Business and Anticipated Business Plan

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer. ⓘ

Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

For a description of our business and our business plan, please refer to the attached [Appendix A, Business Description & Plan](#).

RISK FACTORS

8. Discuss the material factors that make an investment in the issuer speculative or risky: ⓘ

A crowdfunding investment involves risk. Investors should not invest any funds unless they can afford to lose the entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

Highly competitive industry. We compete with large, well-capitalized incumbents and numerous emerging brands on price, taste, nutrition profile, convenience, branding, and distribution. Competitors may copy product concepts rapidly.
Pricing and margin pressure. Grocery and e-commerce categories are price-sensitive. Promotional activity, discounting, and retailer/wholesaler chargebacks may compress margins.
Product portfolio execution risk. We may fail to launch on time, secure distribution, maintain flavor/texture consistency at scale, or hit targeted gross margins.
Expansion into third-party retail may not succeed. Retailers may require slotting fees, promotional allowances, favorable payment terms, return rights, or category performance thresholds that we cannot meet.
Food safety and quality risks. As a food company, we face risks of contamination, adulteration, mislabeling, spoilage, and allergen cross-contact. Any recall or advisory could be costly and damage our brand.
Compliance with food regulations. We must comply with federal, state, and (if applicable) local and international regulations relating to

food manufacturing, labeling, facility registration, cGMPs, Hazard Analysis/Risk-Based Preventive Controls, and traceability. Non-compliance could lead to fines, enforcement actions, recalls, product seizures, or facility shutdowns.

Claims and labeling risk. Health, nutrition, and “free-from” claims (e.g., “high-protein,” “no added sugar,” “natural,” “clean,” “non-GMO,” “gluten-free,” etc.) require substantiation and precise labeling. Errors or challenged claims can result in litigation (including class actions), regulatory action, or retailer de-listing.

Allergen management. Failure to identify, label, and manage major allergens could cause severe consumer harm and lead to recalls and liability.

Proposition 65 and similar state laws. If our products are sold in states with warning-label regimes or specific contaminants thresholds, we may face additional testing, labeling, and litigation risk.

Evolving regulatory landscape. Rules, guidance, or enforcement priorities relating to food ingredients, novel proteins, sweeteners, fortification, or marketing (including for children) may change, increasing costs or limiting claims we can make.

International sales complexity. If we sell outside the U.S., we will face import/export rules, customs delays, tariffs, and country-specific labeling and ingredient restrictions.

Reliance on contract manufacturers. We do not own manufacturing facilities and depend on third parties for capacity, quality, scheduling, certifications, and compliance. Disputes, capacity constraints, labor issues, equipment failure, or loss of a co-manufacturer could disrupt supply.

Limited or no exclusivity. Our manufacturers may also produce for competitors. We may not secure favorable exclusivity, MOQs, or lead times, and may face unexpected price increases.

Ingredient availability and volatility. Prices and availability for proteins, grains, sweeteners, flavors, and packaging can fluctuate due to crop yields, geopolitical events, transportation costs, energy prices, or supplier concentration.

Scale-up risk. Formulations that work in pilot runs may not scale consistently, leading to quality variance, yield loss, or increased costs.

Shelf life and waste. Perishability or shorter shelf life may lead to write-offs, returns, and margin erosion, particularly in new retail doors or seasonal windows.

Third-party logistics dependency. We rely on 3PLs and parcel carriers. Carrier surcharges, strikes, service interruptions, or fuel price volatility could increase costs or delay deliveries.

Dependence on online and social channels. We expect to rely heavily on e-commerce platforms, social media, and digital advertising. Algorithm changes, policy shifts, account suspensions, or increased ad costs could impair customer acquisition.

Influencer and affiliate marketing risk. We anticipate using influencers/creators whose statements must comply with advertising and disclosure rules. Misstatements, failure to disclose, reputational issues, or contract disputes could harm the brand and lead to regulatory scrutiny.

Claims substantiation and advertising law. We must substantiate express and implied claims in ads, landing pages, and influencer content. Failure to do so could lead to enforcement or litigation.

Data-driven marketing headwinds. Privacy changes (e.g., mobile OS and browser tracking limitations) can reduce ad targeting effectiveness and increase customer acquisition cost (CAC).

Customer concentration and churn. Sales may rely on a small number of channels, campaigns, or retailer accounts. Loss or underperformance of any key channel could materially affect results.

