expiration.

The Company has a \$2,500,000 loan from Parent subordinated to claims of general creditors. The loan was approved by FINRA on July 23, 2025 and has an expiration date of February 28, 2028. The loan has a rate of 4% payable annually through the expiration of the loan.

Maturities of Subordinated debt

For the year ended April 30, 2027	\$ 100,000
For the year ended April 30, 2028	5,500,000
For the year ended April 30, 2029	850,000
For the year ended April 30, 2030	0
For the year ended April 30, 2031	0
Total subordinated debt	\$6,450,000

Note 6 - Retirement Plan

The Company sponsors a 401(k) plan that was established in May 2023. The plan allows employees to elect to defer a percentage of compensation each year through salary reduction contributions to the plan. The plan does not permit matching contributions from the Company. The plan permits discretionary nonelective profit sharing contributions from the Company. For the year ended April 30, 2026, there were no discretionary nonelective profit sharing contributions.

Note 7 – Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule 15c3-1. This rule requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1, and that member's equity may not be withdrawn if the resulting net capital ratio would exceed 10 to 1.

At April 30, 2026, the Company's net capital was \$7,132,933 which was \$6,882,933 in excess of its minimum requirement of \$250,000 under SEC Rule 15c3-1. The Company's net capital ratio was .0025 to 1.

The Company qualifies under the exemptive provisions of Rule 15c3-3 under sub-paragraph k(2)(i) as the Company does not carry security accounts for customers or perform custodial functions related to customer securities.

Note 8 – Income Taxes

In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures ("ASU 2023-09"). ASU 2023-09 enhances the transparency and usefulness of income tax disclosures by requiring greater disaggregation in the effective tax rate reconciliation, additional disclosures regarding income taxes paid, and disaggregation of income (or loss) and income tax expense (or benefit) by jurisdiction. The adoption of ASU 2023-09 did not have a material impact on the Company's financial statement.

Note 9 - Commitments and Contingencies

The Company is subject to various regulatory examinations that arise in the ordinary course of business. In the opinion of management, results of these examinations will not materially affect the Company's financial position or results of operations.

Note 10 - Risk Concentrations

Financial instruments that potentially subject the Company to significant concentration of credit risk consist principally of cash. For the year ended April 30, 2026, the Company maintains cash balances which, at times, may exceed federally insured limits. The Company has not experienced losses on its cash deposits.

Note 11 - Subsequent Events

Management has evaluated the Company's events and transactions that occurred subsequent to April 30, 2026, through July 24, 2026 the date of issuance of this financial statement. There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Company's financial statement.
