PicMii does not make investment recommendations and no communication through this website or in any other medium should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Cautionary Note Concerning Forward-Looking Statements

This Form C and any documents incorporated by reference herein contain forward-looking statements and are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this Form C are forward-looking statements. Forward-looking statements give our current reasonable expectations and projections regarding our financial condition, results of operations, plans, objectives, future performance and business. Employee Name and Title

Tracy Rosensteel: Chief Franchise Officer

Mrs. Rosensteel's primary position is with issuer.

Employee Background

Chief Franchise Officer of the GolfSuites successor entity. Tracy is a graduate of The University of St. Thomas in St. Paul, MN. She has fully “invented” the overall comprehensive franchise platform of the golf company. She has selected and engaged the contract advisors and marketers and has designed and budgeted the entire franchise undertaking. Opinions are that the franchise side of GolfSuites could / should outdistance the owner-operator side by as many as 5 to 1 the number of sites. The Five Iron and Back Nine brands prove this concept, but GolfSuites is comparatively more food/beverage intense than those brands. Tracy boasts a prestigious background of 20 years on Wall Street, owning and managing various companies including Vega Consulting (her own company), British Telecom, Telstra, Vela Trading, and other companies all in the “back-room” technical support sectors of Wall Street Trading. Tracy opened and owns an environment-friendly pet product – Pooch Paper – for which she appeared with Kevin O’Leary on the TV hit show – Shark Tank; she still operates that company and consults to various corporations. Once the franchise company is fully launched, Tracy has advised us she will revert to full-time with GolfSuites

Principal Security Holders

Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control - as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

Business and Anticipated Business Plan

Business of the issuer and the anticipated business plan

Overview:

GolfSuites is developing a compact, premium indoor sports entertainment venue designed to combine multiple recreational attractions with a food and beverage operation under one roof. Each location is planned as an approximately 5,500-square-foot venue featuring golf simulators, duckpin bowling, interactive darts, a full-service bar, and a limited-service kitchen focused on elevated bar food.

The Company believes that combining multiple entertainment offerings within a relatively small footprint creates a destination capable of serving a broad customer base, including casual visitors, families, corporate groups, leagues, tournaments, and private events. Rather than relying on a single attraction, GolfSuites is designed to generate revenue from multiple complementary sources, including hourly entertainment activities, food and beverage sales, memberships, leagues, and special events.

The Company's concept emphasizes operational efficiency by concentrating capital expenditures on guest-facing attractions while maintaining a simplified food and beverage operation intended to maximize speed of service, consistency, and operating margins.

Market Opportunity:

GolfSuites believes there is growing consumer demand for indoor, year-round entertainment venues that combine social experiences with food and beverage offerings. Traditional sports bars generally rely primarily on food and beverage sales, while many entertainment venues focus on a single attraction such as bowling or golf simulation.

The Company believes there is an opportunity to create a venue that encourages longer customer visits and higher overall spending by integrating several entertainment experiences into one location. The Company also believes demand from corporate outings, birthday parties, leagues, tournaments, and other group events provides opportunities to generate recurring revenue throughout the year.

Problem:

According to the Company, many entertainment concepts depend heavily on a single source of customer traffic or revenue, making utilization inconsistent during off-peak hours. Likewise, traditional restaurants and bars often have limited opportunities to increase customer spending beyond food and beverage purchases.

The Company believes that venues offering only one activity may have fewer opportunities to extend customer visits, create repeat programming, or increase average customer spending through multiple experiences.

Solution:

GolfSuites has developed a venue concept designed to encourage longer customer visits while creating multiple opportunities for revenue generation during each guest experience.

Each planned location is expected to include:

- Four to eight golf simulator bays
- Two duckpin bowling lanes
- Two Dartsee interactive dart systems
- A full-service liquor bar
- A limited food menu featuring pizza, wings, smash burgers, and other elevated bar offerings

The Company believes this combination encourages guests to participate in multiple activities during a single visit while increasing food and beverage purchases and supporting repeat visits through leagues, memberships, tournaments, and private events

Products and Services:

GolfSuites intends to generate revenue through several complementary business lines, including:

1. Golf Simulation

Customers reserve simulator bays by the hour for recreational play, leagues, tournaments, and private events.

2. Duckpin Bowling

Duckpin bowling is intended to provide an additional entertainment option appealing to families, groups, and casual visitors.