Website and platform reliability. Outages, cyberattacks, or failures of our website, e-commerce stack, payment processors, or inventory systems could disrupt sales and damage trust.

Reputational risk. Negative reviews, social media backlash, or product comparisons may spread rapidly and be difficult to remediate.

Data protection and privacy compliance. We collect consumer data and must comply with evolving federal and state privacy laws and payment security standards. Breaches or non-compliance can lead to fines, liability, and reputational harm.

Third-party dependencies. We rely on SaaS vendors, ad platforms, and analytics tools. Term changes, pricing, or outages may impair operations.

Protection of proprietary formulations and know-how is uncertain. Our value depends in part on trade secrets, recipes, and processes. Contract manufacturers, suppliers, employees, or influencers may misappropriate or disclose confidential information despite our protective measures.

Limited patent protection. Some formulations may not be patentable; even if patents are pursued, they may not issue or may be narrow or easily designed around.

Brand and trademark risks. We may face oppositions or infringement claims. If we are required to rebrand or modify packaging, costs and lost goodwill could be significant.

Content/IP from influencers. Ownership and licensing of influencer-created content can be complex; we may not secure broad, perpetual rights or may face takedown claims.

Key person risk. Our strategy depends on a small team. Loss of key leaders, formulation scientists, or supply chain staff could materially harm us.

Hiring and retention challenges. Competition for experienced CPG talent is intense, and we may be unable to hire at expected timelines or cost.

Internal controls and scalability. Rapid growth may strain systems, inventory control, QA/QC, and financial reporting processes, leading to errors or inefficiencies.

History of losses; need for additional capital. We expect negative cash flow from operations for the foreseeable future and will likely need

Failure to obtain needed financing. We cannot guarantee that we will be able to obtain the necessary funds and we may need additional financing, which may not be available on acceptable terms.
Inventory and working capital requirements. Manufacturing MOQs, retailer terms, and promotional spend may require substantial cash outlays before revenue is realized.
Insurance may be inadequate. Product liability, recall, cyber, and business interruption insurance may be unavailable, inadequate, or expensive.
Exposure to product liability and consumer claims. Allegations of injury, false advertising, or unfair competition could result in costly litigation or settlements.
Regulatory enforcement. We may be subject to investigations or actions by federal or state regulators related to labeling, claims, marketing practices, or privacy.
Contract disputes. We may face disputes with manufacturers, suppliers, influencers, agencies, 3PLs, or retailers that disrupt operations or increase costs.
SAFE is a highly speculative, illiquid security. A SAFE does not guarantee equity, dividends, or returns and is not debt. It is risky and may result in a total loss of investment.
Uncertain conversion terms and timing. The SAFE converts only upon certain future events (e.g., priced equity financing, liquidity event, or dissolution) and may never convert. The valuation cap, discount, or other mechanics may result in substantial dilution to investors relative to later investors or founders.
No voting, information, or dividend rights. SAFE holders generally lack voting rights and may receive limited information. We do not expect to pay dividends.
Future financing may dilute you further. We may issue additional SAFEs, convertible notes, preferred stock with senior rights, options, or other securities that dilute your economic interests or are senior to your position.
Limited or no secondary market; transfer restrictions. Securities sold under Reg CF are subject to transfer restrictions for at least one year (subject to limited exceptions), and there is no public market for our securities.
Offering cap and intermediary dependence. Regulation Crowdfunding imposes annual raise limits and requires using a registered intermediary. Platform rules, outages, or changes in fee structures could affect the timing or success of the offering.
Valuation is arbitrary. Our implied valuation cap or terms were not set by an independent third party and may not reflect fair market value.
Use of proceeds discretion. Management has broad discretion over how proceeds are used and may deviate from the use described in the Form C.
Financial statement and ongoing reporting limitations. As a private early-stage company, our financials may be prepared on a basis that differs from public companies, and our ongoing Reg CF annual reporting may be limited and subject to change if thresholds are not met.
Tax treatment uncertainty. Tax consequences of holding or converting a SAFE can be complex and vary by investor. Investors should consult their own tax advisors.
Economic conditions may reduce demand. Inflation, interest rates, consumer confidence, or employment trends can impact discretionary spending on premium food products.
Public health, weather, and geopolitical events. Pandemics, extreme weather, or geopolitical instability can disrupt supply chains, ingredient availability, manufacturing, and logistics.
Dependence on third-party certifications. If we pursue certifications (e.g., organic, non-GMO, gluten-free, kosher), delays or loss of certification could limit marketability and require reformulation or relabeling.
The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.
Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.
We are an early-stage company with limited operating history, no assurance of profitability, and negative cash flows expected for the foreseeable future. Our strategy requires significant spending on product development, marketing, inventory, and working capital, and we may never achieve profitability.
We will likely need additional capital, which may not be available on acceptable terms. Future financings could be dilutive, senior to this round, or contain investor-friendly terms (liquidation preferences, anti-dilution, debt covenants) that disadvantage you.
Valuation and target milestones are uncertain. Our valuation is not based on a public market and may not reflect actual company value; we may fail to meet growth or margin targets embedded in our projections.
Our securities are illiquid. Securities sold under Regulation Crowdfunding are subject to transfer restrictions for one year and there is no active secondary market. You may be unable to sell your investment when desired, or at all.
Unproven market acceptance. Consumer demand for our products is uncertain. Even if the broader "health food" category grows, interest in our specific formulations, flavors, and formats may not materialize or may be short-lived.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering? ⓘ

