Vote now for a better **\$BETR**.

539

BETR team here, the green cards for most of the holders only went out physically early this week and are in mailboxes starting yesterday. Need to give those folks time to get their vote in. Company, board and Daniel have put roadblocks every step of the way. It's ok, that is their right to do so - but they are doing it with BETR's money.

I am fighting this with my money and solely my money - for all shareholders.

And yes deadline is Oct 20. We set milestones to encourage all shareholders to end this madness sooner than that.

But as long as we make progress every day and get new votes in every day - we can and we will go to the deadline to get this done.

Do you believe Daniel's plan will get the stock price back to where it was pre-August 3 anytime soon. Just let that sit in.

I have spoken to a few big institutions and you know what they did on August 4, they sold their entire position. Why do you think they did that?

Because with Daniel there is no growth story. So zoom out, read the decks I have shared with an open mind. And then vote. And we can all accept whatever happens or doesn't by Oct 20.

Thank you all.