3. Interactive Darts

The Company's Dartsee systems offer technology-enhanced dart games designed for repeat play and event participation.

4. Food & Beverage

Each location is expected to operate a full liquor bar emphasizing bourbon, domestic beer, and craft beer, together with a streamlined kitchen serving pizza, wings, smash burgers, and other bar-oriented menu items intended to simplify operations while maintaining attractive gross margins.

5. Private Events

The Company plans to host:

- Corporate outings
- Birthday parties
- Team-building events
- Golf leagues
- Tournaments
- Group reservations

These activities are expected to help increase utilization during non-peak operating periods.

Business Model:

GolfSuites operates a multi-revenue entertainment model in which each customer visit is intended to generate revenue from multiple sources.

Revenue is expected to include:

- Golf simulator rentals
- Duckpin bowling
- Interactive darts
- Food sales
- Alcoholic beverage sales
- Private events
- Memberships
- League participation
- Tournament programming

Management believes the combination of multiple attractions extends average customer dwell time to approximately two to three hours, creating additional opportunities for food and beverage purchases during each visit.

Growth Strategy:

GolfSuites intends to expand by developing additional compact-format entertainment venues utilizing a standardized design and operating model.

Management believes the relatively small building footprint and standardized entertainment package may facilitate replication across multiple markets while maintaining consistent customer experiences.

The Company also intends to increase customer retention through recurring programming such as:

- Golf leagues

- Bowling leagues
- Corporate events
- Membership programs
- Tournament play
- Community events

Competitive Advantage:

Management believes GolfSuites offers several competitive advantages, including:

- Multiple revenue streams generated within a single location
- Compact venue footprint designed to maximize revenue per square foot
- Diverse entertainment offerings appealing to multiple customer demographics
- Simplified, high-margin food and beverage operations
- Event-ready facilities capable of hosting corporate and private gatherings
- Opportunities for recurring customer engagement through memberships, leagues, and tournaments

The Company believes this operating model allows it to monetize each guest visit through several complementary revenue channels rather than relying on a single activity or food and beverage sales alone.

Current Strategy:

GolfSuites has developed its venue concept, operating model, and financial projections for a standardized indoor entertainment location. The Company is seeking capital to support development and expansion of additional locations while leveraging its management team's experience in construction, operations, hospitality, and entertainment venue development.

A major contingent of the Company's business plan is to franchise indoor venues. Management is currently working to gain Federal Trade Commission approval with franchise disclosure documents to solicit franchises. Presuming these approvals occur, the Company will commence soliciting franchises.

This version is structured in the style commonly used in Reg CF Form C filings and avoids promotional language that the SEC generally discourages, while still presenting the company's business in a clear and comprehensive manner.

Pivot from Outdoor Venue to Indoor:

With combined founder, Reg A, and Reg D financing of approx. \$35 million, GolfSuites has owned and operated three outdoor driving range sites, the company's initial thrust in cloning TopGolf, DriveShack, and other large super-structure outdoor venues. Since late 2019, GolfSuites has banked in excess of \$57 million of gross revenue from these three sites. In this

time, expertise has evolved leading to a major decision to pivot from the outdoor venue to indoor. Reasons?

- From site identification to opening, as little as six months – compared to a minimum of 18 – 24 months for outdoor. Outdoors require extensive zoning / rezoning, municipal approvals, evening light ordinances, traffic / parking. Indoors will be exclusively placed in upper-scale retail centers, many already possessing kitchen facilities, with ready parking already in place, along with abundant cross-traffic from adjoining retail and dining outlets.
- Weather immune – outdoor venues are constantly fighting the elements, whereas indoors can be placed in the summer heat of Miami and the winter cold of Anchorage.
- Cost – minimum outdoor cost for a single-floor 40-bay venue = \$12 to \$14 million. Indoor costs will range from \$2 to \$3.5 million, depending on size.
- FRANCHISABLE! Selling a franchisee on a \$2 million spend vs. a \$12 to \$14 million spend is self-explanatory. This is why indoor franchises are proliferating and outdoors are not.
- Google TopGolf and see the negative press garnered by Callaway's recent sale to a private equity group, dropping valuation by \$1 billion in the chain.

Risk Factors

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters. The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Regulatory changes and uncertainties.