If we raise: **\$50,000**

Use of Proceeds: 7.9% Wefunder Fee, 22.5% Marketing, 24.27% Bar production, 4.21% 3PL, 19.42% G&A/Salaries, 12.62% Contractors, 4.54% Legal, 4.54% Accounting/Finance

If we raise: **\$1,000,000**

Use of Proceeds: 7.9% Wefunder Fee, 22.5% Marketing, 24.27% Bar production, 2.91% 3PL, 19.42% G&A/Salaries, 12.62% Contractors, 5.2% Legal, 5.18% Accounting/Finance. Raising our maximum will allow us to put the GLO Bar into production, by which we'll develop our first dedicated customer base for GLO Ventures (we expect a quick sellout). Simultaneously, it will set the stage to bring our next product(s) to market.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the Wefunder platform. All references in this Form C to an investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline.

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be canceled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

To view a copy of the SAFE you will purchase, please see [Appendix B, Investor Contracts](#). The main terms of the SAFEs are provided below.

The SAFES. We are offering securities in the form of a Simple Agreement for Future Equity ("SAFE"), which provides Investors the right to **Preferred Stock** in the Company ("**Preferred Stock**"), when and if the Company sponsors an equity offering that involves **Preferred Stock**, on the standard terms offered to other investors.

Conversion to Preferred Equity. Based on our SAFES, when we engage in an offering of equity interests involving **Preferred Stock**, **Investors will receive a number of shares of Preferred Stock** calculated using the method that results in the greater number of **Preferred Stock**:

- i. the total value of the Investor's investment, divided by
 - a. the price of **Preferred Stock** issued to new Investors
- ii. if the valuation for the company is more than **\$5,000,000.00** (the "Valuation Cap"), the amount invested by the Investor divided by the quotient of
 - a. the Valuation Cap divided by

- b. the total amount of the Company's capitalization at that time.
- iii. For investors up to the first **\$100,000.00** of the securities, investors will receive a valuation cap of **\$4,500,000.00**. Wefunder VIP investors will be entitled to these terms for the entire duration of the offering, even if the threshold limit noted above is met.

Additional Terms of the Valuation Cap. For purposes of option (ii) above, the Company's capitalization calculated as of immediately prior to the Equity Financing and (without double-counting, in each case calculated on an as-converted to Common Stock basis):

- Includes all shares of Capital Stock issued and outstanding;
- Includes all Converting Securities;
- Includes all (i) issued and outstanding Options and (ii) Promised Options; and
- Includes the Unissued Option Pool, except that any increase to the Unissued Option Pool in connection with the Equity Financing shall only be included to the extent that the number of Promised Options exceeds the Unissued Option Pool prior to such increase.

Liquidity Events. If the Company has an initial public offering or is acquired by, merged with, or otherwise taken over by another company or new owners prior to Investors in the SAFEs receiving **Preferred Stock**, Investors will receive

- proceeds equal to the greater of (i) the Purchase Amount (the "Cash-Out Amount") or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount")

Liquidity Priority. In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard nonparticipating Preferred Stock. The Investor's right to receive its Cash-Out Amount is:

- Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);
- On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and
- Senior to payments for Common Stock.

VIP Bonus

GLO Health Foods will offer a discount to the normal terms listed in this Form C for all investments that are committed by investors who are part of Wefunder, Inc's VIP program. This means eligible Wefunder investors will receive a discount for any securities they purchased in this offering. For more specific details on the company's discount, please review the description of the terms above.

