Virtual Piggy, Inc. is the first e-commerce solution that enables kids, teens, and young adults to manage and spend money within a parent-controlled environment. The technology company delivers a payment platform designed for the Under 21 age group in the global online market, and also enables online businesses the ability to function in a manner consistent with the Children's Online Privacy Protection Act ("COPPA") and similar international children's privacy laws. Virtual Piggy enables the Under 21 audience to play, transact and socialize in a secure online environment guided by parental permission, oversight and control.