The Company operates in a highly regulated industry subject to substantial change. In addition, both its labor and customer base are licensed and regulated by local, state, and federal governments. Policies may be changed for several reasons including, but not limited to economic conditions, public safety, socio-political factors, and such. As policy changes are made by regulators, there is no guarantee that the company will be able to provide services in its current form, which may place a substantial hardship on operations, causing an Investor to lose all or a portion of their investment.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations may require a significant pivot in strategy and execution, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenue, as well as the inherent business risks associated with our Company and present and future market conditions.

The Company's success depends on the experience and skill of its manager and other key personnel.

In particular, we are dependent on our managers. The loss of the Managers, the Principals or any other key personnel could harm the Company's business, financial condition, cash flow and performance. Accordingly, you should not invest in the Company unless you are willing to entrust all aspects of the management of the Company and the investment decisions we make on the behalf of the Company.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success and will be critical to our success as we form and advise new markets. Any incident that erodes confidence in our brand could significantly reduce the Company's value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correct.

Risks Related to the Offering

The U.S. Securities and exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered Offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering “ it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Although Investors will have no right to voluntarily withdraw capital from the Company or withdraw their Securities, in certain circumstances they may be forced to withdraw from the Company.

An Investor may be forced to withdraw from the Company if the Company reasonably determines that it is necessary or desirable to do so in order to comply with applicable law or regulations, or to avoid a material adverse effect on the Company or the other holders of securities in the Company.

Investors will have no right to control the Company's operations.

The Investors will have no opportunity to control the day-to-day operations of the Company, including, without limitation, the investment and disposition decisions of the Portfolio Companies. In order to safeguard your limited liability for the liabilities and obligations of the Company, you must rely entirely on the Manager and Principals to conduct and manage the business affairs of the Company

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

The Company may never undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never undergo a liquidity event such as a repurchase of the Securities by the Company, a sale of the Company or an initial public or coin offering. If a liquidity event does not occur, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities have no voting rights or ability to direct the Company or its actions.

The Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company's equity securities will be subject to dilution. The Company may issue additional equity to third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's economic interests in the Company. The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of

the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

The Securities may be substantially different from other equity securities offered or issued by the Company.

The Securities may be materially different from the other equity securities of the Company in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. The Securities may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred membership interests, have been paid in full. Neither holders of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

Price Per Security	\$5.00
Minimum Individual Purchase Amount	\$750.00
Offering Deadline	February 28, 2027
Use of Proceeds	See Question 8
Voting Power	See Question 13

*The Company reserves the right to amend the Minimum Individual Purchase Amount, in its sole discretion.

GolfSuites 1, Inc. ("Company") is offering securities under Regulation CF, through PicMii Crowdfunding LLC ("PicMii"). PicMii is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.9% of the value of the securities sold through Regulation CF and a \$5,000 listing fee. The issuer is also responsible for reimbursing PicMii for the cost associated with escrow, payments and bad actor check costs. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$10,000 and \$5,000,000 through an offering under Regulation CF. Specifically, if we reach the Minimum Raise Amount of \$10,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after closing, will only impact investments which have not yet to be closed.

In the event The Company fails to reach the minimum offering amount of \$10,000, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

Offering Purpose:

If the maximum offering amount is raised, our anticipated use of proceeds is as follows below in the "Use of Proceeds" section.

Use of Proceeds:

	% of Capital if Target Offering Amount Raised	Amount if Target Offering Amount Raised	% of Capital if Maximum Offering Amount Raised	Amount if Maximum Offering Amount Raised
PicMii Portal Fee	4.90%	\$490.00	4.90%	\$245,000
Overhead	10%	\$1,000	10%	\$500,000
Franchise	10%	\$1,000	10%	\$500,000
Development Costs	75.1%	\$7,510	75.1%	\$3,755,000
Total	100%	\$10,000	100%	\$5,000,000

*We reserve the right to change the above use of proceeds if management believes it is in the best interest of the Company.

How will the issuer complete the transaction and deliver securities to the investors?

Transfer Agent - In entering into an agreement on PicMii Crowdfunding's Funding Portal to purchase securities, both investors and the Company must agree that a transfer agent, which keeps records of our outstanding Common Stock (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed) or that the Company is capable of maintaining investment records on their own. In this case, the company will be utilizing a transfer agent.

How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering. PicMii will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). PicMii Crowdfunding will notify investors when the target offering amount has been met. If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled, and the committed funds will be returned.