The discount is only valid until the offering closes. Investors eligible for the bonus will also receive priority if they are on a waitlist to invest and the company exceeds its maximum funding goal. They will be given the first opportunity to invest if space in the offering becomes available due to the cancellation or failure of previous investments.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV is formed concurrently with the filing of the Form C. Given this, the SPV does not have any financials to report. The SPV is managed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. While the Issuer may be required to pay an annual administrative fee for the maintenance of the SPV, investors should note the Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

- ☐ Yes
- ☒ No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

Any provision of this Safe may be amended, waived or modified by written consent of the Company and either:

- i. the Investor or
- ii. the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), provided that with respect to clause (ii):
- A. the Purchase Amount may not be amended, waived or modified in this manner;
 - B. the consent of the Investor and each holder of such Safes must be solicited (even if not obtained), and
 - C. such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the total Purchase Amount of all of such applicable group of Safes.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

- A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and
- B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

Restrictions on Transfer of the Securities Being Offered:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- 1. to the Issuer;
- 2. to an accredited investor;
- 3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
- 4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Authorized	Outstanding	Voting rights
Common Stock	10,000,000	5,333,334	☒
Class of Security	Total Pool	Issued	
Warrants	—		
Options	650,000	325,000	

Describe any other rights:

The company has yet to authorize any preferred stock. This SAFE, in the event of a conversion event, will convert into preferred stock. Preferred stock will have liquidation preference over common stock.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a SAFE is determined by the investor, and we do not guarantee that the SAFE will be converted into any particular number of **shares of Preferred Stock**. As discussed in Question 13, when we engage in an offering of equity interests involving **Preferred Stock**, Investors may receive a number of shares of **Preferred Stock** calculated as either (i) the total value of the Investor's investment, divided by the price of the **Preferred Stock** being issued to new Investors, or (ii) if the valuation for the company is more than the Valuation Cap, the amount invested divided by the quotient of (a) the Valuation Cap divided by (b) the total amount of the Company's capitalization at that time.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the **Preferred Stock** that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our **board of directors**. Among the factors we may consider in determining the price of **Preferred Stock** are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our **stock (including both common stock and Preferred Stock)** that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of

the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Clean protein powder with minimal ingredients. The Company is headquartered in Austin, Texas, and is a consumer-focused company developing proprietary food and beverage products in high-demand categories. The Company will launch first through direct-to-consumer platforms, later expanding into brick-and-mortar channels, leveraging unique built-in marketing vehicles and a team of seasoned industry experts.

Milestones

GLO Ventures Inc., ("the Company") was originally formed as LYT Tech Inc. on October 18th, 2022 and incorporated into a Delaware C-Corporation and changed its name to GLO Ventures Inc. on August 5th, 2024.

Since then, we have:

- All-star team across every CPG industry category incl. the experts behind Magic Spoon/Stars & Honey.
- Created by Gabbi Tuft, Licensed Sports Nutritionist, w/over 80M monthly views on TikTok & Instagram.
- Highly targeted whitespace to target massive success; 1st-protein; 2nd-BARS; then, 3 more disruptors
- Vested influencer network driving GLO's marketing funnel--100M+ combined followers
- Clean formula: no artificial, seed oils, or GMOs--glyphosate-free & sweetened w/ allulose.
- Bars contain myoinositol-- tastes great, helps stop carbs turning to fat, while curbing hunger!

The Company is subject to risks and uncertainties common to early-stage companies. Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future.

Historical Results of Operations

Our company was incorporated in October 2022 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2025, the Company had revenues of \$0 compared to the year ended December 31, 2024, when the Company had revenues of \$0.
- *Assets.* As of December 31, 2025, the Company had total assets of \$35,781, including \$21,781 in cash. As of December 31, 2024, the Company had \$0 in total assets, including \$0 in cash.
- *Net Loss.* The Company has had net losses of \$54,741 and net income of \$0 for the fiscal years ended December 31, 2025 and December 31, 2024, respectively.
- *Liabilities.* The Company's liabilities totaled \$30,071 for the fiscal year ended December 31, 2025 and \$0 for the fiscal year ended December 31, 2024.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$4,571 in debt and \$270,000 in SAFEs.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 8 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 4 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

GLO Ventures Inc. cash in hand is \$98,276, as of March 2026. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$35,000/month, for an average burn rate of \$35,000 per month. Our intent is to be profitable in 6 months.

Since the date our financials cover, we have tested proof of concept by Launching GLO protein through co founder Gabbi Tuft's separate channels.