Can the company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional

closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

12. Describe the terms of the securities being offered.

Up to \$5,000,000 in Class A Common Stock at \$5.00 per share with a minimum target amount of \$10,000.

Offering Minimum: \$10,000 | 2,000 shares of Class A Common Stock

Offering Maximum: \$5,000,000 | 1,000,000 shares of Class A Common Stock

Type of Security Offered: Class A Common Stock

Purchase Price of Security Offered: \$5.00 per Share

Minimum Investment Amount (per investor): \$750.00 | 150 shares of Class A Common Stock

The Minimum Individual Purchase Amount accepted under this Regulation CF Offering is \$750.00. The Company must reach its Target Offering Amount of \$10,000 by February 28, 2027 (the "Offering Deadline"). Unless the Company raises at least the Target Offering Amount of \$10,000 under the Regulation CF offering by the Offering Deadline, no securities will be sold in this Offering, investment commitments will be cancelled, and committed funds will be returned.

Time-Based Incentives:

Super Early Bird: Invest by October 31st, 2026 of this Regulation Crowdfunding offering and receive a 20% bonus shares.

Early Bird Bonus: Invest from November 1st, 2026 to November 30th, 2026 of this Regulation Crowdfunding offering and receive a 10% bonus shares.

Last Chance Bonus: Invest from December 1st, 2026 to December 31st, 2026 of this Regulation Crowdfunding offering and receive a 5% bonus shares.

Amount-Based Incentives:

Tier 1: Invest \$2,000+ and receive 5% bonus shares.

Tier 2: Invest \$5,000+ and receive 10% bonus shares.

Tier 3: Invest \$10,000+ and receive 20% bonus shares.

**Investors can only receive one (1) amount-based incentive. Amount-based incentives cannot be combined with the time-based incentives. The higher bonus will be selected.*

***In order to receive perks from an investment, one must submit a single investment in the same offering that meets the minimum perk requirement. Cumulative investments, individual investments submitted over time, cannot be combined to meet the perk requirements. All perks are issued or awarded when the offering is completed.*

****Crowdfunding investments made through a self-directed IRA cannot receive non-bonus share perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those non-bonus share perks because they would be receiving a benefit from their IRA account.*

*****fractional shares will be rounded up*

13. Do the securities offered have voting rights? Voting Rights and Proxy:

The Company is offering Class A Common Stock, which has voting rights, however, those rights will be sent back to the CEO through proxy:

Voting Proxy. Each Subscriber shall appoint the Chief Executive Officer of the Company (the "CEO"), or his or her successor, as the Subscriber's true and lawful proxy and attorney, with the power to act alone and with full power of substitution, to, consistent with this instrument and on behalf of the Subscriber, (i) vote all Securities, (ii) give and receive notices and communications, (iii) execute any instrument or document that the CEO determines is necessary or appropriate in the exercise of its authority under this instrument, and (iv) take all actions necessary or appropriate in the judgment of the CEO for the accomplishment of the foregoing. The proxy and power granted by the Subscriber pursuant to this Section are coupled with an interest. Such proxy and power will be irrevocable. The proxy and power, so long as the Subscriber is an individual, will survive the death, incompetency and disability of the Subscriber and, so long as the Subscriber is an entity, will survive the merger or reorganization of the Subscriber or any other entity holding the Securities. However, the Proxy will terminate upon the closing of a firm-commitment underwritten public offering pursuant to an effective registration statement under the Securities Act of 1933 covering the offer and sale of Common Stock or the effectiveness of a registration statement under the Securities Exchange Act of 1934 covering the Common Stock.

14. Are there any limitations on any voting or other rights identified above?

See Question 13.

15. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be

completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be cancelled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.
- The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person. The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

16. Material terms of any outstanding securities or classes of securities of the issuer.

Preferred Stock	40,000,000	0	N/A	N/A	Yes – 1 vote per share

Options, Warrants and Other Rights

17. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible bonds, preferred shares or warrants) into stock. If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the company)

18. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No. The Company is offering Class A Common Stock, which has voting rights, however, those rights will be sent back to the CEO through proxy:

Voting Proxy. Each Subscriber shall appoint the Chief Executive Officer of the Company (the "CEO"), or his or her successor, as the Subscriber's true and lawful proxy and attorney, with the power to act alone and with full power of substitution, to, consistent with this instrument and on behalf of the Subscriber, (i) vote all Securities, (ii) give and receive notices and communications, (iii) execute any instrument or document that the CEO determines is necessary or appropriate in the exercise of its authority under this instrument, and (iv) take all actions necessary or appropriate in the judgment of the CEO for the accomplishment of the foregoing. The proxy and power granted by the Subscriber pursuant to this Section are coupled with an interest. Such proxy and power will be irrevocable. The proxy and power, so long as the Subscriber is an individual, will survive the death, incompetency and disability of the Subscriber and, so long as the Subscriber is an entity, will survive the merger or reorganization of the Subscriber or any other entity holding the Securities. However, the Proxy will terminate upon the closing of a firm-commitment underwritten public offering pursuant to an effective registration statement under the Securities Act of 1933 covering the offer and sale of Common Stock or the effectiveness of a registration statement under the Securities Exchange Act of 1934 covering the Common Stock.

19. How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?

The holder of a majority of the voting rights in the company may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the

risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

20. How are the securities being offered valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The issuer is raising this Regulation Crowdfunding round at a \$107,544,785 pre-money valuation.

The securities being offered are valued at the issuer's discretion. An early-stage company typically sells its shares (or grants options over its shares) to its founders and early employees at a very low cash cost, because they are, in effect, putting their "sweat equity" into the company. When the company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their shares than the founders or earlier investors, which means that the cash value of your stake is immediately diluted because each share of the same type is worth the same amount, and you paid more for your shares than earlier investors did for theirs.

There are several ways to value a company, and none of them is perfect and all of them involve a certain degree of guesswork. Any of these methods, plus others, may be used to determine valuation in the future:

Liquidation Value – The amount for which the assets of the company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, this value does not reflect the potential value of a business, e.g., the value of the secret recipe. The value for most startups lies in their potential, as many early-stage companies do not have many assets.

Book Value – This is based on analysis of the company's financial statements, usually looking at the company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e., what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks or trade names, are very valuable but are not usually represented at their market value on the balance sheet.

Earnings Approach – This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost opportunity to participate in other investments, the risk of not receiving the return. However, predictions of the future are uncertain and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. Typically, liquidation value and book value will produce a lower valuation than the earnings approach. However, the earnings approach is also most likely to be risky as it is based on many assumptions about the future, while liquidation value and book value are much more conservative.

Future investors (including people seeking to acquire the company) may value the company differently. They may use a different valuation method, or different assumptions about the company's business and its market. Different valuations may mean that the value assigned to your

investment changes. It frequently happens that when a large institutional investor such as a venture capitalist makes an investment in a company, it values the company at a lower price than the initial investors did. If this happens, the value of the investment would go down.

21. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

The company's Certificate of Incorporation or Bylaws can be amended by the holders of a majority of the issued and outstanding shares of the Company. As minority owners, the crowdfunding investors are subject to the decisions made by the majority owners. The issued and outstanding shares of common stock give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as, among other things: (a) the liquidation, dissolution or winding up of the company, or effecting any merger or consolidation; (b) amendment of any provision of the Certificate of Incorporation or Bylaws; (c) creation and issuance of other securities having rights, preferences or privileges senior to the common stock sold to the crowdfunding investors, or increasing the authorized number of shares of stock of the company; or (d) creation of any debt security.

22. What are the risks to purchasers associated with corporate actions including:

- 1. Additional issuances of securities**
- 2. Issuer repurchases of securities**
- 3. A sale of the issuer or of assets of the issuer**
- 4. Transactions with related parties**

The authorization and issuance of additional shares of the company's common stock will dilute the ownership of the crowdfunding investors. As a result, if the company achieves profitable operations in the future, its net income per share will be reduced because of dilution, and the market price of the company's common stock, if there is a market price, could decline as a result of the additional issuances of securities. If the company repurchases securities, so that the above risk is mitigated, and there are fewer shares of common stock outstanding, the company may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our securities would decline. A sale of the company or of all of the assets of the company may result in an entire loss of your investment. We cannot predict the market value of the company or its assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to negotiate with a related party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. Even if such financing is available, it may be on terms that are materially averse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms.