Over the next 3-6 months we expect revenue of approximately \$230,000 - \$350,000 and expenses of approximately \$211,411 - \$422,822. We are not currently generating revenue and will need at least \$200k in funding to reach revenue generation. We expect that we will begin to generate revenue immediately upon moving assets of GLO protein to GLO Ventures; bar revenue generation to begin upon launch of crowdfund.

We are not yet profitable; however, upon completion of this crowdfund, we will effectively be operating in the black. We expect this to occur no later than the end of this calendar year. In order to become profitable, we will need at least \$200k in funding. The completion of the crowdfund will enable us to produce and bring the GLO Bars to market, for which we already have a ready-made buyer constituency. In addition, GLO Protein will generate concurrent revenue, further strengthening our early profitability position.

In addition to raising capital through Wefunder, we are concurrently securing funds from more traditional sources, including family offices and early-stage venture capital firms. If we don't raise more than \$50k in funds via Wefunder, we would plan to continue raising funds through family offices/VC. Furthermore, upon transferring the assets of GLO Protein to GLO Ventures, the company will begin generating immediate revenue from that product line, while also expecting to generate additional revenue from GLO Bars as soon as the crowdfund launches.

All projections in the above narrative are forward-looking and not guaranteed.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include: ③

- (1) any other material information presented to investors; and

- (2) such further material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such a circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in

section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. If applicable, the Company may also be required to pay Wefunder certain fees for the preparation of tax filings. Such fees and the Company's obligation to deliver required tax documents are further specified in the related Tax Services Agreement ("TSA").

Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

Potential Dissolution of the SPV. The Company has agreed that it will pay an administrative fee and / or certain tax fees to Wefunder, in addition to delivering required tax information in the manner prescribed by the TSA, where applicable. Failure to pay such fees or provide Wefunder with required tax information could result in the dissolution of the SPV (an "SPV Dissolution Event"). Subsequent to an SPV Dissolution Event, the securities held by the SPV would be distributed directly and proportionally to the individual investors. This could create administrative complexities, as investors would need to manage the securities themselves rather than having them held and administered by the SPV. Additionally, the unplanned distribution of securities may not align with investors' intended investment strategy or asset allocation.

Upon an SPV Dissolution Event, the Investor hereby consents to and agrees to accept direct assignment of the SPV's rights and obligations under any investment agreements between the SPV and the Company that is located in the Form C or C/A offering materials. The Investor acknowledges they will be bound by all terms and conditions of such agreements as if they were an original party thereto.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<https://www.shop.coachgabbri.com/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million; or
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.

Wefunder Portal will review the information you provide before we agree to submit a Form C to the SEC. Our review is designed to assess whether the information you have provided is complete and not inaccurate, misleading or otherwise fraudulent. Despite our review, the company submitting this Form C may be held responsible for all information provided through it, and for ensuring that the information it submits is not false or misleading in any material way and does not omit any information that would cause the information included to be false or misleading. By submitting your Form C to us, you acknowledge this. You also agree to provide any additional information or clarification we may request from you so that the Form C we submit on your behalf, in our reasonable, good faith review, does not contain incorrect information. Wefunder Portal will not submit a Form C that we believe, in our sole discretion, omits material information or contains false or misleading information. As a result, there is no guarantee that we will submit a Form C on your behalf.

Intentional misstatements or omissions of facts constitute federal criminal violations. See 18 U.S.C. 1001.

The issuer certifies that it has established means to keep accurate records of the holders of the securities it would offer and sell through the Form C.

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned.

I authorize Wefunder Portal to submit a Form C to the SEC based on the information I provided through this online form and my company's Wefunder profile.

As an authorized representative of the company, I appoint Wefunder Portal as the company's true and lawful representative and attorney-in-fact, in the company's name, place and stead to make, execute, sign, acknowledge, swear to and file a Form C, any future non-material Form C-A, any future Form C-U, and any future Form C-W on the company's behalf. This power of attorney is coupled with an interest and is irrevocable. The company hereby waives any and all defenses that may be available to contest, negate or disaffirm the actions of Wefunder Portal taken in good faith under or in reliance upon this power of attorney.

Before you click on the button below, please review the information you have provided carefully.

We strongly recommend you have your company's lawyer review the information as well. The company submitting this Form C is responsible for all information provided through it, and for ensuring that the information it submits is not false or misleading in any material way and does not omit any information that would cause the information included to be false or misleading.