23. Material terms of any indebtedness of the issuer:

The Company has received working capital from its parent entity to cover expenses and costs while preparing for the securities offering. The total of these previously advanced funds was converted to Additional Paid-in Capital in 2023 and 2022 (see Note 7 in Exhibit A). As of December 31, 2025 the balance of these advances owed by GS 1 totaled \$1,764,485. The Company received advances from shareholders of the parent entity. The balance of these parent entity shareholder advances totaled \$650,000 and \$91,097 as of December 31, 2025 and 2024, respectively. These advances are recorded as liabilities of the Company.

Note payable secured by receipts of Lubbock. The original amount borrowed was \$300,000 and the total to be repaid is \$420,000. Payments are made weekly at the rate of 16% of receipts. The estimated average weekly payment is \$11,666.67

As of December 31, 2025, the Company had \$122,853 outstanding on a long-term loan from the U.S. Small Business Administration under its Economic Injury Disaster Loan program.

24. What other exempt offerings has the Company conducted within the past three years?

Type of security sold: Equity
Amount Sold to Date: \$827,061
Number of Securities Sold: 82,706
Use of proceeds: Overhead/Franchise Costs
Date: 10/19/2023
Offering exemption relied upon: Reg A

Type of security sold: Equity
Amount Sold to Date: \$0
Number of Securities Sold: 0
Use of proceeds: Overhead/Franchise Costs
Date: 3/11/2025

25. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

- 1. Any director or officer of the issuer;**
- 2. Any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;**
- 3. If the issuer was incorporated or organized within the past three years, any promoter of the issuer; or**

4. Any immediate family members of any of the foregoing persons.

The Company has received working capital from its parent entity to cover expenses and costs while preparing for the securities offering. The total of these previously advanced funds was converted to Additional Paid-in Capital in 2023 and 2022 (see Note 7 in Exhibit A). As of December 31, 2025 the balance of these advances owed by GS 1 totaled \$1,764,485. The Company received advances from shareholders of the parent entity. The balance of these parent entity shareholder advances totaled \$650,000 and \$91,097 as of December 31, 2025 and 2024, respectively. These advances are recorded as liabilities of the Company.

Financial Condition of the Issuer

26. Does the issuer have an operating history?

Yes.

27. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

GolfSuites 1, Inc. and Subsidiaries is an early-stage company focused on developing and operating golf entertainment facilities, including outdoor driving ranges and indoor golf simulator centers. For the fiscal year ended December 31, 2025, the Company reported net revenue of approximately \$3.36 million, compared to \$4.77 million in 2024, representing a decrease of approximately 30%. Gross profit totaled \$2.78 million, resulting in a gross margin of approximately 82.9%, compared to \$4.06 million and 85.0% in the prior year. Despite maintaining a strong gross margin, the Company's revenue decline and operating expenses of approximately \$3.19 million resulted in an operating loss of \$413,384, compared to an operating loss of \$351,648 in 2024.

The Company reported a net loss of approximately \$4.11 million in 2025, compared to a net loss of \$280,501 in 2024. The increased loss was primarily driven by approximately \$2.58 million in other expenses, including losses associated with discontinued development projects and facility closures, as well as interest expense of approximately \$402,000. During 2025, the Company discontinued development plans for its Auburn and City Club 1 facilities, resulting in a combined loss from discontinued operations of approximately \$1.60 million. The Company also recorded approximately \$973,000 in expenses related to the write-off of assets and liabilities associated with its Lubbock facility. These charges reflect the Company's efforts to discontinue underperforming operations and redirect its resources toward future opportunities, particularly indoor golf simulator centers.

As of December 31, 2025, the Company reported total assets of approximately \$3.22 million and total liabilities of approximately \$5.37 million, resulting in a stockholders' deficit of approximately \$2.15 million, compared to positive equity of \$4.70 million at the end of 2024. Cash and cash equivalents declined significantly from approximately \$372,000 to \$22,600, while current liabilities of approximately \$2.83 million substantially exceeded current assets of approximately \$361,000, indicating considerable short-term liquidity constraints. The Company also reported approximately \$2.41 million in related-party loans, highlighting its reliance on

financial support from its parent company and affiliated shareholders. Operating cash flow improved from approximately \$558,000 used in 2024 to approximately \$182,000 used in 2025, although the Company continued to consume cash from operations.

**For additional information regarding the issuer's financials, please review Exhibit A.*

28. Include the financial information specified by regulation, covering the two most recently completed fiscal years or the period(s) since inception if shorter.

See Exhibit A

29.
